**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This application is a request for a Variance to allow 53 parking spaces where Title 19.04.010 requires a total of 80 parking spaces for the Office, Other Than Listed use. The proposed two-story, 23,941 square-foot building has parking spaces of surface parking and spaces of subterranean parking on a 1.04 acre site generally located at the southeast corner of Red Coach Avenue and Balsam Street.

Because this issue stems from the overbuilding of the site and the resulting shortage of provided off-street parking, staff has determined this to be a self-imposed hardship; therefore, staff recommends denial of this Variance request.

**BACKGROUND INFORMATION**

<b><i>Related Relevant City Actions by P&amp;D, Fire, Bldg., etc.</i></b>	
There are no previous City actions recorded against this property generally located at the southeast corner of Red Coach Avenue and Balsam Street.	
<b><i>Related Building Permits/Business Licenses</i></b>	
There are no Building Permits or Business Licenses recorded against this property.	
<b><i>Pre-Application Meeting</i></b>	
10/01/07	A pre-application meeting was held with staff regarding the Rezoning and Site Development Review for a 1.04 acre parcel to develop an office building. Staff recommended completing a Variance request for a parking deficiency, as the applicant was unable to secure a shared parking agreement with the neighboring church.
<b><i>Neighborhood Meeting</i></b>	
11/15/07	The applicant held a neighborhood meeting at the Cimarron Rose Community Center located at 5591 N. Cimarron Road, Las Vegas, Nevada on Thursday, November 15, 2007 at 6:00 pm. The meeting was attended by 11 people and the following questions and comments were made: <ul style="list-style-type: none"> <li>• Widen Red Coach Avenue.</li> <li>• Two-story office but only one company in the building.</li> <li>• Will they close Balsam Street at Lone Mountain Road?</li> <li>• Construction anticipated in six to nine months.</li> <li>• Why require landscaping with drought?</li> <li>• No traffic on Balsam Street.</li> </ul>

The proposed two-story office building has a finished height of 35 feet. Staff finds that this proposal will not adversely affect the 175-foot height restriction placed by the Airport Overlay District.

**DEVELOPMENT STANDARDS**

*Pursuant to Title 19.10, the following parking standards apply:*

<b>Parking Requirement</b>							
<b>Use</b>	<b>Gross Floor Area or Number of Units</b>	<b>Parking Ratio</b>	<b>Required</b>		<b>Provided</b>		<b>Compliance</b>
			<b>Parking</b>		<b>Parking</b>		
			Regular	Handi-capped	Regular	Handi-capped

<b>TOTAL</b> (including handicap)			80 spaces		56 spaces		N

*\*A condition of approval has been placed on the accompanying Site Development Plan Review (SDR-25276) to provide revised site plans showing the addition of one handicapped parking space for a total of four handicapped parking spaces.*

**ANALYSIS**

The applicant is requesting a Variance to allow 56 parking spaces where Title 19.04.010 requires a total of 80 parking spaces for a 23,941 square-foot office building, at a calculated deviation from standard of approximately 30%. The total parking requirement is based upon the provision of one parking space per 300 square feet of gross floor area for the Office, Other than Listed use. Per Title 19.10.010(G), four handicapped parking spaces are to be provided for uses requiring 76 - 100 parking spaces. The provided site plans show only three spaces where four spaces are required, with one space meeting the van accessible requirement. Staff has placed a condition of approval on the accompanying Site Development Plan Review (SDR-25276) request to provide revised site plans showing an additional handicapped parking space per the Title 19.10.010(3) Handicapped Parking Design Standards. This should not adversely affect this proposal, as there is adequate space for an additional handicapped parking space located at the area where the three handicapped spaces are shown.

The provided off-street parking is divided between a surface parking lot and a subterranean parking area, with the surface parking lot providing 21 parking spaces and the remaining 45 spaces located below grade. With the current layout of 56 parking spaces, the applicant could propose an alternative design scheme that would allow for 16,800 square feet of office space.

Due to the increase in the existing building size and the lot constraints, staff is unable to support this request, as the applicant has created a self-imposed hardship.

December 20, 2007 - Planning Commission Meeting**

**FINDINGS**

In accordance with the provisions of Title 19.18.070(B), the Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070(L) states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by overdeveloping the subject site. An alternative design scheme consisting of a 16,800 square-foot office building would allow conformance to the Title 19.04 requirements and utilize the 56 provided parking spaces. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
