RE: Letter of Justification for Zone Variance

Location: Ebenezer Church of God in Christ
1072 Bartlett, Las Vegas NV 89106

To Whom it May Concern:

Our church is currently involved in a major expansion project. Our church building has gone from 7,000 square feet, to 17,000 square feet. With a membership of around 500 and growing, we are a major presence in this community.

It is important to keep our members and neighbors informed on a daily basis of our many programs and activities. All funding and participation comes from community support and interaction.

With the church building becoming over twice it's original size, our existing sign looks much too small in relation to this larger building. Our sign at its current size will not do the job of informing our members and neighbors. Adding a few feet in the overall size of our sign, will help bring the sign and the building, more into proportion with each other. And will catch the attention of those we are trying to reach.

We would appreciate consideration for granting zone variance for the ongoing daily progress of this ministry.

Sincerely,

 Pastor Bill McDonnell
 Ebenezer Church of God in Christ
