**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This application is seeking approval for a Variance to allow a seven-foot rear yard setback where a 10-foot setback is required for a Single Family Dwelling located at 10715 Dedham Court. Although the current lot accommodates a 12-foot rear yard setback, the applicant is proposing to move the rear property line five feet to the north with a Boundary Line Adjustment, thus resulting in a seven-foot rear yard setback. The applicant has explained that the Boundary Line Adjustment and the resulting Variance request are both required to remedy the placement of a retaining wall with a five-foot landscape planter in the rear yard of the opposing property.

Staff recommends denial of this request as it is completely self-imposed in nature.

**BACKGROUND INFORMATION**

<i>Related Relevant City Actions by P&amp;D, Fire, Bldg., etc.</i>

**Lone Mountain West**

This site is categorized under the ML (Medium-Low Density Residential) Lone Mountain West Special Land Use Designation. This special land use category provides for the development of higher density detached, single-family product types including, but not limited to, compact lots and zero lot line, and two-story buildings (up to 12 dwelling units per gross acre) within the Lone Mountain West Master Plan Area. The proposed development fits under this designation.

**DEVELOPMENT STANDARDS**

*The following required standards were established with the approval of Site Development Plan Review (SDR-8581)*

**December 6, 2007 - Planning Commission Meeting**

*\*The Lone Mountain West Master Plan stipulates in section 3.5.3 that internal property line setbacks shall be either two feet and smaller or ten feet and greater. The proposed side yard setback of 3.5 feet is not in compliance and a Waiver is required. The Waiver was approved as a part of the Site Development Plan Review (SDR-8581).*

*\*\*Although the current configuration complies with the 12-foot rear yard setback as established with the approval of SDR-8581, the applicant is seeking to complete a Boundary Line Adjustment that will relocate the rear property line of this property five feet to the north.*

### **ANALYSIS**

This Variance request for the 0.06 acre parcel at 10715 Dedham Court (Lot 29 of the Alexander/Cliff Shadows Residential Subdivision) has been submitted in conjunction with three adjacent Variance requests that are similar in nature. The applicant is seeking to secure approval of the requested Variance to allow a seven foot rear yard setback prior to making a five-foot adjustment to the rear property lines for eight separate dwelling units. The Variance will be required if the Boundary Line Adjustment is approved, as the existing 12-foot setback will only reduced to a seven-foot setback where a ten-foot setback is required.

Because the applicant is seeking to remedy a self-imposed hardship with the relocation of a property line versus rebuilding an improperly placed wall, staff recommends denial.

### **FINDINGS**

In accordance with the provisions of Title 19.18.070(B), the Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070(L) states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

**VAR-24774 - Staff Report Page Five**  
**December 6, 2007 - Planning Commission Meeting**

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by failing to adhere to his own approved site plan by improperly installing a retaining wall into the rear yard of the adjoining property. An alternative would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
