**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This application is a request for a Variance to allow 26 parking spaces where Title 19.04 requires a total of 48 spaces for a combined Medical Clinic and Medical Office Building.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by failing to properly accommodate the additional parking requirements by expanding the building 2,430 square feet. Therefore, staff recommends denial.

<b>SubTotal</b>			42		27	2	

<b>TOTAL (including handicap)</b>			<b>42</b>		<b>29</b>		<b>N</b>
Percent Deviation					31 %*		

\*The previous submittal provided 26 spaces where 48 were required for a 46% deviation.

**ANALYSIS**

The applicant has revised the original request for a Variance to allow 29 parking spaces where Title 19.04.010 requires a total of 42 parking spaces by reducing the original proposal by 1,373 square feet and by providing an additional three parking spaces. The applicant is proposing to construct an additional 2,430 square-feet of gross floor area to the existing 5,280 square-foot structure for a total gross floor area where the original request had proposed a 9,970 square-foot building.

The first floor of this proposal will provide a 3,650 square-foot Medical Clinic that has a parking requirement of 1 space per 200 square feet of gross floor area for the first 2,000 square feet with an additional space required for every 250 square-foot of space thereafter. The second and third floors are to be utilized as a Medical Office, which has a higher parking requirement of 1 space per 200 square feet of gross floor area for the first 2,000 square feet with an additional space required for every 175 square-foot of space thereafter.

Due to the increase in the existing building size and the lot constraints, staff is unable to support this request as the applicant has created a self-imposed hardship.

**FINDINGS**

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070(L) states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance

from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by proposing a 2,430 square foot addition to a site that currently meets the minimum parking standards for office use. The applicant states that the Variance is warranted due to the close proximity of multi-family housing, a bus-stop, and neighboring businesses that would utilize the proposed health services. However, an alternative design with a further reduction floor space or alternative parking arrangements would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
