**PROJECT DESCRIPTION**

This is a request to amend a portion of the Centennial Hills Sector Plan of the General Plan from DR (Desert Rural) to L (Low Density Residential) on 30.2 acres at the northeast corner of Iron Mountain Road and Leon Avenue. The proposed change of designation is consistent with the residential use proposed for this property; however, the proposed designation and potential intensity are not compatible with the surrounding area and staff, therefore, recommends denial of this amendment.

Proposed: L (Low Density Residential)	3.6 5.5 dwelling units / acre	166 dwelling units / acre @ 30.2 acres

**ANALYSIS**

The request is for a General Plan Amendment from DR (Desert Rural Residential) to L (Low Density Residential) on a 30.2 acre consisting of multiple parcels located on the Centennial Hills Sector Map of the General Plan. The proposed designation allows single family detached homes, manufactured homes on individual lots, gardening, home occupations, and family child care facilities. This category allows up to 5.5 units per acre. The project proposes a single family residential subdivision consisting of 126 lots, at the northeast corner of Iron Mountain Road and Leon Avenue.

This amendment was submitted in conjunction with a proposed Rezoning (ZON-25906) to R-PD4 (Residential Planned Development Four Units per Acre), Vacation (VAC-25907) to vacate portions of the rights-of-way at the perimeter of the site, and a Site Development Plan Review (SDR-25908) for the siting of a 126-lot single family residential subdivision. The L (Low Density Residential) General Plan designation is not compatible with the existing and future residential developments in the area; therefore, staff does not support this General Plan Amendment.

**FINDINGS**

Section 19.18.030.I of the Las Vegas Zoning Code requires that the following conditions be met in order to justify a General Plan Amendment:

**GPA-25905 - Staff Report Page Four**  
**January 24, 2008 - Planning Commission Meeting**

1. The density and intensity of the proposed General Plan Amendment is compatible with the existing adjacent land use designations,
2. The zoning designations allowed by the proposed amendment will be compatible with the existing adjacent land uses or zoning districts,
3. There are adequate transportation, recreation, utility, and other facilities to accommodate the uses and densities permitted by the proposed General Plan Amendment; and
4. The proposed amendment conforms to other applicable adopted plans and policies that include approved neighborhood plans.

**In regard to 1:**

The proposed General Plan Amendment to L (Low Density Residential) allows single family residential development up to 5.5 units per acre. While there is L (Low Density Residential) to the south, the remaining developed area to the north and west has a designation of R (Rural Density Residential) which only allows a density of 3.59 units per acre. The intensification allowed by this designation does allow for the appropriate transition from lower densities, like the existing DR (Desert Rural Residential Density), to the higher density proposed.

**In regard to 2:**

The zoning district proposed under the proposed General Plan designation is an R-PD4 (Residential Planned Development Four Units per Acre) district. The applicants intent is to create 126 lots for single-family dwellings. The R-PD4 (Residential Planned Development Four Units per Acre) district is a compatible zoning district with existing adjacent land uses and zoning districts.

**In regard to 3:**

As the area to the north, south, and west are fully developed there should be adequate facilities to accommodate a single family residential subdivision at this location.

**In regard to 4:**

There are no other plans or policies that would be applicable.
