RE: 10 December 2007 SPECIAL CITY COUNCIL MEETING

This Christmas meeting of items #4&5 brings to the forefront what numerous bills, passed into ordinances by the majority of our City of Las Vegas councilpersons have foretold!

We elected each of you to represent us. Why do you want these bills, many of which are redundant, superfluous, voted into law "for now"? Some were/are blatantly unconstitutional.

Our neighborhood group, following reason, found the answer was that YOU wanted money! By voting to pass new bills and revising old ordinances to impose monetary fines, in addition to incarceration or a combination thereof, on your constituents, maybe this would cover the extravagant management. Rule by severe fear is promoted by some media, so it is a popular 'band wagon'. Do you elected representatives need money?

You voted for personal \$ raises, demonstrating money was available, which we consider unconscionable for part-time positions with a City Manager form of government. This was after you contacted the Nevada State legislators to grant these salary raises for you and they refused.

You have "given away" our land to only certain persons with particular connections by requiring what your constituents identify as hardly even "token" payments.

Merry Ding Dong to us—who truly thought we were electing representative leaders. We are being victimized through slight of 'pen in' hand with inane bill descriptions which are deceptive to the point that city attorneys, for which our taxes pay, cannot explain, but trot out examples which they determine are similar. Solid teen-age think!

Naturally, now that our elected representatives are over the age of 19, they are choosing to "jump off the bridge because everyone else is doing it".

Actually, you aren't, you are drowning and choking us taxpayers. Merry trash picking to you!

We catch the vision of your revealed perception of us—post election.

Sincerely, President June Ingram

June Ingram
