ANALYSIS

Title 18.12.130 Cul-de-sacs

Cul-de-sacs shall be designed and installed in accordance with City standards. For public streets which terminate other than at an intersection with another public street, the termination shall be provided by means of a circular cul-de-sac of a sufficient diameter to accommodate emergency service vehicles for termination. For private streets or drives which terminate at a length over one hundred fifty feet, there shall be either a circular turn-around or emergency service vehicle access gates.

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.
