- B. From a traffic handling viewpoint will this vacation request result in a reduced traffic handling capability? *Very slight, as Boulder Avenue currently has only 2 travel lanes and contains angled parking within the right-of-way. In addition the City's approved Boulder Park Plaza project converts Boulder Avenue between Main Street and 1st Street to a sculpture park that does not accommodate vehicular traffic.*
- C. Does it appear that the vacation request involves only excess right-of-way? *No, it is to accommodate the proposed expansion of an existing restaurant and will allow for cohesive development on the north side of Boulder Avenue.*
- D. Does this vacation request coincide with development plans of the adjacent parcels? *Yes, the expansion of an adjacent restaurant and the Boulder Park Plaza project.*
- E. Does this vacation request eliminate public street access to any abutting parcel? *No.*
- F. Does this vacation request result in a conflict with any existing City requirements? *Yes, it will create a public street termination (1st Street) that does not comply with City code. Therefore, there is a Condition of Approval requiring the submittal and approval of a Waiver to Title 18.12.130 (WVR-26441) that is a companion item to this vacation application.*
- G. Does the Department of Public Works have an objection to this vacation request? *No.*
