Re: Farm & Durango Justification letter

This project is a second phase within an existing shopping center located at Farm & Durango. The current approved sign plan only allows enough signage to advertise for the current tenants. We are requesting an additional freestanding pole sign to be placed on Durango. The pole sign will be placed at the entrance into the shopping center. By placing the sign at the entrance it will be located within 330' of the residential to the north. The requested building signage will be consistent with the existing signage within the center.
