U-0108-02 – Special Use Permit

Dear City Council Members:

I am writing this letter regarding the required review for our special use permit. We currently own 4 horses that we use for roping and barrel racing. We purchased our residence at 5401 Rome Blvd. in June of 2005. In the last two years we have spent thousands of dollars improving the property and remodeling our home. To this day, we are still making improvements as you will see in the pictures. We have hauled out 3 semi-truck loads of horse manure, and 3 30-ft dumpsters of trash. We have installed a sprinkler system for our arena for dust control, and spend hundreds each year for fly control. In the 2 years we have lived here, we have not had one complaint, but have had several compliments on how nice our place has become. Please take this into consideration, and allow us to renew our special use permit.

Sincerely,

Kari and David Brough
