ANALYSIS

This is the first requested Extension of Time. Although a Reversionary Map has not been filed or any Building Permits pulled for construction, the applicant has completed some preliminary site work such as grading and removing the existing vacant buildings on the subject site. There have been no civil plans submitted for this proposal.

The applicant states that the two-year extension of time is needed as extra time has been given to controlling construction costs. There are two related Extensions of Time (EOT-26203 and EOT-26204) that will be heard concurrently with this application.

FINDINGS

Staff recommends approval of the requested two-year Extension of Time for the approved Rezoning (ZON-9131). This approval will expire on 1/18/10.
