DEVELOPMENT STANDARDS

Per Title 19.06.020(E), the minimum development standards for property in the C-V (Civic) Zoning District are established in connection with the approval of a rezoning application or administratively in connection with the approval of a site development plan. The surrounding parcels were Rezoned (Z-0089-87) to C-V (Civic) Zoning District in 1987, at which point the development standards were established for the College of Southern Nevada (previously known as Community College of Southern Nevada). The subject site is currently developed and utilized as parking lot for the college campus.

ANALYSIS

This 6.88 acre parcel is currently located within the R-E (Residence Estates) Zoning District. The applicant is seeking to rezone this parcel to the appropriate C-V (Civic) Zoning District, as it was discovered during remapping that the subject site is located within the R-E (Residence Estates) Zoning District. The applicant has not proposed any changes to the current site, which is utilized as a parking lot for the college campus.

FINDINGS

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

- 1. The proposal conforms to the General Plan.**

The subject site currently maintains the P-F (Public Facilities) General Plan Land Use Designation and is being used as a parking lot for the College of Southern Nevada. The proposal conforms to the General Plan, as the parcel is used in support of the schools operations.

2. The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.

The proposal is compatible with the surrounding land uses, as the subject parcel is utilized as a parking lot within, and for, the campus of the College of Southern Nevada. The applicant has not proposed any changes to the existing site; this Rezoning is requested in order to process a proposed remapping.

3. Growth and development factors in the community indicate the need for or appropriateness of the rezoning.

This particular Rezoning request is to remove a non-conforming zoning classification from the existing College of Southern Nevada campus. The subject site maintains the appropriate P-F (Public Facilities) General Plan Land Use Designation but currently retains the R-E (Residence Estates) Zoning District classification. The applicant has not proposed any changes to the property, as it is utilized as a parking lot for the college campus.

4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.

The subject site is utilized as an existing parking lot for the college campus and is accessed primarily along the west side of Community College Drive, a 100-foot wide private street. Secondary cross-access is provided from inside the campus from various private drives.
