The aerial photograph shows the proposed site for the new airport terminal at Heathrow. A large, dark, irregularly shaped area is labeled 'SITE' with a white arrow pointing to it. This area is situated between existing airport infrastructure, including taxiways and runways. To the left of the site, there are several rectangular buildings, likely existing terminal or support structures. To the right, there are more runways and taxiways, some of which are labeled with numbers like '11' and '12'. The overall layout shows the site's integration into the existing airport's footprint.

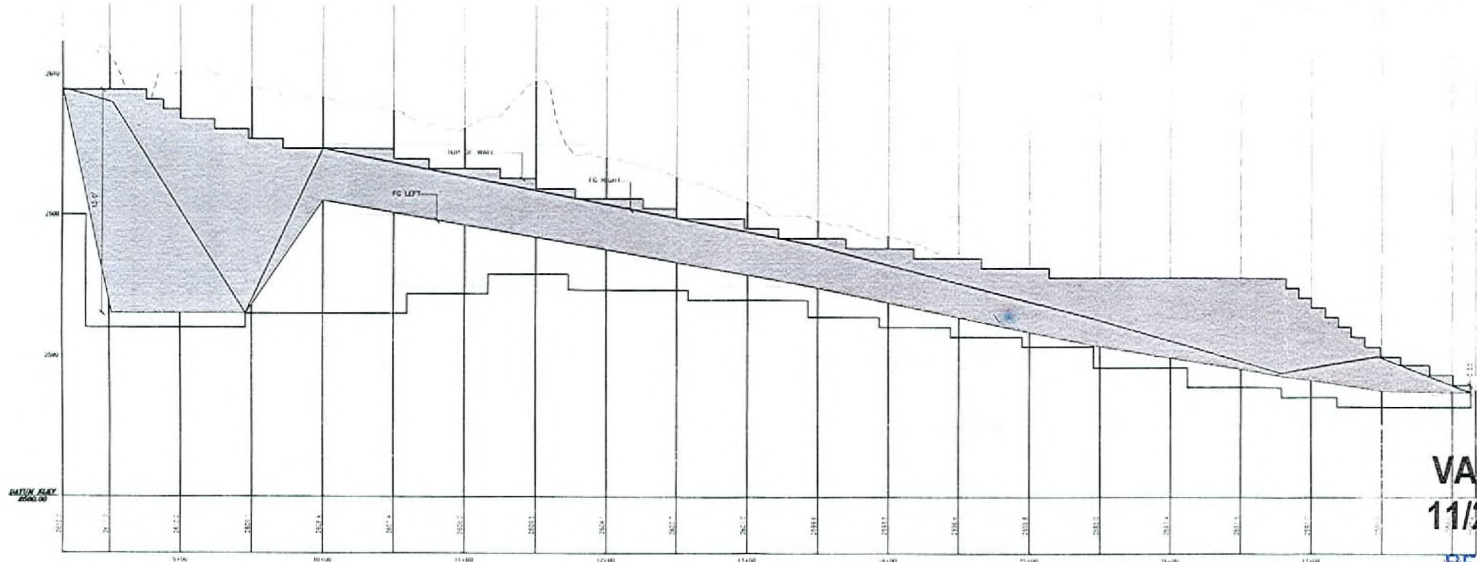

BASIS OF BEARING
 NORTH IS AT 90° EAST, BEING THE BEARING ALONG THE WEST LINE OF PARCEL 1, RECORDED IN FILE 17 OF PARCEL MAPS, AT PAGE 10, OFFICIAL RECORDS OF CLARK COUNTY, NEVADA.
