Dear Mr. Solis,

On behalf of our client Daycare Partners LLC, we respectfully request your review of the attached extension of time application.

The land use applications (ZON-9892, VAR-10104, and SDR-9893) for this project were approved by City Council on January 4, 2006. Our office has been completing the civil improvements for the site. The civil improvement plans are near completion which will allow the property owner to obtain building permits.

Thank you in advance for your prompt attention to this issue. We look forward to your favorable recommendation. Please contact our office if you have any questions or require any additional information.

Sincerely,
WRG Design, Inc.
