A Pedestrian Path is required along Lake Mead Boulevard, per the Master Plan Transportation Trails Element. This particular path is to consist of a five-foot sidewalk next to curb with a minimum five-foot landscape island behind it. The applicant has provided adequate demonstration of compliance on the provided landscape plan and will be required to develop the path as a condition of approval for this development.

ANALYSIS

The applicant is requesting a Rezoning from the existing R-E (Residence Estates) zoning district Under Resolution of Intent to R-PD4 (Residential Planned Development 4 Units per Acre) zoning district to the C-1 (Limited Commercial) zoning district. A related General Plan Amendment (GPA-27296) has been requested to accommodate a change in land use for two parcels that previously approved for a residential development. Although the applicant is requesting a commercial zoning district that is in compliance with the requested General Plan Amendment, the two requests in total would constitute spot zoning as defined in Title 19.20 as such:

Rezoning of a lot or parcel or parcel of land to benefit an owner for a use incompatible with surrounding land uses and that does not further the General Plan.

Because the applicants proposal for a Rezoning to the C-1 (Limited Commercial) zoning district for a Medical Office, Clinic and Retail Development cannot be accomplished without resulting in the two parcels being zoned in isolation from the adjacent residential properties, staff recommends denial.

FINDINGS

In order to approve a Rezoning application, pursuant to Title 19.18.040, the Planning Commission or City Council must affirm the following:

1. The proposal conforms to the General Plan.

The proposed SC (Service Commercial) Land Use designation on two parcels currently designated as L (Low Density Residential) is not compatible with the existing R (Rural Density Residential) and L (Low Density Residential) properties that surround the subject site. Because the increase in the intensity of use has created this incompatibility, staff recommends denial of this request, and the affiliated General Plan Amendment (GPA-27296) and Site Development Plan Review (SDR-27298).

2. The uses which would be allowed on the subject property by approving the rezoning will be compatible with the surrounding land uses and zoning districts.

Although the requested C-1 (Limited Commercial) zoning district is the appropriate zoning district for the requested SC (Service Commercial) land use designation, this commercial district is incompatible with the surrounding residentially zoned properties.

3. Growth and development factors in the community indicate the need for or appropriateness of the rezoning.

A previous approval for an 11-lot single family development (ZON-7470 and SDR-7473) has demonstrated that the current L (Low Density Residential) Land Use designation may provide for a viable residential proposal. There is little demonstration that growth and development factors would warrant the spot zoning of these two parcels to accommodate a 20,000 square-foot Medical Office, Clinic and Retail Development that is not compatible with the surrounding single family residences.

4. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed zoning district.

Site access is adequately provided primarily by Lake Mead Boulevard, classified as a 100-foot wide Primary Arterial by the Master Plan Streets and Highways, through a centrally located driveway at the side of the property. Secondary access is also provided off of Michael Way, an 80-foot wide Secondary Collector Street, which primarily serves the neighborhood residents.
