**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Variance to allow a proposed two story Habitable Accessory Structure (Class I) to be 25 feet in height where a height of 11.75 feet is permitted and to allow a zero-foot side yard setback where three feet is required, on 0.22 acres at 809 Upland Boulevard. A companion Special Use Permit (SUP-27281) will be considered concurrently with this item. Staff recommends denial of the Variance, as there is no hardship related to the physical characteristics of the site and is a self-imposed hardship that has been determined to be incompatible with the adjacent properties.

<i>Related Relevant City Actions by P&D, Fire, Bldg., etc.</i>	
04/24/08	The Planning Commission will hear a related request for a Special Use Permit to allow a proposed two story Habitable Accessory Structure (Class I) with a kitchen, on 0.22 acres at 809 Upland Boulevard.
<i>Related Building Permits/Business Licenses</i>	
1990	House Built
08/24/90	Pool and spa (Permit 90069285)
<i>Pre-Application Meeting</i>	
01/28/08	The applicant was advised of the applications needed for a Special Use Permit and a Variance to allow a proposed Habitable Accessory Structure (Class I) in an R-1 (Single Family Residential) zone, and exceed allowable height and reduce the side yard set back requirement of three feet.
<i>Neighborhood Meeting</i>	
A neighborhood meeting is not required nor was one held.	

<i>Field Check</i>	
03/21/08	The neighborhood is a typical R-1 subdivision. Homes appear close together. A park is located across the street.

April 24, 2008 - Planning Commission Meeting

ANALYSIS

The applicant proposes to construct a two story, 920 square foot Habitable Accessory Structure (Class I) on an R-1 (Single Family Residential) zoned parcel. Title 19.08 restricts the height of an accessory structure to two stories, 35 feet or the height of the main dwelling (whichever is less). According to the submitted elevations the height of the proposed accessory structure is 25 feet. The height of the primary dwelling is 11.75 feet. The deviation in height is 53 percent.

In addition to the height restriction, Title 19.04 requires a three foot side yard setback for accessory structures. A zero foot side yard setback is shown on the site plan. The three foot side yard setback and height requirement cannot be met and is considered a self-imposed hardship as it is the applicants choice to build a structure not in compliance with the zoning standards for the R-1 district; therefore, denial of this request is recommended. No physical site constraints exist on the subject parcel that prevents the project from meeting zoning requirements.

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

VAR-27280 - Staff Report Page Four
April 24, 2008 - Planning Commission Meeting

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by building a Habitable Accessory Structure (Class I) that is too large for the site. Alternative is to build a smaller one story structure that would allow conformance to the Title 19 zoning requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
