Re: item #4 of April 7, 2008 1 PM SPECIAL COUNCIL MEETING

Dear City of Las Vegas Mayor, Mayor Pro-Tem, Councilperson and Attorneys:

Doctors licensed to practice medicine in our State of Nevada:

Dipak Desai,
Vish Vinder Sharma,
Eladio Carrera, and
Clifford Carroll

are business owners who ordered the use of contaminated needles , syringes, vials and other non-sterile pieces of equipment making each guilty of attempted murder and each must be treated accordingly:

1. Their licenses, including those of nurses, must be revoked,
2. Their passports must be seized, canceled and no new ones issued,
3. Their bank accounts in all countries must be frozen,
4. Their homes, cars and all other property must be sold to help pay health care costs for victims and their devastated families.
5. They must be indicted, tried, and if convicted, imprisoned proportionally for each crime which is attempted murder as well as for each crime where a former patient is later found to be infected with HIV-AIDS and/or Hepatitis B or C.

People with insurance may be dropped once their expenses get too big. Thousands will die early and in pain due to the greed and wanton malpractice of these few ASSOCIATES.

The dereliction of duty by the Medical Community Watchdog must not go effectively unpunished.
