ANALYSIS

This is the third review of the subject Off-Premise Advertising (Billboard) Sign. The Off-Premise Advertising Sign (Billboard) is located on an undeveloped site presently zoned M (Industrial), under resolution of intent to C-1 (Limited Commercial). The 40-foot tall, 672 square-foot double-faced sign is located in the northeast corner of the site. The site is directly west of the Interstate 15 freeway. During the site visit pigeons were observed on the interior of the sign, causing a bird nuisance. There is also another sign on the same subject site near the intersection of Sirius Avenue and Rancho Drive, approximately 600 feet south of the subject sign. In addition to the final inspection of the building permit for the 40-foot tall, 672 square-foot, double-faced Off-Premise Advertising Sign, the applicant has provided a copy of the inspection completed by a licensed structural engineer stating the sign is in sound condition.

FINDINGS

According to a review of City records, the final sign inspection for the Off-Premise Advertising Sign (Billboard) was completed on 12/02/93. In addition, the applicant has obtained and filed with the Building and Safety Department a certification submitted by a licensed engineer stating that the existing billboard is in physically sound condition. The existing sign will need to provide pigeon abatement measures on the sign to remedy the existing bird nuisance. As the sign has obtained the necessary building permits and a final inspection, staff recommends approval of this request.
