**** STAFF REPORT ****

PROJECT DESCRIPTION

This application is a request for a Special Use Permit to allow a proposed Financial Institution, specified and a Waiver to allow zero-feet where there is a 200-foot distance separation requirement from a residential use at 3060 East Bonanza Road. The overall 4.76 acre site is presently under construction per an approved Site Development Plan Review (SDR-3372). The site is adjacent to multi-family residential and a city of Las Vegas Fire Department training facility. Staff has no basis to support the request for a Waiver and therefore is recommending denial.

ANALYSIS

This application is a request for a Special Use Permit to allow a proposed Financial Institution, specified and a Waiver to allow zero-feet where there is a 200-foot distance separation requirement from a residential use at 3060 East Bonanza Road. The overall 4.76 acre site is presently under construction per an approved Site Development Review (SDR-3372). The site is adjacent to multifamily residential and a City of Las Vegas Fire Department training facility. Staff has no basis to support a request for a Waiver and is recommending denial.

- **Use**

Title 19.04 defines the Financial Institution Specified use as follows:
 Any business whose primary function is to:

1. lend money;
2. cash checks or other negotiable instruments for a fee, service charge or other consideration; or
3. provide funds in exchange for the acceptance of a check on the post-dated or deferred-deposit basis.

This use includes without limitation a business that provides check cashing, services as a principal service offered, a paycheck advance service, and any business primarily providing cash loans, installment loans or cash advances.

Title 19.04 specifically states that No specified financial institution use may be located closer than 200 feet from any parcel used or zoned for residential use. The applicant's justification letter states that the commercial pad in this application pertains to is 672 feet from the nearest residential as justification for this application. The term property line refers to property lines of fee interest parcels and not leasehold parcels, therefore that justification is not considered by the code as valid. Due to the request for a Waiver staff is recommending denial.

FINDINGS

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

- 1. The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

Due to the proximity of the proposed Financial Institution, Specified to a protected property this use is not compatible or harmonious with the surrounding area as adequate buffering per Title 19 is not provided.

- 2. The subject site is physically suitable for the type and intensity of land use proposed.**

The subject site is physically suitable for this type of land use, this application exceeds the 1,500 square foot commercial pad requirement for this use.

- 3. Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

Access to this site is provided by Bonanza Road and Mojave Road both, which are Primary 100-foot Arterials as designated by the Master Plan of Streets and Highways. This proposed Financial Institution, Specified will be sufficiently served by existing roadway facilities.

4. Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.

The SC (Service Commercial) land use and the C-1 (Limited Commercial) zoning district permits the proposed Financial Institution, Specified. The proposed use is allowable if it meets the standards outlined in Title 19.04. This application does not comply with neighborhood revitalization component of the Master Plan, Policy 2.0 which clearly states that mature neighborhoods will be sustained and improved through appropriate and selective high quality redevelopment and preservation. The distance separation requirement between Financial Institution, Specified is not being met, and thus this application represents an encroachment of a use which requires a buffer between residential uses into a mature residential area. Therefore this application does not meet the standards set forth in the Master Plan.

5. The use meets all of the applicable conditions per Title 19.04.

This use does not meet the Title 19.04 requirements as a waiver for a zero-foot separation between a Financial Institution Specified use and residentially zoned property where 200 feet is required.

PLANNING COMMISSION ACTION

The applicant agreed to all conditions at the Planning Commission meeting.
