

Date June 2, 2008

City of Las Vegas

Re: 070019) RTC Central City Transfer Terminal

We would like to request that the date of June 12th for the planning commission be changed to the very first date available in the month of July. The reason for this request is that we have asked by the owner to further study the design and present some options based on new information that was received on our meeting of May 22nd

We will forward the new information and designs to the city upon completion and certainly before any dates required to make a meeting with planning commission by the first date listed in July. If you have any questions or concerns please don't hesitate to call

Sincerely,

Miguel Ibarra
Project Manager
SHARCHITECTURE
