To Whom It May Concern:

We would like to request an increase in the number of animals that we can keep at the above referenced parcel number to 25 head. We want to have 18 head of horses instead of 12 head and 7 head of steers. We have resided in Las Vegas for the last seven years. Tex and I grew up enjoying the ranch/farm life and hope to offer our children a similar type of life style thru roping and riding horses. As a family we participate and enjoy roping, rodeo and riding horses. Our twelve year old son competes in the National Little Britches Rodeo Association both locally and nationally. As a family we compete in the United States Team Roping Association and local roping events. Our five year old son inspires to follow in his older brother's footsteps. The property will be used strictly for personal use only.

We are very concerned about dust control, fly control, and keeping a clean nice facility for the neighborhood. We water down the riding arena every time we ride with a water truck. We have hauled in 400 ton of washed sand for the riding arena and 308 ton of type two road base for dust control across the rest of the property. We are aggressively working on fly control, by spraying horses daily, spraying the facility weekly, and putting in other fly control supplies. We clean our stalls daily and try to keep our facility neat and clean. We plan on putting in more trees and bushes on the property to help provide a barrier for the neighbors.

Please accept this request to increase the permitted number of horses from 12 head to 18 head for the above referenced parcel. Thank you in advance for your time and consideration in this matter.

Respectfully yours,

Tex Carter
