**** STAFF REPORT ****

PROJECT DESCRIPTION

This application is a request for a Waiver from Title 19.12.030 to provide a zero-foot landscaping buffer along a 37.5-foot portion and a 1.5-foot landscaping buffer along a 30-foot portion of the east property line, where eight feet is required on 1.88 acres at 7605 Grand Teton Drive. The subject site is currently under construction with a 10,896 square-foot Child Care Center and an 8,000 square-foot Medical Office building. This Waiver is requested in order to construct two large child play areas within the required eight-foot landscape buffer. As this Waiver is an indication of the overdevelopment of the site, staff recommends denial of this request.

BACKGROUND INFORMATION

<i>Related Relevant City Actions by P&D, Fire, Bldg., etc.</i>	
06/06/07	The City Council approved a General Plan Amendment (GPA-19992) of a portion of the Centennial Hills Sector Plan from PCD (Planned Community Development) to SC (Service Commercial); a Rezoning (ZON-19990) from U (Undeveloped) [PCD (Planned Community Development) General Plan designation] to C-1 (Limited Commercial) and a Site Development Plan Review (SDR-19986) for a 10,896 square-foot Child Care Center and an 8,000 square-foot Medical Office and Office building on 1.87 acres at the southwest corner of Grand Teton Drive and Buffalo Drive. The Planning Commission and staff recommended approval of these requests.
03/27/08	The Planning Commission approved a Tentative Map (TMP-26861) for a one-lot commercial subdivision on 1.88 acres at 7601 Grand Teton Drive. Staff recommended approval of this request.

<i>Pre-Application Meeting</i>	
06/09/08	A pre-application meeting was held to discuss the requirements for submitting a Waiver at 7605 Grand Teton Drive.
<i>Neighborhood Meeting</i>	
A neighborhood meeting is not required, nor was one held.	

<i>Field Check</i>	
07/24/08	A field check was conducted which found the subject site under construction, including the two buildings on site. A substantial difference of grade exists on this site. The lowest portions are located on the east property line, with the highest portions on the west property line.

<i>Additional Meeting</i>	
08/11/08	An additional meeting was held to discuss this Waiver application in more detail. One member of staff and four representatives of the applicant attended this meeting. The applicants representatives submitted two letters of approval from two properties immediately adjacent to the play area. In addition, a canvasser list was submitted indicating that the representatives have been contacting the immediate neighbors as of August 8 th , 2008. It was declared that this canvassing of the residences most affected by this Waiver would continue. It was also stated that this playground would be for approximately 184 children. The applicant did not propose any design changes during this meeting, but it was suggested by staff that a redesign should be considered to make this use less invasive to adjacent neighbors.

** This Waiver is requesting a zero-foot landscaping buffer along a 37.5-foot portion and a 1.5-foot landscaping buffer along a 30-foot portion of the west property line where eight feet is required.

*** This development was conditioned in Site Development Plan Review (SDR-19986) to increase the wall height for compliance with the Special Use Permit Requirements of Title 19.04 for a Child Care Center.

This Table Outdoor Play Area Requirements is for reference in regards to the requirements of NRS 432A.077 for outdoor play areas for Child Care Centers. The applicant has planned a Child Daycare Center with 184 children. This Table has been designed to show two different scenarios; the first being complete denial of this Waiver request, the second approval of this Waiver request.

ANALYSIS

This application is a request for a Waiver from Title 19.12.030 to provide a zero-foot landscaping buffer along a 37.5-foot portion and a 1.5-foot landscaping buffer along a 30-foot portion of the west property line where eight feet is required on 1.88 acres at 7605 Grand Teton Drive. The subject site is currently under construction with a 10,896 square-foot Child Care Center and an 8,000 square-foot Medical Office building. The shade structures on the submitted

site plan are not part of this review. This Waiver is requested in order to construct two large child play areas within the required eight-foot landscape buffer. As this Waiver is an indication of the overdevelopment of the site, staff recommends denial of this request.

- **Landscape Plan**

Per Table 1 Perimeter Landscape Buffer Widths listed in *Title 19.12.030*, commercial developments are required to provide an eight-foot wide buffer for interior lot lines and a 15-foot wide buffer for property lines fronting right-of-way landscaped with 24 box trees planted 20 feet on center and a minimum of four (4) five-gallon shrubs per tree. The subject Waiver is to reduce the required buffer width on the east property line in order to accommodate two childrens play areas. The applicant has clustered trees on the west property line in order to provide the amount of trees required by Title 19.12.030.

This Waiver, as proposed, seeks to remedy the over-building at the subject site. The required buffer widths are designed to insure compatibility with the surrounding properties. These two play areas will have a distance separation from the surrounding property to the west of zero feet and 1.5 feet. The reduction of these buffer widths for the proposed play areas will abut the single-family properties to the west and are not compatible; therefore staff recommends denial of this request.

- **Outdoor Play Area Requirements**

A Daycare Center requires a total of 37.5 square feet of outdoor space per child. A total of 184 students will be enrolled at this childcare center requiring a total of 6,900 square feet of outdoor play area. The total square-footage provided by the play area is 6,319.24 square feet, approximately 580.76 square feet short of the licensing requirement for 184 students. This area will accommodate approximately 164 students, a total of 20 students less than what is desired.

This Waiver request would allow for an additional 495 square feet to be used for the childrens play area. This additional square-footage would provide a total of 6,814 square feet of space for the play area. This additional square-footage would allow for 181 students to participate in this Child Care Center.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship due to over-development of the subject site. Alternatively, a less intense development would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature.
