PURPOSE/BACKGROUND:

This Second Amendment is needed to clarify how the project has evolved since the first amendment was approved. The project scope has been modified to include reduction in the number of rental units due to the difficulty in financing the project with affordable housing tax credits. The scope also now includes a 13,200 square foot fire station for the City of Las Vegas. This amendment will also allow the developer to expedite the commercial development to help fund the entire project. This amendment will also allow the developer to acquire the property in phases.
