Subject: Six month review of SUP-21649 Special Use Permit and Removal of certain restrictions

Dear Las Vegas Planning Department:

I am writing this letter in regard to SUP-21649, Special Use Permit. I am aware of the 6-month review of the Special Use Permit granted to Imperial Spa on July 11, 2007 by the Las Vegas City Council. Imperial Spa is located at 1070 E. Sahara in the city of Las Vegas Nevada.

In 2003, we appeared in front of the Planning Commission and City Council and were granted approval to open our Spa. However in January of 2007 the law changed as it relates to 'massage' and we were instructed by the Las Vegas Planning Department even though we were a 'Spa' because we also provide Spa massage, we now had to re-apply for a Special Use Permit.

In 2007, we appeared a second time in front of the Planning Commission and Las Vegas City Council for a 'Special Use Permit'. Planning Commission voted 6 – 1 to grant the permit and City Council voted 7 – 0 in favor. At that time the City Council denied our request for a 24-hour operation and also restricted the Spa in having no more than 2 Massage Therapists.

Imperial Spa is also requesting that the 24 hour and Massage Therapist restrictions be removed when this 6-month review is held by the City Council.

Because we are a "Spa" we **will not** have any type of gaming entertainment or alcohol beverages served insuring we will be a 'good neighbor'.

The Imperial Spa has rebuilt the old 'Las Vegas Sports Club' from the ground up. We have rebuilt this facility into a spa, which caters to a clientele who truly wants to be pampered.

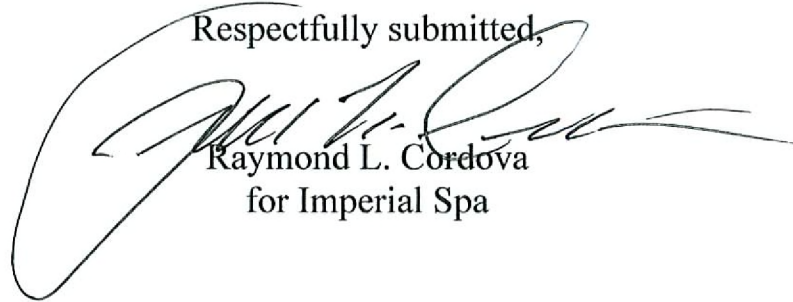

NOTE: Imperial Spa purchased the 3 lots of the original Las Vegas Sports facility and an additional 2 adjoining lots. All properties are now recorded as one property. Our total investment is approximately 11 million dollars.

We have taken every step to insure our facility is one that Las Vegas will be proud of. We are utilizing all 31 thousand square feet with the consumer in mind.
