RE: Agency/Project: Catholic Charities of Southern Nevada/Operations of HOME TBRA Program

Represents Month _____

Below are the HUD race categories, which must be reported for clients served with CDBG funds. In addition, HUD requires that the Hispanic ethnicity be counted for every race sub category as applicable.

*Hispanic must be counted for each category as appropriate and totaled in column C. Example: White column may have 25 clients, 4 of which are also Hispanic. The White column would have 25 and the Hispanic column would have 4, the total clients would still be 25, do not add the two columns together. There may be other categories that also have Hispanic clients. Therefore, column (C) would have the total Hispanic count for the month and column (E) would be the total for the year. The Year to Date Columns should reflect the numbers for each monthly column of clients served to date. Remember to add your current monthly totals to the previous year to date totals. In addition, the number served for all categories should add up: i.e. female and male clients should equal the total number; the income column totals should also match. The only number that may not match is the female head of household, as not all of your clients served will fit this category.

Clients can only be counted once if assisted for more than one month. If you assist the same clients each month, then your year to date total will match the monthly total. When you add new clients then the monthly and yearly total will change to reflect the amount of new clients.
