*\*You may be required to be resident of the City of Las Vegas to serve certain boards, committees, or commissions.*

As an Ed W Clark High School senior, I have been looking for an exciting partnership program that will require my involvement within the community. I would be extremely interested in beginning my service with the Youth Neighborhood Association Partnership Program. Having been elected as president of National Honor Society and selected as one of four interns for the Honorable Senator John Ensign, I have focused my services toward the neighborhood. My enthusiasm for community involvement has grown each year, and I am confident that it one day will ultimately become my passion.

My initial interest in community involvement occurred during sophomore year, when I joined National Honor Society, a nationally recognized organization commonly active in community service activities. Throughout the year, I enjoyed taking an active role in the community and performed many community service projects. As a result, the members of the club elected me as president of National Honor Society.

As president of National Honor Society, I have been introduced to a new definition of leadership. Being president requires great organizational skills to administer events, allocate funds, and manage contacts. Last year, I was in charge of a NHS dodge ball committee, and had to organize a dodge ball event with the purpose of raising money and awareness for St. Jude Children's Research Hospital and their fight against childhood cancer. Organizing this event included arranging the teams, allotting the necessary funds, and contacting the numerous club members taking part in the school-wide event. Although this was the first club occasion that I had to organize independently, I utilized my resources effectively and delivered a successful event.

During my internship with Senator Ensign at his Las Vegas office, I had the opportunity to observe and participate with the inner workings of a United States Senate state office. Within the office, I helped voice the opinions of constituents regarding various legislations to Senator Ensign. This required me to research current legislations as well as the legislative process, and allowed me to gain experience in communicating with constituents and other government offices. Because I was able to help Senator Ensign serve his Nevada constituents, this internship has allowed me to take an active role in the community.

Throughout my three years in high school, I have developed a great enjoyment in serving the community. I would like to pursue this interest and deepen my involvement. I believe that the Youth Neighborhood Association Partnership Program would be a great opportunity for me to further my contribution and enhance my community involvement skills. I would appreciate the opportunity to spend time as a board member at the Youth Neighborhood Association Partnership Program. Thank you sincerely for your consideration.

To Whom It May Concern,

I have known Carina Chang for four years in my capacity as her tennis coach at Clark High School. Throughout this time I have been continually amazed by her tenacity, intelligence, and upbeat attitude. On the court, Carina is leader. She volunteers for difficult assignments, and is always the last to leave after practice. Although Carina is an excellent player, her skill on the court is only a side-note to the person she is off of it. She is big-hearted and inclusive; on more than one occasion I have seen her go up to newcomers on the team, talk with them, encourage them, and make them feel like part of the group. It is no wonder then, that she is our team captain this year. In addition to her role on the tennis team, Carina is also deeply involved in National Honor Society, Math tutoring, Forensics and Orchestra.

Despite these diverse interests, Carina recognizes that they are just ingredients in a well-rounded life. She focuses on, cares about, and most of all, excels at, academics. She takes the most challenging classes available, and as can be seen from her Grade Point Average, she scores the highest possible marks. What impresses me most, however, is not just a generic ability to memorize facts, but her continual thirst and passion for knowledge. The best way I can relate this is to tell how last year, Carina would come into my class several times a semester after school just to talk history; she would prod me for knowledge, and ask interesting and probing questions; she would analyze data; she would check and recheck her facts. And she did it all with a smile on her face. I could tell from these impromptu study sessions that Carina sees her classes, and academics in general, not as drudgery, but as things to be enthusiastically explored, and triumphantly mastered.

Carina also has a trait that I rarely find in students her age: an acute sense of personal responsibility. She is accountable in a way that few teenagers, and people in general, are. When she says she will do something, she does it; when she says she will be somewhere, she is. She does not complain. This amazes me, and I cannot think of a facet of life where her ability to motivate herself would not carry the utmost importance. Whether in academics or in the work place, in family life or as a member of a community, her ability to hold herself accountable will make her a valuable, contributing member of society. Combine this with her positive attitude, thirst for knowledge, and her contagious enthusiasm for everything she does, and it easy to see that at her young age, Carina is already a top-notch human being.

I am very proud of Carina, and eagerly recommend her for this program. In the classroom and on the tennis court she has already achieved so much. I know she will achieve much more as she goes through life. I deeply believe that Carina will contribute as much to your organization as she has contributed to our school. If you have any questions, please do not hesitate to call me at (702)- 799-5800 ext. 401.

Sincerely,

Brian Rehfeldt  
World History/U.S. History  
Tennis Coach
