Re: Amendment to Special Use Permit

To Whom It May Concern:

On August 14, Meadows Mall went before the Planning Commission for review of an amendment to an approved Special Use Permit at 4300 Meadows Lane.

The Commission denied the requests that were made

1. To expand the area
2. To exclude trees and plants
3. Renew the Special Use Permit

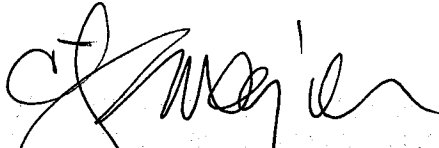

After consideration of the Commission's comments, Meadows Mall would like to withdraw without prejudice:

1. SUP-28619 Request for a 55,014 foot expansion of the existing 178,080 storage lot.
2. SDR-28618 Request for a Site Development Plan Review with a waiver to allow zero-foot landscape buffer along the north property line.

We would like to request renewal of the RQR-29073 Special Use Permit. On September 17, we will show City Council that we have invested \$18,000 in trees and plants to enhance the property and provide landscape screening of the parcel.

Sincerely,

**GENERAL GROWTH PROPERTIES, INC.**
