ANALYSIS

- **General Plan**

The applicant is requesting to Amend a portion of the Southeast Sector Plan of the Master Plan from DR (Desert Rural Density Residential) and L (Low Density Residential) to SC (Service Commercial) on 1.45 acres adjacent to the west side of Martin L. King Boulevard, approximately 1,450 feet south of Charleston Boulevard. The Service Commercial category allows low to medium intensity retail, office, or other commercial uses that serve primarily local area patrons, and that do not include more intense general commercial characteristics. Examples include neighborhood shopping centers, theaters, and other places of public assembly and public and semi-public uses. This category also includes offices either singly

or grouped as office centers with professional and business services.

The Service Commercial category may also allow mixed-use development with a residential component where appropriate.

This General Plan Amendment has been submitted in conjunction with a Site Development Plan Review (SDR-28286) for a proposed 17,435 square-foot Building Maintenance Service and Sales Facility, a Rezoning (ZON-28281) from R-1 (Single Family Residential) to C-1 (Service Commercial) and a Special Use Permit (SUP-28287) on 1.45 acres adjacent to the west side of Martin L. King Boulevard, approximately 1,450 feet south of Charleston Boulevard.

- **Adopted Plans and Policies**

The proposed development is within the Rancho/Charleston Study Area. The Rancho/Charleston Study Area was adopted on 06/19/02 in reaction to growing number of general plan amendments and rezoning activities in which private development interests pursued high intensity used on properties in, or adjacent to single-family homes, residents of a number of older, stable neighborhoods along the West Charleston Boulevard and Rancho Drive corridors. Per the Rancho/Charleston Land Use Study, the proposed development is designated for a residential use.

Land Use Goal 1 states the purpose of the Rancho Charleston Land Use Study is to protect the existing residential neighborhoods from any additional encroachment by commercial and/or office uses.

Policy 2.1.2 of the Las Vegas 2020 Master Plan requires that development on vacant or underutilized lots within existing residential neighborhoods be sensitive in use and design to surrounding development.

The SC (Service Commercial) General Plan designation is not compatible with the existing residential developments in the area or the intent of Rancho/Charleston Study Area; therefore, staff does not support this General Plan Amendment.

FINDINGS

Section 19.18.030.I of the Las Vegas Zoning Code requires that the following conditions be met in order to justify a General Plan Amendment:

- 1. The density and intensity of the proposed General Plan Amendment is compatible with the existing adjacent land use designations,**

The commercial related development associated with this designation is not compatible with the adjacent residential properties as this area is almost exclusively residential. Further, the intensification allowed by this designation does not meet the intent of the Rancho/Charleston Study Area.

2. The zoning designations allowed by the proposed amendment will be compatible with the existing adjacent land uses or zoning districts,

The proposed development will not be compatible with the residential developments in this area. The intensity of uses permitted within the proposed zoning district can not be considered compatible with the existing residential neighborhood.

3. There are adequate transportation, recreation, utility, and other facilities to accommodate the uses and densities permitted by the proposed General Plan Amendment; and

There are adequate facilities to accommodate a commercial building at this location.

4. The proposed amendment conforms to other applicable adopted plans and policies that include approved neighborhood plans.

The area of the proposed amendment is within the Rancho/Charleston Study Area. The proposed amendment does not comply with Land Use Goal 1 of the Rancho Charleston Land Use Study, which is to protect the existing residential neighborhoods from any additional encroachment by commercial and/or office uses. Additionally, this proposal does not comply with Policy 2.1.2 of the Las Vegas 2020 Master Plan, which requires that development on vacant or underutilized lots within existing residential neighborhoods be sensitive in use and design to surrounding development.
