ANALYSIS

This is the second request for an Extension of Time of the approved Site Development Plan Review (SDR-4606), since its initial approval by the City Council on 10/06/04. The applicant indicates that the project has been delayed due to the construction of adjacent roadways which have since been resolved. The applicant has not submitted any civil plans or plans checks for review, but indicates that he is moving forward with the plan review and permitting process.

FINDINGS

Upon completion of a field check carried out on 09/12/08, staff found that there has been no notable change to the surrounding area in regards to land use changes or development. The site remains undeveloped and has not undergone any remapping process to consolidate the two individual parcels nor have any plans been submitted for review. Staff recommends approval of this request with a two-year extension of time which will expire on 10/06/10, unless another extension of time is approved by the City Council.
