RE: Henry and Evelyn Bozarth ES – APN 126-13-701-016
Revised Letter

To Whom It May Concern:

The Clark County School District submitted a **Site Development Plan Review** to the City of Las Vegas on September 23, 2008 for the proposed new elementary school located at the Northwest corner of Egan Crest Drive and Severance Lane.

In addition to the Site Development Plan Review, a Waiver of the Cliff's Edge Development Standards adopted by the City of Las Vegas was requested to allow the use of chain link fencing. The plans indicate chain link fencing located along the north, south and west sides of the property and combination chain link and concrete block pilaster fencing on the east side of the property at the kindergarten area. The chain link fencing is being requested to provide optimal visibility of the site and to provide adequate safety for the students. In particular, the chain link fence along Egan Crest provides a safer alternative for the kindergarten students since spacing issues can accompany the use of wrought iron.

The Clark County School District would also like to respectfully request review and approval of the waiver by the Providence Architectural Review Committee to allow the chain link fencing for the safety and security reasons stated above.

Please contact Linda Perri, Director II, or me at (702) 799-5214 extension 5417 if you have any questions on this matter. Thank you for your consideration.

Sincerely,

Tracy Murphy
Coordinator IV
