**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Variance to allow seven parking spaces where 11 are required for a proposed 3,132 square-foot two-story Office on 0.17 acres, located at 1148 South Maryland Parkway. The subject Variance represents a 36% deviation from the required number of parking spaces. The proposed request has been deemed to be a self-imposed hardship resulting from the overbuilding of the subject site; therefore, staff is recommending denial of the Variance.

ANALYSIS

The applicant is requesting a Variance to allow seven parking spaces where 11 are required pursuant to Title 19.040.010 requirements. This represents a 36% reduction in the required number of parking spaces. The parking calculation is based upon the Office as the primary use. Parking requirements for Offices are calculated at one parking space per 300 square feet of gross floor area. A related Site Development Plan Review (SDR-29426) for a proposed 3,132 square-foot two-story Office will be heard concurrently with the subject Variance. An additional Variance (VAR-29428) will be heard concurrently, to allow an eight-foot rear yard setback where 15 feet is required, to allow a two-foot corner side yard setback where 10 feet is required, and to allow a 40-foot setback where residential adjacency standards require 50 feet. Additional Waivers of the required Landscape Buffer Width have been requested to allow zero feet on the east property line where 15 feet is required, six feet on the south where 15 feet is required, and zero feet on the west property line where five feet is required. The subject Variance has demonstrated that the applicant has created a self-imposed hardship; therefore, staff recommends denial of the subject application.

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by over building the subject site. Alternative site design would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the sites physical characteristics, it is concluded that the applicants hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
