Planning and Development

1. This approval shall be void two years from the date of final approval, unless a certificate of occupancy has been issued or upon approval of a final inspection. An Extension of Time may be filed for consideration by the City of Las Vegas.

Public Works

2. The distance from the face of the garage door to the front property line shall be a minimum distance of 18 feet or a maximum distance of 5 feet to prevent a vehicle in the driveway from encroaching into the vehicular or pedestrian travel corridor, unless otherwise allowed by the City Engineer through an approved Deviation from Standards.

**** STAFF REPORT ****

PROJECT DESCRIPTION

This application is a request for a Variance to allow a five-foot front yard setback where 18 feet is required for a new single-family residence at 6785 Briarwood Bend. The subject site is Lot 5, within the approved 36-lot R-PD (Residential Planned Development) Highland Grove. Staff has found that reducing the front setback from 18 feet to five feet would not cause any detriment to the public good and is recommending approval of this application.

**The applicant is requesting a Variance to allow a 5-foot front yard setback where 18 feet is required.*

ANALYSIS

This application is a request for a Variance to allow a five-foot front yard setback where 18 feet is required for a new single-family residence at 6785 Briarwood Bend. The subject site is Lot 5, within an approved 36-lot R-PD (Residential Planned Development), and the only lot in the Highland Grove subdivision for which the applicant seeks the Variance. This accounts for approximately 0.03 percent of the total units.

Condition #3 of approved Site Development Plan Review (SDR-6294) states, All development shall be in conformance with the revised site plan, date stamped 05/10/05 The site plan date stamped 05/10/05 specifies the front yard setback to be 18 feet to garage. The City of Las Vegas Public Works Department requires a driveway to be either five feet or less, or 18 feet and greater in length in order to prevent vehicles from intruding onto public right-of-way. The proposed five-foot front yard setback is within the design parameters required by the Department of Public Works and staff finds the granting of this Variance would not cause any detriment to the public good, impairment of any affected natural resources and would not impair the intent and purpose of any ordinance or resolution.

Staff has found that reducing the front yard setback from 18 feet to five feet would not be inconsistent with the spirit and intent of the R-PD (Residential Planned Development) and is recommending approval of this Variance request.

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.

Additionally, Title 19.18.070L states:

Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.

The City of Las Vegas Public Works Department requires a driveway to be either five feet or less, or 18 feet and greater in length in order to prevent vehicles from intruding onto public right-of-way. Reducing the driveway from 18 feet to five feet will not cause any detriment to the public good, therefore staff is recommending approval of this Variance request.
