

June 6, 2008

Planning and Development Department,

We would like to build a detached casita/pool house on our current property at 2908 Justice Lane. This addition would function as an additional entertainment room for our personal use.

It would be built with the same façade and elevation as the current main house and would not require elevation changes or any changes in the lot drainage.

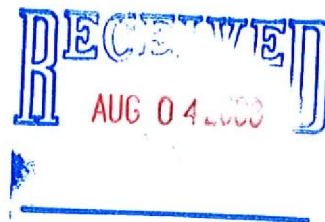

We would like to schedule a pre-application conference to review plans and any outstanding issues.

Thanks for you consideration.

Sincerely,

Jim Buell
Laura Bestor
