**ANALYSIS**

This is the first extension of time request for the proposed development. In the time since the original approval of the Rezoning (ZON-13837), the applicant has made progress on the project in the form of the issuance and finalization of building permits. Title 19.18.040 allows an extension of time or reinstatement of zoning approval as long as the zoning continues to conform to the use and density classification of the General Plan, and remains consistent with the surrounding area and pattern of development. The extension of time is limited to one year and if the zoning approval is not exercised in the form of the recordation of a final subdivision map or commencement of actual construction, the approval terminates.

**FINDINGS**

The applicant is requesting an extension of time to allow sufficient time to finalize the appropriate permits and/or final map to exercise the rezoning. The rezoning conforms to the use and density classification of the General Plan and is consistent with the surrounding area and pattern of development; therefore, staff recommends approval with a one-year time limit. Conformance to the conditions of approval of Rezoning (ZON-13837) shall be required.
