ANALYSIS

This is the second request for an extension of time for the proposed development. Title 19.18.050 deems a Site Development Plan Review exercised upon the issuance of a building permit for the principal structure on site, unless otherwise specified in connection with its approval. Since the original approval of the Site Development Plan Review (SDR-10127), the applicant has not made any progress on the proposed project in the form of building permits for the principal structure. The proposed project is part of a commercial development, where construction and development is ongoing and completed in phases.

FINDINGS

The Site Development Plan Review (SDR-10127) has not met the requirements outlined in Title 19.18.050 to exercise the entitlement. The previous Extension of Time (EOT-25082) was granted for one year, expiring on 01/18/09. The applicant is requesting an additional two-year extension to enable their anticipated tenant time to develop the site according to their business plan. Staff is recommending approval of this request with a two-year time limit. Conformance to the conditions of approval of Site Development Plan Review (SDR-10127) shall be required.
