Planning + Development

Justification Letter

Dear Planning Dept.

Pastor James + Minister Eliz. Bracy Jr. are requesting an extension of time per our Special Use Permit. Finally the parking lot, + trees have been completed we only need to stripe the allocated parking spaces. Then begin construction of the block wall on South side of property. We hope the work we're endeavouring ^{will} both physically + spiritually continue to create a positive image throughout the community. To illuminate the face of the downtown area + increase love + prosperity in the lives of the people. We do thank the Planning Dept. + council for your more than appreciative patience + hope you grant us this extension. God bless you.

With Love

Pastor James + Minister Liz Bracy Jr.
