City of Las Vegas  
Planning and Development Department  
731 South 4<sup>th</sup> Street  
Las Vegas, Nevada 89101

Dear Sir:

This letter is regarding a billboard structure owned by Clear Channel Communications. The structure is located at 1323 South Main Street, Las Vegas, Nevada 89102. It can be referenced by APN 162-03-110-088, case number RQR-12716. The structure is a 12' x 24', center mount, back-to-back, full offset build and is 40'-0" in overall height.

We have been asked to perform a visual review of the billboard structure and attest to the soundness of said structure. On October 6, 2008 I was on site to perform this review.

During this visual observation, I noted no deficiencies (cracks, extensive corrosion nor deformed steel) that would impact the structural integrity of this structure. All bolts appeared to be in place as evidenced by no empty bolt holes. All steel mating surfaces appeared to be in firm contact.

This structure was originally built in early 1986. According to the current owner, the structure has been trouble free during their ownership. There have been no noted instances of broken bolts or bent steel members.

It should be noted that this review was simply a visual one. No as built evaluation or material testing was done. This letter does not represent a structural certification of the billboard structure.

In conclusion, it is our opinion that the billboard structure is in sound condition.

Sincerely,

John S. Weaver  
Director of Engineering
