April 9, 2009

RECEIVED

APR 09 2009

Dear Sir or Madam,

On behalf of my client, MFE, Inc., I am requesting to have application SDR-32534 held in abeyance to the July 9, 2009 planning commission meeting.

The additional time is needed to work with the new prospective tenant's architect on any changes to the currently approved footprint or building elevations that the tenant may require.

At this time, due to the recent negotiations with an operator for the site, MFE, Inc does not intend to move forward with the plans as currently submitted with this application. However, since some minor deviations from the approved plans may be necessary, we would appreciate the opportunity to keep SDR-32534 active.

Yours truly,

Leni Skaar
