## On the Floor: Las Vegas Casino Carpets

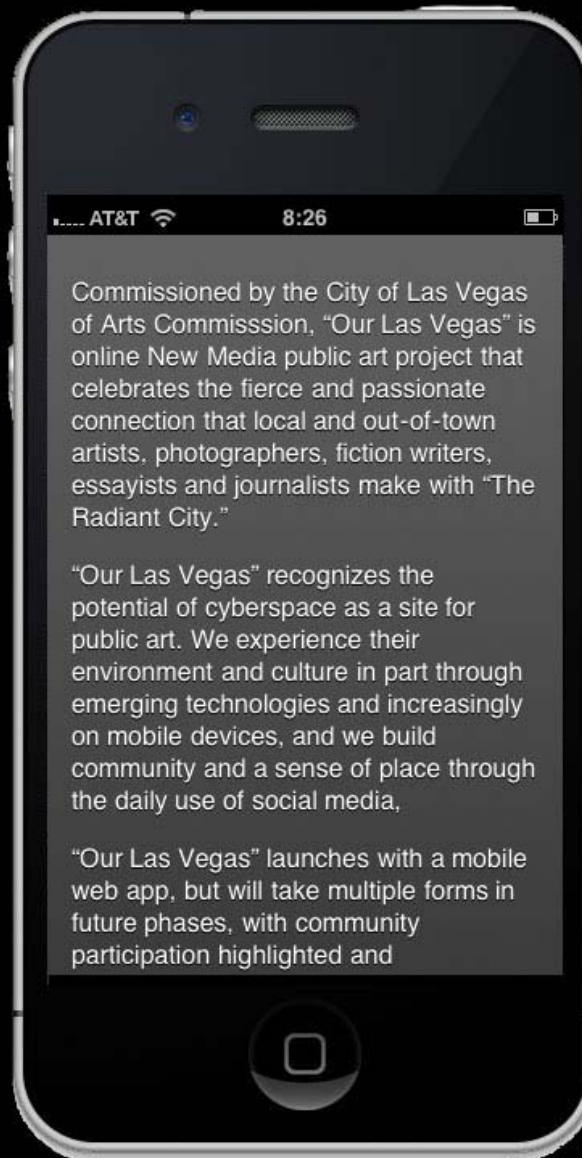

[pre-release prototype]

"On the Floor" focuses on one of the Radiant City's most unique cultural assets, the extraordinary carpets of its casinos. While their work is often appreciated, adding immeasurably to the overall decor of casinos, the designers of carpets work in anonymity. "On the Floor" will feature their work, and provide information about the design and designers. We plan to feature audio interviews with designers, as well as with cultural critics, textiles scholars, and knowledgeable aficionados.
