RESULTS OF CANVASS OF THE PRIMARY ELECTION IN THE CITY OF LAS VEGAS APRIL 7, 2009

The results of the April 7, 2009 Primary Election were canvassed comparing the computer printout of ballots counted and the results thereof with the official ballot statements for the 354 precincts used in the election.

Of the 16,568 ballots cast in the 354 precincts, we were unable to reconcile one ballot between the computer count and the roster count in three precincts. There were no tabulation errors in the 354 precincts and the foregoing irreconcilable discrepancies would not alter the outcome of any contest in this election.

Therefore, as the duly appointed Registrar of Voters of Clark County, Nevada, I do hereby approve the canvassed results of the Primary Election for certification.

There was one more vote in these precincts than signatures in the Election Day roster book. We were unable to determine if a signature was not obtained or if an Election Board Official failed to follow briefed procedures and allowed voter who claimed he or she had not voted to cast a second ballot.
