Dept./Division:

PURPOSE/BACKGROUND:

In 2006, the City Council adopted a regional sewer connection charge to fund the City's share of the Systems Conveyance and Operations Program, a conveyance system intended to assure a certain water quality level of the Las Vegas Wash and Lake Mead. By ordinance, that connection charge is subject to periodic adjustment in order to account for inflation and increased costs. This ordinance will establish the fee schedule for the next three years, incorporating a 1.5% increase each six months over that period. Notice of the proposed increase was published in the newspaper and a public hearing was held at the Council meeting of May 20, 2009.

RECOMMENDATION:

This bill should be submitted to a Recommending Committee for review, hearing and recommendation to the City Council for final action.
