

CHARLESTON NEIGHBORHOOD PRESERVATION

"Doing things today that will improve tomorrow"

AUGUST 31, 2009 Fax: 702-877-2438

TO: CLV Mayor GOODMAN and Councilpersons REESE, WOLFSON, TARKANIAN, ROSS, BARLOW
and ANTYHONY
FROM: CNP
RE: SELECTED CLV agenda items from scheduled meet of September 2, 2009

#13—Please tell the curriculum of this 1 year charter school and
who it is for and
city department source of the \$11,500.

#16—We keep looking for even \$100. for Garside Pool!

#20—Please tell us that this 15 day period amount is (name Actual Amount) LESS OR MORE than Aug
2008.

#22— We request a vote of NO. Each of you and us know that this government program titled,
Conservation Energy plus Renewable Energy Projects, are most egregious deceptive devices to take a
worker's earnings for these counterfeit government programs which ARE used against this/these workers!
This is not constitutional.

Who determines such a standard— Van Jones, Special Advisor (who was a self avowed Communist on
3/09) appointed by our President.

What is the source of "an anticipated installment-purchase agreements" (meaning money we do NOT have)
of this item agenda total of \$10,820,374.00(million) FOR this con-Conservation Energy Program plus
Renewable Energy Projects? Would it be federal "stimulus"?

Would Las Vegas get publicity for not 'participating' in this? Yes, and positive!

#27—West Charleston is catching up with East Charleston for # of these businesses along with loan
opportunities, but no vehicle engine work can be tolerated?

#31—'Tis disappointing that the majority of you agreed to by-pass your constituents by funding an item not
yet on the Planning Commission agenda. A kingdom is efficient, but we the people are not free, only
masses/"they".

#37—Regional Transportation 'Commission' reminds us of the cruel and inhumane punishment endured
by bus riders who are victims of the weather as they stand, sit, lay awaiting and RTC bus, knowing
that one of you is a 'commissioner' on the RTC.

#46—Request a NO vote, we repeat our State of Nevada licensing /City of Las Vegas licensing concerns
and the unreliability of time certain for a treatment to be effective, when a patient is being treated for
'unneigh6örly' challenges.

#50—R-68-2009 -Emphatically we request you each vote NO on this resolution authorizing, and thereby
obligating the Diminishing number of taxpayers in this City of Las Vegas, to pay 5 million, 845 thousand,
921 Dollars for financing "building projects, street projects, and qualified conservation purposes".

Specifically for the following reasons we request your NO votes:

One only financial advisor response,

Openness of purpose,

Loose time lines,

BOARD & ADVISORY MEMBERS

Phone/Fax: 702-877-2438

Clark County Debt Management Commission approved this proposal "by at least 2/3 of members which we understand requires 6 for approvals, meaning at least 4. Why was not a whole number given?

Total of money seems open because the phrase "of one or more installment-purchase agreements in the maximum aggregate principal amount of \$5,845,92" used (maybe) to prevent interpretation of an increased amount or maybe the same amount multiple times, rather than a phrase such as NOT TO EVER EXCEED THE TOTAL of \$5,845,921 FOR A SINGLE TIME NOT TO BE REPEATED, and

'We the people' have no written proposal of how you would acquire these monies from us.

#55—Bill No. 2009-33 Please Vote NO. Wind energy systems are dangerous to some people so changing zoning regulations w/o residents of the target areas being involved is wrong.

#70—NO on rezoning.

#71—YES to allow the installation.

#74—YES

#77—YES

#78—YES

#79—NO 5 ft. should be maintained for emergency vehicles and livability, but evidence indicates this would be approved in Ward 3, right?

Getting stocked-up for Halloween wee goblins, etc!

June Ingram, President of CNP and THE BOARD
