**** STAFF REPORT ****

PROJECT DESCRIPTION

The site is currently undeveloped with a previously approved Site Development Plan Review (SDR-6946) for a proposed mixed-use development consisting of two 16-story, 197 feet tall buildings with a total of 300 residential units and 12,548 square feet of commercial space and waivers of the residential adjacency standards and perimeter landscaping requirements. The site is located adjacent to the west side of Rancho Drive, approximately 190 feet south of Lake Mead Boulevard on 5.48 acres. The applicant received previous approval for a Special Use Permit (SUP-6947) to allow a 197-foot tall building located within an Airport Overlay Zone that restricts the height of buildings to 35 feet. The applicant has not made any progress on the proposed project as no building permits have been issued for the new development. There have not been any significant changes in development or land use since the approval of the Site Development Plan Review (SDR-6946). The applicant is requesting an extension of time due to the poor economic conditions in Las Vegas. Staff is recommending approval with a two-year time limit.
