PURPOSE/BACKGROUND:

The United States Congress enacted the American Recovery and Reinvestment Act of 2009 in response to the global economic recession which has resulted in a slowdown of national economic growth and unemployment. The Energy Independence and Security Act of 2007 created the Energy Efficiency and Conservation Block Grant (EECBG) Program, which was funded by the American Recovery and Reinvestment Act of 2009. Grant funds for the EECBG Competitive Funding Program are available in the amount of not less than \$5,000,000.00 and not more than \$75,000,000.00 for the purpose of creating a Retrofit Ramp-up Program. The EECBG funds will be utilized to help create a building performance contracting industry in Southern Nevada which will help achieve the goals of the City's Sustainable Energy Strategy. The City of Las Vegas will pursue the EECBG through partnership with other local governments and community organizations to fund a community energy audit and retrofit program for homes and buildings in the community.

RECOMMENDATION:

It is recommended that the City Council approve this Resolution and authorize its execution on behalf of the city.
