re: Extension of Time applications for VAR-18924, SDR-18925 and VAR-19609
APN 139-34-710-024

To Whom It May Concern,

These applications for extension of time are requested for the above referenced Site Development Plan Review and associated Variances. The conditions at the site and adjacent to the site have not materially changed; however, the recent economic conditions have made the project development challenging. It is for these reasons that we respectfully request an extension of time.

Very truly yours,

A handwritten signature in black ink, appearing to read 'George Rogers', written over a horizontal line.

George Rogers, AIA
