ANALYSIS

This is a request for a Special Use Permit for a 70-foot, Wireless Communication Facility, Stealth Design (Monopalm) in the rear of the subject site. The proposed location of the Wireless Communication Facility will eliminate a parking space and parking lot island located in the northeast corner of the subject property, reducing the available on-site parking to the minimum 50 parking spaces requirement. The applicant has also proposed to remove four communication antennas currently located within a monument sign at 8420 West Lake Mead Boulevard, and relocate them to the new 70-foot Wireless Communication Facility (Monopalm). In addition, the applicant is proposing to add five (5) antennas to the proposed facility, bringing the total number of antennas on the new structure to nine (9); three sectors with three antennas each. The proposed design will allow for the existing communication antennas to be moved from their current exposed location to a more concealed design, reducing their profile. The proposed location of the Wireless Communication Facility, Stealth Design (Monopalm) is compatible with the surrounding commercial and single-family residential uses. The proposed use can be conducted in a manner that is harmonious and compatible with the existing and future surrounding land uses; therefore, staff recommends approval of this request.

FINDINGS

The following findings must be made for a Special Use Permit:

1. **“The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.”**

The proposed land use can be conducted in a manner that is harmonious and compatible with existing and future surrounding land uses, as projected by the General Plan.

2. “The subject site is physically suitable for the type and intensity of land use proposed.”

The subject site is physically suitable for the type and intensity of the land use proposed.

3. “Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.”

Site access is provided from Lake Mead Boulevard, a 100-foot Primary Arterial as designated in the Master Plan of Streets and Highways. This street provides adequate access to and from the subject property.

4. “Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.”

Approval of this special use permit will not compromise public health, safety, or welfare as the proposed Wireless Communication Facility, Stealth Design use will be subject to regular inspections.

5. The use meets all of the applicable conditions per Title 19.04.

The proposed Wireless Communication Facility, Stealth Design use complies with the conditions per Title 19.04.
