**\*\* STAFF REPORT \*\***

**PROJECT DESCRIPTION**

This is a request for a Variance to allow 170 parking spaces where 228 are required for a proposed 144-unit, three story multi-family residential developments at 15 West Owens Avenue. This represents a 25% deviation from standard. Staff cannot support the Variance request, as the applicant has not provided compelling evidence of a unique or extraordinary circumstance, and has created a self-imposed hardship by proposing to overbuild the site; therefore, staff is recommending denial of this request. If this application is denied, an associated request for Site Development Plan Review (SDR-36576) must also be denied, and the site must comply with the previously approved Site Development Plan Review (SDR-28121).

**ISSUES**

- Approval of this request is necessary for the approval of a companion Site Development Plan Review (SDR-36576) for a proposed 144-unit, three story multi-family residential development.

## ANALYSIS

A total of 228 parking spaces are required per Title 19.10 Parking Standards for the proposed development. The site plan depicts 170 parking spaces, including nine handicap spaces, which is a 25% deviation from standard. The parking provided on this site is inadequate to meet the needs of the proposed development. Alternative site design or a project of smaller scope would alleviate the need for this Variance; therefore, staff is recommending denial of the request, as the applicant has created a self-imposed hardship by proposing to overbuild the site.

## FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature.”

Additionally, Title 19.18.070L states:

“Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution.”

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship. Alternative design of the site with a reduced building footprint or a reduced number of apartment units would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site’s physical characteristics, it is concluded that the applicant’s hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.
