WHEREAS, the City intends to construct **VARIOUS PROJECTS RELATED TO THE CITY'S CAPITAL IMPROVEMENT PROGRAM** (herein individually and collectively the "Project" and "Projects," respectively) which may be known or unknown to the City at the time of the execution of this Agreement; and

WHEREAS, with respect to each Project, the City desires to retain the Consultant who will be responsible for providing the professional services more fully described below and in the exhibits attached hereto; and

WHEREAS, the parties hereto intend with the execution of this Agreement to give to the City the flexibility and ability to determine what services are to be provided by the Consultant on a project by project basis through the issuance of a Project Task Order (herein defined in Section 1.01) thereby eliminating the need of executing separate agreements with the Consultant for each Project.

NOW, THEREFORE, in consideration of the above premises, the parties hereto agree to the following terms, conditions and covenants set forth in Sections One through Ten hereof:

SECTION ONE
CONSULTANT RESPONSIBILITIES

1.01 ***Description of Consultant's Services.***

A. ***Definition.*** A "Project Task Order" refers to that document which sets forth the specific services to be provided by the Consultant in connection with a particular Project.

B. ***Issuance.*** If so requested by the City, the Consultant shall assist the City in preparing a Project Task Order setting further the services to be provided in connection with a particular Project. The Project Task Order shall be prepared substantially in conformance with the form attached hereto as Exhibit "H." Each executed Project Task Order shall be attached hereto as Exhibit "H" with the appropriate numerical sequence (e.g., H-1, H-2, H-3, etc.) and shall become a part of this Agreement.

C. ***Services.*** For each Project Task Order approved and executed by the City, the Consultant hereby agrees to provide the services set forth therein subject to the terms and conditions of this Agreement. For the compensation set forth in Section Seven, the Consultant hereby agrees to perform the basic services set forth in the Scope of Services, **Exhibit "A"** attached thereto and incorporated therein as a part of this Agreement and, if so requested, the additional services set forth in the Additional Compensation, **Exhibit "E"** attached thereto and incorporated therein as a part of this Agreement and to provide the submittals described in the Required Submittals **Exhibit "B,"** attached thereto.

1.02 ***Performance Standards.*** In performing the services set forth in this Agreement, the Consultant shall follow the practices consistent with the generally accepted standards in the profession of the services being provided to the City pursuant to this Agreement.

1.03 ***Document Review.*** The Consultant shall be responsible for reviewing each document prepared by the Consultant and its subconsultants including, without limitation, the plans, drawings and specifications for the purpose of ensuring that such documents are technically sound, in conformance with applicable federal, state and local laws and other regulations, and do not violate or infringe upon any patent rights.

1.04 ***Waiver.*** The City's approval of any documents or services furnished by the Consultant shall not in any way relieve the Consultant of responsibility for the professional and technical accuracy of its documents or services. The City's review, approval, acceptance or payment for any of the Consultant's services shall not be construed to operate as a waiver of any rights enjoyed by the City under this Agreement or of any cause of action arising out of the performance of this Agreement. The Consultant shall remain liable for any damages to the City caused by the Consultant's negligent act or omission committed in the performance of this Agreement.

1.05 ***Designation of Consultant's Representative.*** The Consultant's representative is the individual identified in the Key Personnel List, **Exhibit "F"** attached hereto (the "Consultant Representative") to act in that capacity, who shall be responsible for the services required under this Agreement. The services specified by this Agreement and each Project Task Order shall be performed by the personnel identified in the Key Personnel List and by the personnel identified in each Project Task Order provided that such associates and employees perform under the personal supervision of the Consultant Representative.

If any person or subconsultant who is expected to provide any of the services required under this Agreement is objectionable to the City for any reason, the Consultant shall, without additional compensation, replace such person or subconsultant with someone acceptable to the City.

If the Consultant's personnel are unable to complete their responsibilities for any reason under this Agreement, or the Consultant desires for any reason to substitute personnel assigned to the Project, the Consultant agrees to obtain the approval of the City for the substitution. The City shall not unreasonably deny approval unless the City adjudges the substitution not be in the interest of the City or the Project.

If the Consultant fails to make an acceptable replacement within thirty (30) days, the City may terminate this Agreement for default as provided in Section 10.03 of this Agreement.

1.06 ***Correspondence Review.*** The Consultant shall furnish the City Representative copies of each correspondence, if any, sent to any contractor involved with the Project, and to any regulatory agencies, for approval and review prior to mailing such correspondence.

1.07 ***Cooperation with the City.*** The Consultant agrees that its officers, associates, employees and subconsultants will cooperate with the City in providing the services under this Agreement and will be, with advance notice, available for consultation with the City at such reasonable times as to not conflict with the City's other responsibilities.

1.08 ***Responsibility for Construction Document Revisions.***

A. ***Applicability.*** The Consultant's responsibility described in this Section applies only if the Consultant is responsible for providing a construction cost estimate and preparing construction documents for the Project.

B. ***Responsibility for Revisions.*** The Consultant does not warrant or represent that the bids or proposed price received by the City to construct the Project will come within the Construction Cost Budget set forth in the Scope of Services or as may be otherwise agreed upon in writing by parties. If the bids or proposed price received by the City exceeds the Construction Cost Budget, the Consultant agrees to cooperate with the City in revising the requirements of the Project as required to lower the cost to within the Construction Cost Budget and to modify the construction documents without additional compensation. In order to meet the Construction Cost Budget, the Consultant may, with the approval of the City, segregate portions of the work as separate alternate bid items so that bids received by the City to construct the Project will come within the Construction Cost Budget.

"Construction Cost Budget" as used herein means the monetary limit established by the City for construction of the Project which limit includes the cost of the contractor's labor, materials, equipment, expenses, overhead and profit, but excludes the Project's soft costs, cost of change orders and other cost impacts encountered after award of the construction contract.

SECTION TWO
CITY RESPONSIBILITIES

2.01 ***City Representative.*** The Director of Public Works or his authorized representative identified in the Key Personnel List is hereby designated as the City's representative (the "City Representative") with respect to this Agreement. The City Representative shall have complete authority to transmit instructions, receive information, interpret and define the City's policies and decisions with respect to the services of the Consultant. The City Representative is not authorized to change or waive any of the provisions set forth in Sections 1.01 through 10.24 of this Agreement.

2.02 ***Review of Consultant's Services and Documents.*** The services to be performed by the Consultant shall be subject to periodic review by the City Representative. To prevent an unreasonable delay in the Project, the City Representative will endeavor to examine and comment in writing on the documents furnished by the Consultant including, without limitation, the plans, drawings, specifications, test results,

evaluations, and reports within twenty-one (21) days of receipt of such documents, unless the Contract provides for a different review time with respect to the document.

The City shall assist the Consultant in obtaining data and documents from public agencies and from private citizens and business firms whenever the City determines that such material is necessary for the completion of the services required by this Agreement.

2.04 ***Cooperation with Consultant.*** The City agrees that its officers and employees will cooperate with the Consultant in the performance of this Agreement and will be, with advance notice, available for consultation with the Consultant at such reasonable times as to not conflict with the Consultant's other responsibilities. The City shall provide access to the Consultant on to the Project site as may be required to perform the services under this Agreement.

SECTION THREE
CHANGES TO CONSULTANT'S SERVICES

3.01 ***Requested Changes.*** The City may at any time, by written order, make a change in the services to be performed by the Consultant under this Agreement.

3.02 ***Adjustment of Compensation.*** If the change requested by the City causes an increase or decrease in the cost or time required to perform any of the services required under this Agreement, an equitable adjustment shall be made in the compensation to be paid to the Consultant under Section Seven, or in the performance schedule under Section Eight, or both, and this Agreement shall be modified in writing accordingly. Each claim for adjustment under this Section must be asserted in writing within thirty (30) days from the date of receipt by the Consultant of written notification of the change, unless the City grants in writing an extension. Provided proper notice has been given to the City as required herein, the claim for an adjustment shall be handled pursuant to the provisions of 10.20B and 10.20C of this Agreement. The failure to provide notification of the claim within the time required herein shall constitute a waiver of the right to seek any equitable or legal adjustment in compensation with respect to that change.

SECTION FOUR
ADDITIONAL SERVICES OF CONSULTANT

4.01 ***Additional Services.*** The Consultant shall provide the additional services described in the Additional Compensation if, and only if, so requested in writing by the City. Payment for the additional services will be made to the Consultant in accordance with Section Seven of this Agreement.

SECTION FIVE
SUBCONSULTANT AGREEMENT

5.01 ***Subconsultant Provisions.*** If, with the approval of the City as required pursuant to Section 10.07, the Consultant enters into an agreement with a subconsultant for the performance of any of its obligations under this Agreement, the Consultant agrees to include in each subconsultant agreement a provision that:

(i) the Consultant agrees to pay the subconsultant when paid by the City for that portion of the services provided to the City and that no liability arises on the part of the Consultant for payment of the subconsultant services until payment has been made by the City. If the City has paid the Consultant for the subconsultant services, the subconsultant's only recourse is against the Consultant and not against the City, either through the institution of legal or equitable action or the attachment of any lien,

(ii) the subconsultant shall have no more rights against the City than that of the Consultant,

(iii) the subconsultant agrees to be bound by the terms, conditions and obligation of this Agreement unless the City has approved any deviation, change or modification in writing, and

SECTION SIX
TERM OF AGREEMENT

6.01 ***Term.*** This Agreement shall commence on the day it is approved by the City (which date shall be inserted in the introductory paragraph of this Agreement) and shall remain in force and effect until the Project is completed unless terminated earlier pursuant to Section 10.02 or 10.03 of this Agreement. Such termination shall not release either party from any of its continuing obligations under this Agreement.

6.02 ***Disputes.*** This Section shall not be construed to preclude the filing of any dispute arising out of the performance of this Agreement or in connection with the subject matter hereof, nor shall this Section be construed to change the date or the time on which a cause of action arising out of the performance of this Agreement or in connection with the subject matter hereof, would otherwise accrue under the statutes of limitation or doctrines of law.

SECTION SEVEN
COMPENSATION AND TERMS OF PAYMENT

7.01 ***Compensation: Basic Services.*** For the services to be performed by the Consultant under this Agreement and set forth in the Scope of Services, the City agrees to pay the Consultant the fee in the amount identified in the Fee Breakdown, **Exhibit "D"** attached hereto, pursuant to invoices submitted in accordance with Section 7.04 of this Agreement.

7.02 ***Compensation: Additional Services.*** For any services not set forth in the Scope of Services, the City shall pay to the Consultant either a lump sum fee, or an hourly fee based on the hourly labor rate schedule set forth in the Additional Compensation, whichever is agreed to by the parties, provided prior written approval for such services is given by the City Representative.

7.03 ***Compensation: Reimbursable Expenses.*** The Consultant agrees that all of its direct and indirect expenses are included in the fee for Basic Services and the agreed upon compensation for any Additional Services, except as may be specifically allowed for reimbursable expenses as part of the Additional Compensation.

7.04 ***Payment Invoicing.*** The Consultant may submit an invoice for payment for the services provided by the Consultant based on the manner or method of payment set forth in the Fee Breakdown. The City Representative will notify the Consultant of any problems regarding the invoice within fourteen (14) days from receipt thereof. If no response is received from the City Representative within the aforementioned period of time, the Consultant may expect payment within a period of (60) days from the date of receipt by the City. If payment has not been received within the sixty (60) days, the Consultant agrees to contact the City Representative to resolve the problem causing the delay. If resolution of the delay is not satisfactory to the Consultant, the Consultant may submit a claim pursuant to Section 10.20A of this Agreement.

7.05 ***Right to Off-Set.*** The City Representative may subtract or offset from any unpaid invoice from the Consultant any claims which the City may have for failure of the Consultant to comply with the terms, conditions or covenants of this Agreement, or any damages, costs and expenses caused by, resulting from, or arising out of the negligent act or omission of the Consultant in the performance of the services under this Agreement including, without limitation, any error or deficiency in the report or other documents prepared by the Consultant. The City Representative shall provide a written statement to the Consultant of the off-set which has been subtracted from any payment to the Consultant along with appropriate documentation and receipts, if any, and a description of the failure, error or deficiency attributed to the Consultant. If the Consultant disputes the right or amount of the off-set made by the City, the Consultant may file a claim pursuant to Section 10.20 of this Agreement.

7.06 ***Final Payment.*** Upon completion of the services required under this Agreement, and acceptance thereof by the City (which acceptance will not be unreasonably withheld), the Consultant will, within sixty (60) days of the City's acceptance, be paid the balance of any money due for such services.

SECTION EIGHT
PERFORMANCE SCHEDULE

8.01 ***Performance Schedule.*** The Consultant shall perform and complete the services required under this Agreement according to the schedule (the "Performance Schedule") set forth in the Schedule of Performance, **Exhibit "C"** attached hereto. If the performance of services is delayed or submittals are not delivered in the time period as outlined in the Performance Schedule, the Consultant shall notify the City

Representative in writing of the reasons for the delay and include a plan which brings the Consultant's performance into compliance with the Performance Schedule.

SECTION NINE

9.03 ***Period of Maintenance.*** The books, records and other documents under Sections 9.01 and 9.02 of this Agreement shall be maintained for three (3) years after the date of the final payment for the services under this Agreement. In addition, those records and other documents which relate to any arbitration, litigation or the settlement of any claim arising out of this Agreement, or to which an audit exception has been taken, shall be maintained and made available until three (3) years after the date that the arbitration, litigation or exception has been resolved.

The Consultant shall not provide any further services under this Agreement after the effective date of suspension until otherwise notified in writing by the City. In no event shall the City be liable to the Consultant for services in excess of the percentage of the Project completed at the time of suspension.

If, after notice to resume performance has been given by the City, the suspension was for a period in excess of ninety (90) days, which has resulted in an increase in the performance of the Agreement to the Consultant and:

(i) the Consultant was not a contributing cause for the suspension,

(ii) the Consultant has not received an equitable adjustment under another provision of this Agreement, and

(iii) the Consultant could not mitigate the increase in the performance cost,

(iv) fails, in the judgment of the City, to provide the services hereunder properly and with proper dispatch in accordance with the time schedule set forth in this Agreement,

and the default continues five (5) days after written notice is given to the Consultant pursuant to Section 10.18.

B. ***City's Rights.*** Upon the occurrence of an Event of Default, and without prejudice to any other right or remedy it may have at law or equity, the City may:

(i) terminate this Agreement, suspend payment of all pending invoices otherwise due to the Consultant hereunder, and finish this Agreement by such means as deemed appropriate by the City, reserving the right to deduct from any balance due Consultant the cost of completing this Agreement. In the event the cost of finishing the Consultant's performance of this Agreement exceeds the balance due the Consultant, the excess shall be paid by the Consultant to the City within five (5) days of invoicing by the City,

(ii) terminate this Agreement, and the obligations imposed hereunder, including the obligation of any further payment for the services of the Consultant except for the reasonable value for the services performed to the date of termination, or

(iii) Continue with performance by the Consultant and serve within a reasonable time after completion of the Agreement a request to arbitrate the Event of Default as a claim or dispute pursuant to the arbitration procedure set forth in Section 10.20.

In the event that the City elects to implement (i) above, the costs and expenses of completing this Agreement shall be computed and audited by the City's designated representative. Such coverage shall be in a minimum amount of $1,000,000 for the period of time covered by this Agreement.

D. ***Cancellation or Modification of Coverage.*** The Consultant's Comprehensive General Liability and Professional Liability Insurance Policies shall automatically include or be endorsed to cover the Consultant's contractual liability to the City under this Agreement, and with respect to its Comprehensive General Liability Policy, to waive subrogation against the City, its officers, agents, servants and employees. The policies shall provide that the City will be given thirty (30) days' notice in writing of any cancellation of, or material change in, the policies.

E. ***Certificates and Endorsements.*** The certificates and endorsements for each insurance policy are to be signed by a person authorized by that insurer and licensed by the State of Nevada. All deductibles and self-insured retentions shall be fully disclosed in the Certificate of Insurance. As part of its obligation hereunder, the Consultant shall, at is own expense, defend the Indemnitees against the Claims which may be brought against them, or any of them, as a result of, by reason of, or as a consequence of, the negligent act or omission of the Consultant, its subcontractors or agents, for and against which the Consultant is obligated to indemnify the Indemnitees, unless the Indemnitees, or any of them elect to conduct their own defense which, in such case, shall not relieve the Consultant of its obligation of indemnification set forth herein. If the Consultant fails to do so, the Indemnitees shall have the right, but not the obligation, to defend the same and charge the direct and incidental costs of such defense (including attorney fees and court costs) against the Consultant which is proportionate to the liability of the Consultant.

If the professional liability insurer of the Consultant does not so defend the Indemnitees and the Consultant is adjudicated to be liable by a trier of fact, the trier of fact shall award reasonable attorney's fees to be paid to the Indemnitees by the Consultant in an amount which is proportionate to the liability of the Consultant. As used in this Section, "agents" means those persons who are directly involved in and acting on behalf of the City in furtherance of this Agreement or the public work to which this Agreement pertains.

Nothing contained herein shall be construed as creating any personal liability on the part of any officer or agent of the City.

10.08 ***Waiver.*** No consent or waiver, express or implied, by either party to this Agreement, or of any breach or default by the other in the performance of any obligations hereunder, shall be deemed or construed to be a consent or waiver of any other breach or default by such party hereunder. Failure on the part of any party hereto to complain of any act, or failure to act of the other party, or to declare that other party in default hereunder, irrespective of how long such failure continues, shall not constitute a waiver of the rights of such party hereunder. Inspection, payment, or tentative approval or acceptance by the City or the failure of the City to perform any inspection hereunder, shall not constitute a final acceptance of the work or any part thereof and shall not release the Consultant of any of its obligations hereunder.

10.09 ***Consultant Warranties.*** The Consultant hereby represents and warrants that:

(i) it is financially solvent, able to pay its debts as they mature, and is possessed of sufficient working capital to complete this Agreement; that it is experienced, competent, qualified and able to furnish the plant, tools, materials, supplies, equipment and labor which is used to perform the services contemplated by this Agreement, and that it is authorized to do business in the City of Las Vegas and the State of Nevada,

If the Consultant, or its principals or partners, are required to provide disclosure under federal law (such as Securities and Exchange Commission or the Employee Retirement Income Act) and current copies of such federal disclosures are attached to **Exhibit "G,"** the requirements of this Section shall be deemed satisfied. During the term of this Agreement, the Consultant shall notify the City in writing of any material change in the above disclosure on **Exhibit "G"** within fifteen (15) days of such change.

10.10 ***Consultant's Employees.*** The Consultant shall be responsible for maintaining satisfactory standards of competency, conduct and integrity, of personnel assigned to the Project, and shall be responsible for taking such disciplinary action with respect to such personnel as may be necessary. In the event the Consultant fails to remove any employee from the work of this Agreement whom the City deems incompetent, careless or insubordinate, or whose continued employment on the work is deemed by the City to be contrary to the public interest, the City reserves the right to require such removal as a condition for the continuation of this Agreement.

10.11 ***Independent Contractor.*** It is hereby expressly agreed and understood that in the performance of the services required herein, the Consultant and any other person employed by him hereunder shall be deemed to be an independent contractor and not an agent or employee of the City.

10.12 ***Applicable Law.*** This Agreement shall be construed and interpreted in accordance with the laws of the State of Nevada.

10.13 ***Compliance with Laws.*** The Consultant shall in the performance of its obligations hereunder comply with all applicable laws, rules and regulations of all governmental authorities having jurisdiction over the performance of this Agreement including, without limitation, the Federal Occupational Health and Safety Act and all state and federal laws prohibiting and/or related to discrimination by reason of race, sex, age, religion or national origin.

10.14 ***Severability.*** In the event that any provisions of this Agreement shall be held to be invalid or unenforceable, the remaining provisions of this Agreement shall remain valid and binding on the parties hereto.

10.15 ***Confidentiality.*** The Consultant shall treat the information relating to the Project, which has been produced by the Consultant or provided by the City, as confidential and proprietary information of the City and shall not permit its release to other parties or make any public announcement or publicity release without the City's written authorization. The Consultant shall also require each subconsultant to comply with this requirement. The submission or distribution of documents to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication relieving the Consultant of its confidentiality obligation imposed herein.

10.16 ***Site Inspection.*** The Consultant represents that, prior to executing each Project Task Order, it has visited the location of the Project and has satisfied itself as to the general condition thereof and that the Consultant's compensation as provided for in the Agreement is just and reasonable compensation for performance hereunder including reasonably foreseen and foreseeable risks, hazards and difficulties in connection therewith based on such above-ground observations.

10.17 ***Modification.*** All modification or amendments to this Agreement are null and void unless reduced in writing and signed by the parties hereto.

10.18 ***Notice.*** Any written notice required to be given under Sections 1.01 through 10.24 of this Agreement shall be deemed to have been given when the written notice is (i) received by the party to whom it is directed by personal service (ii) telephonically faxed to the telephone number set forth in the introductory paragraph to this Agreement, provided confirmation of the transmission is received by the sender, or (iii) deposited with the United States Postal Service, postage prepaid, addressed to the City Representative or the Consultant Representative, whomever is the proper recipient, and mailed to the address set forth in the introductory paragraph to this Agreement.

10.19 ***Prohibition Against Contingent Fees.*** The Consultant warrants that no person or entity has been employed or retained to solicit or secure this Agreement with the Agreement or understanding that a commission, percentage, brokerage or contingent fee would be paid to that person. For breach or violation of this provision, the City shall have the right to annul this Agreement without liability or, in its discretion, to deduct from the compensation to be paid to the Consultant, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.

10.20 ***Claim or Dispute Resolution.***

A. ***Notice of Claim or Dispute.*** For each claim or dispute which the Consultant has against or with the City (except for any claim for an equitable adjustment under Section 3.02 which is subject to the 30-day limitation set forth therein), notice thereof must be submitted in writing to the City Representative within a reasonable time after the claim or dispute arises, but no later than thirty (30) days after final payment is made to the Consultant. The purpose of written notification is to place the City on notice so that proper measures can be taken to properly defend against the claim or dispute, and the failure to give such notice shall preclude the Consultant from subsequently arbitrating that particular claim or dispute pursuant to Section 10.20C of this Agreement, and the Consultant shall have no further recourse against the City. Pending a final decision on the claim or dispute under Sections 10.20B or 10.20C, the Consultant shall proceed diligently with the performance of this Agreement.

B. ***Resolution by Management.*** The City Representative and the Consultant Representative shall meet within a reasonable time after receipt of the written notice received pursuant to Section 10.20A in an attempt to resolve the claim or dispute to the mutual satisfaction of the parties. If the matter is not disposed of by mutual agreement between the City Representative and the Consultant Representative, the claim or dispute shall be decided by the Director of Public Works, whose decision shall be reduced to writing and mailed or otherwise furnished to the Consultant. The decision of the Director of Public Works shall be final and conclusive unless, within thirty (30) days after the date on which the Consultant receives its copy of such decision, the Consultant mails or otherwise furnishes to the Director of Public Works a written request to arbitrate the claim or dispute, in which event the parties shall proceed with the arbitration pursuant to provisions of Section 10.20B. The failure to make such request shall preclude the Consultant from proceeding any further on the claim or dispute, and the Consultant shall have no further recourse against the City.

C. ***Resolution by Arbitration.*** Upon receipt of the request to arbitrate authorized pursuant Section 10.03B or Section 10.20B, the City and the Consultant shall come to an agreement as to the appointment of an arbitrator for purposes of hearing the appeal. If the parties cannot

reach an agreement, then each party shall select an arbitrator for purposes of the appeal, and the two shall select a third arbitrator within 20 days of their appointment. If the selected arbitrators are unable to agree upon the third arbitrator, the third arbitrator shall be selected by the American Arbitration Association or the Nevada Arbitration Association, whichever is designated by the City. Each party shall be afforded an opportunity to be heard and to offer evidence in support of or against the appeal. The decision of the arbitrator, or arbitrators, as the case may be for the determination of the appeal, shall be final, conclusive and enforceable under the laws of the State of Nevada.

D. ***Right of Consolidation.*** Any arbitration arising out of or relating to this Agreement may include, by consolidation, joinder or in any other manner, any additional party or parties who are not a party to this Agreement if so requested by the City or the Consultant. Any consent to arbitration involving an additional party or parties shall not constitute consent to arbitrate any claim or dispute not described as a part of the original arbitration unless otherwise agreed to by the parties.

E. ***Right of Joinder.*** In the event the City is named as a party to any arbitration, or the City commences an arbitration against a party other than the Consultant, which arbitration is related to, or connected with, the construction of the Project or the performance of the Consultant's services hereunder (such as, without limitation, any arbitration between the City and the contractor awarded the contract to construct the Project), the Consultant agrees and irrevocably consents to be joined as a party in the arbitration proceeding and to be bound by any decision resulting therefrom. The decision of the arbitrator or arbitrators, as the case may be, in the arbitration to which the Consultant has been joined as a party, shall be binding and enforceable against the parties thereto under the laws of the State of Nevada.

If the Consultant is named as an additional party by the City, the Consultant shall not be entitled to any additional compensation from the City as a result of preparing for, and participating in, the arbitration.

F. ***Discovery.*** In the event of arbitration, the parties agree that all means of discovery including, but not limited to, depositions and interrogatories, will be afforded to the parties involved in the arbitration, and the appointed arbitrator shall have all authority to impose sanctions against either party for failing to comply with the rules of discovery provided under the Nevada Rules of Civil Procedure.

G. ***Award Final.*** The award rendered by the arbitrator shall be final, and judgment may be entered upon its accordance with applicable law in any court having jurisdiction thereof.

H. ***Mediation.*** Subsequent to the commencement of any arbitration pursuant to Section 10.20C, and prior to any decision arising therefrom, the parties may endeavor with written mutual consent to settle disputes by mediation in accordance with the mediation rules of the mediation service agreed by the parties. The cost of the mediation shall be shared equally by the parties.

10.21 ***Attorney Fees.*** The prevailing party in any litigation or arbitration brought to enforce the provisions of this Agreement shall be entitled to reasonable attorney fees and court costs.

10.22 ***Calendar Day.*** All references in this Agreement to days are to calendar days unless otherwise indicated.

10.23 ***Exhibits.*** All exhibits referenced in this Agreement are hereby incorporated by this reference as a part of this Agreement. Any conflict between the provisions of this Agreement and the Exhibits incorporated herein shall be governed by the provisions of this Agreement.

10.24 ***Counterparts; Electronic Delivery.*** This Agreement may be executed in counterparts, all such counterparts will constitute the same contract and the signature of any party to any counterpart will be deemed a signature to, and may be appended to, any other counterpart. Executed copies hereof may be delivered by facsimile or e-mail and upon receipt will be deemed originals and binding upon the parties hereto, regardless of whether originals are delivered thereafter.

10.25 ***Agreement Version.*** This document incorporates the standard provisions for the City's Professional Services Agreement updated as of April 8, 2008.

NOW, THEREFORE, in consideration of the above premises, the parties hereto agree to the following terms, conditions and covenants set forth in Sections One through Ten hereof:

SECTION ONE
CONSULTANT RESPONSIBILITIES

1.01 ***Description of Consultant's Services.*** For the compensation set forth in Section Seven, the Consultant hereby agrees to perform the basic services set forth in the Scope of Services, **Exhibit "A"** attached hereto and incorporated herein as a part of this Agreement and, if so requested, the additional services set forth in the Additional Compensation, **Exhibit "E"** attached hereto and incorporated herein as a part of this Agreement and to provide the submittals described in the Required Submittals **Exhibit "B,"** attached hereto.

1.02 ***Performance Standards.*** In performing the services set forth in this Agreement, the Consultant shall follow the practices consistent with the generally accepted standards in the profession of the services being provided to the City pursuant to this Agreement.

1.03 ***Document Review.*** The Consultant shall be responsible for reviewing each document prepared by the Consultant and its subconsultants including, without limitation, the plans, drawings and specifications for the purpose of ensuring that such documents are technically sound, in conformance with applicable federal, state and local laws and other regulations, and do not violate or infringe upon any patent rights.

1.04 ***Waiver.*** The City's approval of any documents or services furnished by the Consultant shall not in any way relieve the Consultant of responsibility for the professional and technical accuracy of its documents or services. The City's review, approval, acceptance or payment for any of the Consultant's services shall not be construed to operate as a waiver of any rights enjoyed by the City under this Agreement or of any cause of action arising out of the performance of this Agreement. The Consultant shall remain liable for any damages to the City caused by the Consultant's negligent act or omission committed in the performance of this Agreement.

1.05 ***Designation of Consultant's Representative.*** The Consultant's representative is the individual identified in the Key Personnel List, **Exhibit "F"** attached hereto (the "Consultant Representative") to act in that capacity, who shall be responsible for the services required under this Agreement. The services specified by this Agreement shall be performed by the personnel identified in the Key Personnel List provided that such associates and employees perform under the personal supervision of the Consultant Representative.

If any person or subconsultant who is expected to provide any of the services required under this Agreement is objectionable to the City for any reason, the Consultant shall, without additional compensation, replace such person or subconsultant with someone acceptable to the City.

If the Consultant's personnel are unable to complete their responsibilities for any reason under this Agreement, or the Consultant desires for any reason to substitute personnel assigned to the Project, the Consultant agrees to obtain the approval of the City for the substitution. The City shall not unreasonably deny approval unless the City adjudges the substitution not be in the interest of the City or the Project.

If the Consultant fails to make an acceptable replacement within thirty (30) days, the City may terminate this Agreement for default as provided in Section 10.03 of this Agreement.

1.06 ***Correspondence Review.*** The Consultant shall furnish the City Representative copies of each correspondence, if any, sent to any contractor involved with the Project, and to any regulatory agencies, for approval and review prior to mailing such correspondence.

1.07 ***Cooperation with the City.*** The Consultant agrees that its officers, associates, employees and subconsultants will cooperate with the City in providing the services under this Agreement and will be, with advance notice, available for consultation with the City at such reasonable times as to not conflict with the City's other responsibilities.

A. ***Applicability.*** The Consultant's responsibility described in this Section applies only if the Consultant is responsible for providing a construction cost estimate and preparing construction documents for the Project.

B. ***Responsibility for Revisions.*** The Consultant does not warrant or represent that the bids or proposed price received by the City to construct the Project will come within the Construction Cost Budget set forth in the Scope of Services or as may be otherwise agreed upon in writing by parties. If the bids or proposed price received by the City exceeds the Construction Cost Budget, the Consultant agrees to cooperate with the City in revising the requirements of the Project as required to lower the cost to within the Construction Cost Budget and to modify the construction documents without additional compensation. In order to meet the Construction Cost Budget, the Consultant may, with the approval of the City, segregate portions of the work as separate alternate bid items so that bids received by the City to construct the Project will come within the Construction Cost Budget.

"Construction Cost Budget" as used herein means the monetary limit established by the City for construction of the Project which limit includes the cost of the Contractor's labor, materials, equipment, expenses, overhead and profit, but excludes the Project's soft costs, cost of change orders and other cost impacts encountered after award of the construction contract.

SECTION TWO
CITY RESPONSIBILITIES

2.01 ***City Representative.*** The Director of Public Works or his authorized representative identified in the Key Personnel List is hereby designated as the City's representative (the "City Representative") with respect to this Agreement. The City Representative shall have complete authority to transmit instructions, receive information, interpret and define the City's policies and decisions with respect to the services of the Consultant. The City Representative is not authorized to change or waive any of the provisions set forth in Sections 1.01 through 10.24 of this Agreement.

2.02 ***Review of Consultant's Services and Documents.*** The services to be performed by the Consultant shall be subject to periodic review by the City Representative. To prevent an unreasonable delay in the Project, the City Representative will endeavor to examine and comment in writing on the documents furnished by the Consultant including, without limitation, the plans, drawings, specifications, test results, evaluations, and reports within twenty-one (21) days of receipt of such documents, unless the Contract provides for a different review time with respect to the document.

The City shall provide access to the Consultant on to the Project site as may be required to perform the services under this Agreement.

SECTION THREE
CHANGES TO CONSULTANT'S SERVICES

3.01 ***Requested Changes.*** The City may at any time, by written order, make a change in the services to be performed by the Consultant under this Agreement.

3.02 ***Adjustment of Compensation.*** If the change requested by the City causes an increase or decrease in the cost or time required to perform any of the services required under this Agreement, an equitable adjustment shall be made in the compensation to be paid to the Consultant under Section Seven, or in the performance schedule under Section Eight, or both, and this Agreement shall be modified in writing accordingly. Each claim for adjustment under this Section must be asserted in writing within thirty (30) days from the date of receipt by the Consultant of written notification of the change, unless the City grants in writing an extension. Provided proper notice has been given to the City as required herein, the claim for an adjustment shall be handled pursuant to the provisions of 10.20B and 10.20C of this Agreement. The failure to provide notification of the claim within the time required herein shall constitute a waiver of the right to seek any equitable or legal adjustment in compensation with respect to that change.

SECTION FOUR
ADDITIONAL SERVICES OF CONSULTANT

4.01 ***Additional Services.*** The Consultant shall provide the additional services described in the Additional Compensation if, and only if, so requested in writing by the City. Payment for the additional services will be made to the Consultant in accordance with Section Seven of this Agreement.

4.02 ***Attendance at Meetings or Public Hearings.*** The Consultant shall notify the City in advance of any additional costs which may be incurred prior to attending any meetings or public hearings as may be necessary in connection with the services performed by the Consultant under this Agreement.

SECTION FIVE
SUBCONSULTANT AGREEMENT

5.01 ***Subconsultant Provisions.*** If, with the approval of the City as required pursuant to Section 10.07, the Consultant enters into an agreement with a subconsultant for the performance of any of its obligations under this Agreement, the Consultant agrees to include in each subconsultant agreement a provision that:

(i) the Consultant agrees to pay the subconsultant when paid by the City for that portion of the services provided to the City and that no liability arises on the part of the Consultant for payment of the subconsultant services until payment has been made by the City. If the City has paid the Consultant for the subconsultant services, the subconsultant's only recourse is against the Consultant and not against the City, either through the institution of legal or equitable action or the attachment of any lien,

(ii) the subconsultant shall have no more rights against the City than that of the Consultant,

(iii) the subconsultant agrees to be bound by the terms, conditions and obligation of this Agreement unless the City has approved any deviation, change or modification in writing, and

(iv) unless otherwise approved in writing by the City Representative, the subconsultant shall obtain and maintain professional liability insurance (Errors and Omissions coverage) in connection with the subconsultant services in an amount equal to that required of the Consultant in this Agreement.

SECTION SIX
TERM OF AGREEMENT

6.01 ***Term.*** This Agreement shall commence on the day it is approved by the City (which date shall be inserted in the introductory paragraph of this Agreement) and shall remain in force and effect until the Project is completed unless terminated earlier pursuant to Section 10.02 or 10.03 of this Agreement. Such termination shall not release either party from any of its continuing obligations under this Agreement.

6.02 ***Disputes.*** This Section shall not be construed to preclude the filing of any dispute arising out of the performance of this Agreement or in connection with the subject matter hereof, nor shall this Section be construed to change the date or the time on which a cause of action arising out of the performance of this Agreement or in connection with the subject matter hereof, would otherwise accrue under the statutes of limitation or doctrines of law.

SECTION SEVEN
COMPENSATION AND TERMS OF PAYMENT

7.01 ***Compensation: Basic Services.*** For the services to be performed by the Consultant under this Agreement and set forth in the Scope of Services, the City agrees to pay the Consultant the fee in the amount identified in the Fee Breakdown, **Exhibit "D"** attached hereto, pursuant to invoices submitted in accordance with Section 7.04 of this Agreement.

7.02 ***Compensation: Additional Services.*** For any services not set forth in the Scope of Services, the City shall pay to the Consultant either a lump sum fee, or an hourly fee based on the hourly labor rate schedule set forth in the Additional Compensation, whichever is agreed to by the parties, provided prior written approval for such services is given by the City Representative.

7.03 ***Compensation: Reimbursable Expenses.*** The Consultant agrees that all of its direct and indirect expenses are included in the fee for Basic Services and the agreed upon compensation for any Additional Services, except as may be specifically allowed for reimbursable expenses as part of the Additional Compensation.

7.04 ***Payment Invoicing.*** The Consultant may submit an invoice for payment for the services provided by the Consultant based on the manner or method of payment set forth in the Fee Breakdown. The City Representative will notify the Consultant of any problems regarding the invoice within fourteen (14) days from receipt thereof. If no response is received from the City Representative within the aforementioned period of time, the Consultant may expect payment within a period of (60) days from the date of receipt by the City. If payment has not been received within the sixty (60) days, the Consultant agrees to contact the City Representative to resolve the problem causing the delay. If resolution of the delay is not satisfactory to the Consultant, the Consultant may submit a claim pursuant to Section 10.20A of this Agreement.

7.05 ***Right to Off-Set.*** The City Representative may subtract or offset from any unpaid invoice from the Consultant any claims which the City may have for failure of the Consultant to comply with the terms, conditions or covenants of this Agreement, or any damages, costs and expenses caused by, resulting from, or arising out of the negligent act or omission of the Consultant in the performance of the services under this Agreement including, without limitation, any error or deficiency in the report or other documents prepared by the Consultant. The City Representative shall provide a written statement to the Consultant of the off-set which has been subtracted from any payment to the Consultant along with appropriate documentation and receipts, if any, and a description of the failure, error or deficiency attributed to the Consultant. If the Consultant disputes the right or amount of the off-set made by the City, the Consultant may file a claim pursuant to Section 10.20 of this Agreement.

7.06 ***Final Payment.*** Upon completion of the services required under this Agreement, and acceptance thereof by the City (which acceptance will not be unreasonably withheld), the Consultant will, within sixty (60) days of the City's acceptance, be paid the balance of any money due for such services.

SECTION EIGHT
PERFORMANCE SCHEDULE

8.01 ***Performance Schedule.*** The Consultant shall perform and complete the services required under this Agreement according to the schedule (the "Performance Schedule") set forth in the Schedule of Performance, **Exhibit "C"** attached hereto. If the performance of services is delayed or submittals are not delivered in the time period as outlined in the Performance Schedule, the Consultant shall notify the City Representative in writing of the reasons for the delay and include a plan which brings the Consultant's performance into compliance with the Performance Schedule.

SECTION NINE
AUDIT: ACCESS TO RECORDS

9.01 ***Records.*** The City shall have the right to audit the Consultant's books, records and other documents directly pertinent to the performance of this Agreement. The Consultant agrees to maintain books, records and other documents directly pertinent to performance of this Agreement in accordance with generally accepted accounting principles and practices. The Consultant shall also maintain the financial information and data used to prepare or support the invoices submitted to the City. Audits conducted pursuant to this provision shall be in accordance with generally accepted auditing standards, procedures and guidelines of the City, or its designated representative. The City, or its duly authorized representatives, shall have access to such books, records, and documents for the purpose of inspection, audit and copying. The Consultant will provide proper facilities for such access and inspection.

In addition, those records and other documents which relate to any arbitration, litigation or the settlement of any claim arising out of this Agreement, or to which an audit exception has been taken, shall be maintained and made available until three (3) years after the date that the arbitration, litigation or exception has been resolved.

9.04 ***Subcontract Provisions.*** The Consultant agrees to include Sections 9.01 through 9.03 of this Agreement in all its subcontracts directly related to performance of services specified in this Agreement which are in excess of $10,000.

SECTION TEN
MISCELLANEOUS PROVISIONS

10.01 ***Suspension.*** The City may suspend, without cause, the performance by the Consultant under this Agreement for such period of time as the City, in its sole discretion, may prescribe by providing written notice to the Consultant. The suspension shall be effective as of the date set forth in the written notice. With such suspension, the City agrees to pay to the Consultant the amount of compensation, based on percentage of completion of the Project, earned as of the effective date of suspension less all previous payments. The Consultant shall not provide any further services under this Agreement after the effective date of suspension until otherwise notified in writing by the City. In no event shall the City be liable to the Consultant for services in excess of the percentage of the Project completed at the time of suspension.

If, after notice to resume performance has been given by the City, the suspension was for a period in excess of ninety (90) days, which has resulted in an increase in the performance of the Agreement to the Consultant and:

(i) the Consultant was not a contributing cause for the suspension,

(iii) the Consultant could not mitigate the increase in the performance cost,

In the event of termination, without cause or default, the City agrees to pay to the Consultant the reasonable value for the services performed as of the date that notification of termination is received by the Consultant. In no event shall the City be liable to the Consultant for services in excess of the percentage completed at the time of termination.

The Consultant shall also require each subconsultant to comply with this requirement. The submission or distribution of documents to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication relieving the Consultant of its confidentiality obligation imposed herein.

10.16 ***Site Inspection.*** The Consultant represents that it has visited the location of the Project and has satisfied itself as to the general condition thereof and that the Consultant's compensation as provided for in the Agreement is just and reasonable compensation for performance hereunder including reasonably foreseen and foreseeable risks, hazards and difficulties in connection therewith based on such above-ground observations.

For breach or violation of this provision, the City shall have the right to annul this Agreement without liability or, in its discretion, to deduct from the compensation to be paid to the Consultant, or otherwise recover, the full amount of such commission, percentage, brokerage or contingent fee.

10.20 ***Claim or Dispute Resolution.***

A. ***Notice of Claim or Dispute.*** For each claim or dispute which the Consultant has against or with the City (except for any claim for an equitable adjustment under Section 3.02 which is subject to the 30-day limitation set forth therein), notice thereof must be submitted in writing to the City Representative within a reasonable time after the claim or dispute arises, but no later than thirty (30) days after final payment is made to the Consultant. The purpose of written notification is to place the City on notice so that proper measures can be taken to properly defend against the claim or dispute, and the failure to give such notice shall preclude the Consultant from subsequently arbitrating that particular claim or dispute pursuant to Section 10.20C of this Agreement, and the Consultant shall have no further recourse against the City. If the parties cannot reach an agreement, then each party shall select an arbitrator for purposes of the appeal, and the two shall select a third arbitrator within 20 days of their appointment. If the selected arbitrators are unable to agree upon the third arbitrator, the third arbitrator shall be selected by the American Arbitration Association or the Nevada Arbitration Association, whichever is designated by the City. Each party shall be afforded an opportunity to be heard and to offer evidence in support of or against the appeal. The decision of the arbitrator, or arbitrators, as the case may be for the determination of the appeal, shall be final, conclusive and enforceable under the laws of the State of Nevada.

D. ***Right of Consolidation.*** Any arbitration arising out of or relating to this Agreement may include, by consolidation, joinder or in any other manner, any additional party or parties who are not a party to this Agreement if so requested by the City or the Consultant. Any consent to arbitration involving an additional party or parties shall not constitute consent to arbitrate any claim or dispute not described as a part of the original arbitration unless otherwise agreed to by the parties.

E. ***Right of Joinder.*** In the event the City is named as a party to any arbitration, or the City commences an arbitration against a party other than the Consultant, which arbitration is related to, or connected with, the construction of the Project or the performance of the Consultant's services hereunder (such as, without limitation, any arbitration between the City and the Contractor awarded the contract to construct the Project), the Consultant agrees and irrevocably consents to be joined as a party in the arbitration proceeding and to be bound by any decision resulting therefrom. G. ***Award Final.*** The award rendered by the arbitrator shall be final, and judgment may be entered upon its accordance with applicable law in any court having jurisdiction thereof.

H. ***Mediation.*** Subsequent to the commencement of any arbitration pursuant to Section 10.20C, and prior to any decision arising therefrom, the parties may endeavor with written mutual consent to settle disputes by mediation in accordance with the mediation rules of the mediation service agreed by the parties. The cost of the mediation shall be shared equally by the parties.

10.21 ***Attorney Fees.*** The prevailing party in any litigation or arbitration brought to enforce the provisions of this Agreement shall be entitled to reasonable attorney fees and court costs.

100.6.9 The Consultant acknowledges the City's requirement to incorporate the City's "Instructions to Bidders", "General Conditions" and "Division One", incorporated herein by reference, into the Contract Documents prepared for bidding for the Project covered by this Agreement. The Consultant further agrees to perform in accordance with the obligations stated in these referenced documents and agrees to include this provision in all sub-consultant contracts. The Consultant acknowledges familiarity with the City's standard format, terms and conditions of these documents and that such document examples were made available to the Consultant upon request, prior to signing this Agreement.

100.6.10 The City's approval of any documents or services furnished by the Consultant shall not in any way relieve the Consultant of responsibility for the professional and technical accuracy of its documents or services. The City's review, approval, acceptance or payment for any of the Consultant's services shall not be construed to operate as a waiver of any rights enjoyed by the City under this Agreement or of any cause of action arising out of the performance of this Agreement. The Consultant shall remain liable in accordance with the terms of this Agreement and applicable law for the damages to the City caused by the Consultant's negligent act or omission committed in the performance of this Agreement.

100.6.11 Plan and Special Provision Production and Submission

100.6.11.1 All Drawings shall be prepared using AutoDesk's AutoCAD Release 2004 or newer release in accordance with industry accepted standards. Specifications shall be prepared in City standard format using the software program Microsoft Word 2000 or newer release. The use of any other software for plan or specifications production requires prior written approval from the City's Representative.

100.6.11.2 All drawing submittals, except the final submittal, submitted by the Consultant will be printed on white bond paper. The final construction drawings will be printed on 4 mil, double matte Mylar. All full size reproducible copies will be on 24" x 36" sheets (with 22" x 34" border) and all half size reproducible copies shall be on 11"x17" sheets (representing true half size of the full size plans). **Plans that do not meet these requirements will not be accepted.**

100.6.11.3 Special Provision format will follow the City standard provided to the Consultant. Special Provisions shall be stamped and signed by the appropriate design professional. **Special Provisions that do not meet these requirements will not be accepted.**

100.6.11.4 Within five business days of the hard copy design submittal, for each design submittal, the Consultant will submit electronic files of the AutoCAD files, including drawings and data files, and an Adobe Portable Document Format (PDF) file, 11"x17" print size, for each plan sheet submitted. In addition, the Consultant will submit electronic files of the Special Provisions in Microsoft Word format and one comprehensive Adobe PDF file, with appropriate formatting, of the entire set of Special Provisions. All electronic files shall be submitted on either a CD-ROM or a DVD disk that can be read by any industry standard hardware. **If electronic files are not submitted within five business days of the hard copy design submittal, the City will consider the design submittal incomplete and may reject the submittal in its entirety. If rejected all costs for the resubmittal shall be borne by the Consultant.**

100.6.11.5 Prior to any electronic submittal, the Consultant shall, using commercially available software with current virus definitions, certify that electronic submittals are free of electronic "viruses", "worms", "Trojan horses", and other programs or data stored on the host computer or the electronic submittal. Should the City choose to check incoming electronic submittals for such afflictions, utilizing commercially available software and at the first indication of such an affliction, the entire electronic submittal will be considered unacceptable and will be returned to the Consultant. The Consultant shall remove the unwanted programs or the unwanted programs or data and further verify the integrity of the electronic submittal. The Consultant shall bear the expense of correction, checking and re-submittal and shall not be released from submittal requirements.

100.6.12 Cost Estimates

100.6.12.1 The Consultant shall prepare and provide a detailed Construction Cost Estimate with each submittal. The cost estimate shall be prepared in City standard format using the software program Microsoft Excel 2000 or newer release. The Consultant will provide unit costs, quantities and other estimating parameters for each component or work, reflecting current market conditions and costs. The Consultant will reconcile each successive estimate to the one provided at the preceding submittal. The Consultant shall incorporate appropriate contingencies based on the completed level of design. **If the cost estimate is not included in the design submittal, the City will consider the design submittal incomplete and may reject the submittal in its entirety. If rejected all costs for the resubmittal shall be borne by the Consultant.**

100.6.13 Construction Change Orders

The City has a formal construction contract change order approval process. Proposed change orders are negotiated and reviewed by City Engineering and Construction Management staff (and the construction management consultant when one has been retained). Change orders are then reviewed for approval by the City Change Order Committee. Part of that approval process will be checking a box on the Change Oder Tracking Form indicating the reason for the change order based on information available to the committee at that time. If the change order appears to relate to a consultant design deficiency then either the Reason Code box "E&O Value" or "E&O No Value" will be checked. "E&O" value will be checked if it appears the apparent design deficiency results in added cost to the project but all, or a substantial part, of that cost would have been incurred in the original bid if the deficiency did not exist. "E&O No Value" will be checked if it appears that little or no cost to the project would have occurred if the deficiency did not exist. The City may use this data, as well as any other relevant data, in exercising its rights under this agreement to seek compensation for Consultant errors and omissions.

The City will make reasonable efforts to copy all approved change orders (with the tracking form included) and construction change directives to the consultant In order to provide the consultant an opportunity to prevent similar instances from occurring on future projects, to allow the consultant to review the potential for similar instances to occur during the progress of this project (and to work with City and Contractor to minimize the potential for future financial impacts when possible regardless of the reason code box checked) and to give advance notice to Consultant to prepare for potential financial impacts to the Consultant and/or for the Consultant to provide documentation to the City as whether the appropriate reason code box has been checked.

There may, at times, be a benefit for the consultant to review change orders or construction change directives prior to final negotiation and approval. This could provide the consultant with an opportunity, prior to finalization, to determine that a proposed change order or construction change directive may be excessively priced, not a legitimate change in the scope of the Contractor's work, outside of the Consultant's scope of work, detrimental to the Consultant's design, uncoordinated with the Construction Documents, potentially harmful to public safety, or a violation of codes, laws and regulations. Therefore the City will make reasonable efforts to notify the consultant of possible change orders or construction change directives prior to final negotiation and approval. And to, when appropriate, request the consultant to sign acknowledgement and concurrence on the final change order or construction change directive or to make formal revisions to the plans and/or specifications. However, given time constraints and the need to limit Contractor delay claims (that can often quickly exceed the cost of the change order), advance notice to the consultant is not always possible or practical. And, in fact, potential change order work, including force account work, is sometimes allowed to proceed prior to any change order being drafted or reason code applied by City.

100.6.14 The Consultant shall be responsible for performing all work necessary to complete the following schedule of work, more fully described in the following sections:

Upon written agreement with both parties an intermediate design submittal may be changed in definition of percentage complete without change to the basic service fee amounts (for example changing the 70% submittal to a 50% submittal). The written agreement would detail any resulting change in billing schedule. Should an additional submittal be requested by the City (for example adding a 50% submittal in addition to a 30% and a 90% submittal) this work would be paid for in accordance with Section 3.01, 3.02 and 7.02 of this Agreement.

If the City elects the second option, the Consultant, at Consultant's own expense, shall furnish additional sets of all documents that are sufficient, adequate and complete in the discretion of the City Representative for review by the City. The Consultant, at Consultant's own expense, shall attend any meeting, whether formal or informal, including the City Council meeting when requested by City to explain the reason the Consultant presented inadequate, insufficient, or incomplete documents to the City, and the delay, if any, that such submittal and re-submittal may cause in completion of the Project.

100.7.2.3 The City's review period in the Project Schedule shall not begin until the City Representative determines that the documents presented by Consultant fully comply with the requirements. After the City Representative determines that the documents comply with such requirements, the City shall begin a review of the documents.

100.7.2.4 After the City reviews the documents, one or several set(s) of the documents shall be returned to the Consultant with comments and corrections noted thereon. The Consultant shall make the changes necessitated by the corrections or other comments into the documents, and return the correction set(s) with the corrected documents, together with written responses to the City's correction(s), comments(s), and change(s), which state the action taken and reason for such action for each item presented by the City.

1.01 ***Description of Consultant's Services.*** For the compensation set forth in Section Seven, the Consultant hereby agrees to perform the basic services set forth in the Scope of Services, **Exhibit "A"** attached hereto and incorporated herein as a part of this Agreement and, if so requested, the additional services set forth in the Additional Compensation, **Exhibit "E"** attached hereto and incorporated herein as a part of this Agreement and to provide the submittals described in the Required Submittals **Exhibit "B,"** attached hereto.

1.04 ***Waiver.*** The City's approval of any documents or services furnished by the Consultant shall not in any way relieve the Consultant of responsibility for the professional and technical accuracy of its documents or services. The City's review, approval, acceptance or payment for any of the Consultant's services shall not be construed to operate as a waiver of any rights enjoyed by the City under this Agreement or of any cause of action arising out of the performance of this Agreement. The Consultant shall remain liable for any damages to the City caused by the Consultant's negligent act or omission committed in the performance of this Agreement.

1.05 ***Designation of Consultant's Representative.*** The Consultant's representative is the individual identified in the Key Personnel List, **Exhibit "F"** attached hereto (the "Consultant Representative") to act in that capacity, who shall be responsible for the services required under this Agreement. The decision of the Director of Public Works shall be final and conclusive unless, within thirty (30) days after the date on which the Consultant receives its copy of such decision, the Consultant mails or otherwise furnishes to the Director of Public Works a written request to arbitrate the claim or dispute, in which event the parties shall proceed with the arbitration pursuant to provisions of Section 10.20B. The failure to make such request shall preclude the Consultant from proceeding any further on the claim or dispute, and the Consultant shall have no further recourse against the City.

C. ***Resolution by Arbitration.*** Upon receipt of the request to arbitrate authorized pursuant Section 10.03B or Section 10.20B, the City and the Consultant shall come to an agreement as to the appointment of an arbitrator for purposes of hearing the appeal. If the parties cannot reach an agreement, then each party shall select an arbitrator for purposes of the appeal, and the two shall select a third arbitrator within 20 days of their appointment. If the selected arbitrators are unable to agree upon the third arbitrator, the third arbitrator shall be selected by the American Arbitration Association or the Nevada Arbitration Association, whichever is designated by the City. Each party shall be afforded an opportunity to be heard and to offer evidence in support of or against the appeal. The decision of the arbitrator, or arbitrators, as the case may be for the determination of the appeal, shall be final, conclusive and enforceable under the laws of the State of Nevada.

D. ***Right of Consolidation.*** Any arbitration arising out of or relating to this Agreement may include, by consolidation, joinder or in any other manner, any additional party or parties who are not a party to this Agreement if so requested by the City or the Consultant. Any consent to arbitration involving an additional party or parties shall not constitute consent to arbitrate any claim or dispute not described as a part of the original arbitration unless otherwise agreed to by the parties.

E. ***Right of Joinder.*** In the event the City is named as a party to any arbitration, or the City commences an arbitration against a party other than the Consultant, which arbitration is related to, or connected with, the construction of the Project or the performance of the Consultant's services hereunder (such as, without limitation, any arbitration between the City and the Contractor awarded the contract to construct the Project), the Consultant agrees and irrevocably consents to be joined as a party in the arbitration proceeding and to be bound by any decision resulting therefrom. The decision of the arbitrator or arbitrators, as the case may be, in the arbitration to which the Consultant has been joined as a party, shall be binding and enforceable against the parties thereto under the laws of the State of Nevada.

If the Consultant is named as an additional party by the City, the Consultant shall not be entitled to any additional compensation from the City as a result of preparing for, and participating in, the arbitration.

F. ***Discovery.*** In the event of arbitration, the parties agree that all means of discovery including, but not limited to, depositions and interrogatories, will be afforded to the parties involved in the arbitration, and the appointed arbitrator shall have all authority to impose sanctions against either party for failing to comply with the rules of discovery provided under the Nevada Rules of Civil Procedure.

G. ***Award Final.*** The award rendered by the arbitrator shall be final, and judgment may be entered upon its accordance with applicable law in any court having jurisdiction thereof.

H. ***Mediation.*** Subsequent to the commencement of any arbitration pursuant to Section 10.20C, and prior to any decision arising therefrom, the parties may endeavor with written mutual consent to settle disputes by mediation in accordance with the mediation rules of the mediation service agreed by the parties. The cost of the mediation shall be shared equally by the parties.

10.21 ***Attorney Fees.*** The prevailing party in any litigation or arbitration brought to enforce the provisions of this Agreement shall be entitled to reasonable attorney fees and court costs.

10.22 ***Calendar Day.*** All references in this Agreement to days are to calendar days unless otherwise indicated.

10.23 ***Exhibits.*** All exhibits referenced in this Agreement are hereby incorporated by this reference as a part of this Agreement. Any conflict between the provisions of this Agreement and the Exhibits incorporated herein shall be governed by the provisions of this Agreement.

10.24 ***Counterparts; Electronic Delivery.*** This Agreement may be executed in counterparts, all such counterparts will constitute the same contract and the signature of any party to any counterpart will be deemed a signature to, and may be appended to, any other counterpart. Executed copies hereof may be delivered by facsimile or e-mail and upon receipt will be deemed originals and binding upon the parties hereto, regardless of whether originals are delivered thereafter.

10.25 ***Agreement Version.*** This document incorporates the standard provisions for the City's Professional Services Agreement updated as of April 8, 2008.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed the day and year first above written.

ARTICLE 100: GENERAL INFORMATION

100.1 Project Overview

100.1.1 Project Overview Description

Design for the trenchless rehabilitation of approximately 6,950 feet of interceptor pipe consisting of 2,500 feet of 42-inch diameter sewer, 1,200 feet of 45-inch diameter sewer, 850 feet of 48-inch diameter sewer, 1,600 feet of 51-inch diameter sewer, and 800 feet of 54-inch diameter unlined reinforced concrete sewer in Oakey Boulevard/St. Louis Avenue from Westwood Drive to Fremont Drive, Fremont Drive to East Glen Avenue, East Glen Avenue to Dalhart Avenue. Past assessment televising of aging sewer and manholes has revealed structural defects which indicate potential for failure. This Project also includes development of a practicable scheme for diversion and/or temporary bypass pumping of sewage during construction, flow monitoring, and condition assessment of new CCTV inspection data provided by the City. Condition Assessment will validate rehabilitation quantities. Primary trenchless technology method will be Cured-in-Place Pipe (CIPP). Additionally, this work includes the rehabilitation of approximately 19 sewer manholes.

100.2 Construction Cost Budget

100.2.1 Construction Cost Budget: **$0.00**

100.3 Project Contact Information

100.3.1 The City Engineer or their authorized representative is hereby designated as the City's Representative with respect to this Agreement. The City's Representative shall have complete authority to transmit instructions, receive information, interpret and define the City's policies and decisions with respect to the services of the Consultant. All inquiries concerning the project should be directed to the City Engineer or his authorized representative and the Consultant should not contact internal units of the City unless directed to do so. This policy is effective throughout the life of the project.

100.3.2 The Consultant's Representative is hereby designated as the Consultant's Project Manager listed in Exhibit "F", who shall be responsible for the services required under this Agreement. All of the services specified by this Agreement shall be performed by the Consultant's Representative, or by the associates and employees identified in the Consultant's proposal provided that such associates and employees perform under the personal supervision of the Consultant's Representative. All employees identified in the Consultant's cost proposal shall be subject to approval by the City's Representative. Should the Consultant's Representative, or any associate or employee, be unable to complete his or her responsibility for any reason, the Consultant will replace the employee with a qualified person approved by the City. If the Consultant fails to make a required replacement within thirty (30) days, the City may terminate this Agreement for default.

100.4 Plan Control and Standards

100.5 Changes to Scope of Services

100.5.1 If increased scope or workload is encountered, the Consultant is to notify the City in writing and receive written confirmation to proceed prior to the performance of any work related to the increased scope or workload.

100.5.2 The City Engineer or their authorized representative may at any time, only be written order, make changes which may result in an increase or decrease in the services to be performed by the Consultant. If the changes requested by the City cause an increase or decrease in the cost or time required to perform any of the services required hereunder, an equitable adjustment shall be made in the compensation to be paid to the Consultant under Section Seven, or in the time of performance under Section Eight, or both, and this Agreement shall be modified in writing accordingly. Any claim for adjustment under this Section must be asserted in writing within thirty days from the date of receipt by the Consultant of written notification of the changes to the services to be provided by the Consultant unless the City grants in writing a further period of time. Failure to assert such claim within the time limit provided herein shall constitute a waiver of any right to seek any equitable adjustment in compensation with respect to that change.

100.6 Responsibilities of the Consultant

100.6.1 The Consultant shall provide a set of Plans and Special Provisions, for the project described in Section 100.1.1, that are whole and complete, technically accurate, biddable and constructable, meeting the City's reasonable needs and expectations. All design, re-design, coordination, permitting, quality control review, meeting attendance, bid phase assistance, travel, reproduction, computer use or similar items that could reasonably be anticipated which are not limited or excluded elsewhere in this contract or listed specially in additional services, shall be provided by the Consultant for the basic services fee agreed to herein whether they are specifically listed in this scope of services or not.

100.6.2 The Consultant agrees to include in all its subcontracts related to the Project, and require the same of all subconsultant contracts at all tiers, the provisions of this Agreement related to the City's and Consultant's rights (including copyright), ownership and uses of the concepts, designs, documents, intellectual property, and tangible property.

100.6.3 Where the Consultant specifies materials and equipment by brand names, provide three or more brand names with model numbers for each item specified. Where less than two suitable brand names/model numbers are commercially available state "or approved equal" and provide required documentation per NRS requirements to support single source selection.

100.6.4 Prior to each design submittal, check all documents for technical accuracy, compliance with applicable codes and ordinances, complete incorporation of all design review comments, and coordination within and between design disciplines. Each submittal shall be in accordance with the appropriate submittal requirements listed herein. Incomplete submittals shall be rejected. All costs associated with the re-submittal shall be borne by the Consultant.

100.6.5 The Consultant shall without additional compensation correct or revise any error or deficiencies in the plans, drawings, specifications or other related documents prepared by the Consultant.

100.6.6 The Consultant shall be responsible for all coordination with its subconsultants. Each submittal to the City shall be organized by discipline and shall be thoroughly crosschecked to avoid conflicts between Consultant and subconsultant documents. Vague references to project requirements on other discipline's plans shall not be permitted. Where references to others' plans are necessary for direction, reference notes shall specifically state the drawing number or specification section, as appropriate. It shall be the Consultant's responsibility to advise each subconsultant of this requirement.

100.6.7 The professional services to be rendered by the Consultant under this Agreement shall be in conformance with applicable federal, state and local statutes, acts, rules, codes, ordinances, laws and regulations. These include but are not limited to the Americans with Disabilities Act (ADA) guidelines and requirements including conformance to any ADA provisions and guidelines that have been issued in "final form" regardless of their adoption by the Department of Justice, municipal ordinances, and any other applicable Federal, state and local acts, rules, laws or regulations.

100.6.8 All work, including but not limited to drawings, specifications, and calculations, shall be provided by the Consultant for each and every part of the Project. When complying with NRS 338.140 by listing multiple manufacturers in the specifications, the Consultant shall review options with the City and select the most available, standard, or economical manufacturer's model to fully engineer and include in the bid documents. Should the contractor propose one of the other manufacturers listed in the specifications after award, the cost of the other listed manufacturer's affect on the documents and the construction shall be borne by the contractor, except that the Consultant shall have the duty to cooperate with the contractor in reviewing the proposal for design compliance (including the contractor provided structural calculations) and providing revisions to the Consultant's documents as required to accommodate the proposed change. Such revisions to the Consultant's documents may be an Additional Service, which shall be approved in writing by the City prior to the Consultant making any revisions and charged to the contractor by change order.

100.6.9 The Consultant acknowledges the City's requirement to incorporate the City's "Instructions to Bidders", "General Conditions" and "Division One", incorporated herein by reference, into the Contract Documents prepared for bidding for the Project covered by this Agreement. The Consultant further agrees to perform in accordance with the obligations stated in these referenced documents and agrees to include this provision in all sub-consultant contracts. The Consultant acknowledges familiarity with the City's standard format, terms and conditions of these documents and that such document examples were made available to the Consultant upon request, prior to signing this Agreement.

100.6.10 The City's approval of any documents or services furnished by the Consultant shall not in any way relieve the Consultant of responsibility for the professional and technical accuracy of its documents or services. The City's review, approval, acceptance or payment for any of the Consultant's services shall not be construed to operate as a waiver of any rights enjoyed by the City under this Agreement or of any cause of action arising out of the performance of this Agreement. The Consultant shall remain liable in accordance with the terms of this Agreement and applicable law for the damages to the City caused by the Consultant's negligent act or omission committed in the performance of this Agreement.

100.6.11 Plan and Special Provision Production and Submission

100.6.11.1 All Drawings shall be prepared using AutoDesk's AutoCAD Release 2004 or newer release in accordance with industry accepted standards. Specifications shall be prepared in City standard format using the software program Microsoft Word 2000 or newer release. The use of any other software for plan or specifications production requires prior written approval from the City's Representative.

100.6.11.2 All drawing submittals, except the final submittal, submitted by the Consultant will be printed on white bond paper. The final construction drawings will be printed on 4 mil, double matte mylar. All full size reproducible copies will be on 24" x 36" sheets (with 22" x 34" border) and all half size reproducible copies shall be on 11"x17" sheets (representing true half size of the full size plans). **Plans that do not meet these requirements will not be accepted.**

100.6.11.3 Special Provision format will follow the City standard provided to the Consultant. Special Provisions shall be stamped and signed by the appropriate design professional. **Special Provisions that do not meet these requirements will not be accepted.**

100.6.11.4 Within five business days of the hard copy design submittal, for each design submittal, the Consultant will submit electronic files of the AutoCAD files, including drawings and data files, and an Adobe Portable Document Format (PDF) file, 11"x17" print size, for each plan sheet submitted. In addition, the Consultant will submit electronic files of the Special Provisions in Microsoft Word format and one comprehensive Adobe PDF file, with appropriate formatting, of the entire set of Special Provisions. All electronic files shall be submitted on either a CD-ROM or a DVD disk that can be read by any industry standard hardware. **If electronic files are not submitted within five business days of the hard copy design submittal, the City will consider the design submittal incomplete and may reject the submittal in its entirety. If rejected all costs for the resubmittal shall be borne by the Consultant.**

100.6.11.5 Prior to any electronic submittal, the Consultant shall, using commercially available software with current virus definitions, certify that electronic submittals are free of electronic "viruses", "worms", "Trojan horses", and other programs or data stored on the host computer or the electronic submittal. Should the City choose to check incoming electronic submittals for such afflictions, utilizing commercially available software and at the first indication of such an affliction, the entire electronic submittal will be considered unacceptable and will be returned to the Consultant. The Consultant shall remove the unwanted programs or the unwanted programs or data and further verify the integrity of the electronic submittal. The Consultant shall bear the expense of correction, checking and re-submittal and shall not be released from submittal requirements.

100.6.12 Cost Estimates

100.6.12.1 The Consultant shall prepare and provide a detailed Construction Cost Estimate with each submittal. The cost estimate shall be prepared in City standard format using the software program Microsoft Excel 2000 or newer release. The Consultant will provide unit costs, quantities and other estimating parameters for each component or work, reflecting current market conditions and costs. The Consultant will reconcile each successive estimate to the one provided at the preceding submittal. The Consultant shall incorporate appropriate contingencies based on the completed level of design. **If the cost estimate is not included in the design submittal, the City will consider the design submittal incomplete and may reject the submittal in its entirety. If rejected all costs for the resubmittal shall be borne by the Consultant.**

100.6.13 Construction Change Orders

The City has a formal construction contract change order approval process. Proposed change orders are negotiated and reviewed by City Engineering and Construction Management staff (and the construction management consultant when one has been retained). Change orders are then reviewed for approval by the City Change Order Committee. Part of that approval process will be checking a box on the Change Oder Tracking Form indicating the reason for the change order based on information available to the committee at that time. If the change order appears to relate to a consultant design deficiency then either the Reason Code box "E&O Value" or "E&O No Value" will be checked. "E&O" value will be checked if it appears the apparent design deficiency results in added cost to the project but all, or a substantial part, of that cost would have been incurred in the original bid if the deficiency did not exist. "E&O No Value" will be checked if it appears that little or no cost to the project would have occurred if the deficiency did not exist. The City may use this data, as well as any other relevant data, in exercising its rights under this agreement to seek compensation for Consultant errors and omissions.

The City will make reasonable efforts to copy all approved change orders (with the tracking form included) and construction change directives to the consultant In order to provide the consultant an opportunity to prevent similar instances from occurring on future projects, to allow the consultant to review the potential for similar instances to occur during the progress of this project (and to work with City and Contractor to minimize the potential for future financial impacts when possible regardless of the reason code box checked) and to give advance notice to Consultant to prepare for potential financial impacts to the Consultant and/or for the Consultant to provide documentation to the City as whether the appropriate reason code box has been checked.

There may, at times, be a benefit for the consultant to review change orders or construction change directives prior to final negotiation and approval. This could provide the consultant with an opportunity, prior to finalization, to determine that a proposed change order or construction change directive may be excessively priced, not a legitimate change in the scope of the Contractor's work, outside of the Consultant's scope of work, detrimental to the Consultant's design, uncoordinated with the Construction Documents, potentially harmful to public safety, or a violation of codes, laws and regulations. Therefore the City will make reasonable efforts to notify the consultant of possible change orders or construction change directives prior to final negotiation and approval. And to, when appropriate, request the consultant to sign acknowledgement and concurrence on the final change order or construction change directive or to make formal revisions to the plans and/or specifications. However, given time constraints and the need to limit Contractor delay claims (that can often quickly exceed the cost of the change order), advance notice to the consultant is not always possible or practical. And, in fact, potential change order work, including force account work, is sometimes allowed to proceed prior to any change order being drafted or reason code applied by City.

100.6.14 The Consultant shall be responsible for performing all work necessary to complete the following schedule of work, more fully described in the following sections:

Upon written agreement with both parties an intermediate design submittal may be changed in definition of percentage complete without change to the basic service fee amounts (for example changing the 70% submittal to a 50% submittal). The written agreement would detail any resulting change in billing schedule. Should an additional submittal be requested by the City (for example adding a 50% submittal in addition to a 30% and a 90% submittal) this work would be paid for in accordance with Section 3.01, 3.02 and 7.02 of this Agreement.

100.7 Responsibilities of the City

100.7.1 The City shall be responsible for the following:

100.7.1.1 Shall furnish a copy to, or make available for examination or use by, without a fee, the Consultant, any documents and data which the City has available including, reports, maps, plans, specifications, surveys, records, ordinances, codes, regulations, other documents related to the services required under this Agreement. The City shall assist the Consultant in obtaining data and documents from public agencies and from private citizens and business firms whenever the City determines that such material is necessary for the completion of the services required by this Agreement.

100.7.1.2 Access arrangements for the Consultant to enter upon City owned property as required to perform their services.

100.7.1.3 Acquire any property, authorizations to enter property, easements, or other project rights required to construct the Project

100.7.1.4 Provide and conduct bidding activities, including printing and distribution of bid and construction documents, except as specifically required to be provided by the Consultant in this Scope of Work

100.7.2 The City's Review Process

100.7.2.1 Upon receipt of any documents furnished by the Consultant, the City Representative shall conduct a preliminary review of such documents and determine whether the documents comply with the scope of the Project. After the preliminary review, if the City Representative determines that the documents are insufficient, inadequate, or incomplete, the City shall notify the Consultant and request documents which are professionally complete and appropriate for each service phase submitted. The decision by the City Representative in this matter shall be final.

100.7.2.2 If the City Representative determines, after requesting the Consultant to provide corrected and professionally complete Phase submittals, that the documents remain insufficient, inadequate, or incomplete, the City may: (i) declare the Consultant in default, or (ii) demand a letter of explanation from the Consultant as to the reason the furnished documents are insufficient, inadequate or incomplete. If the City elects the second option, the Consultant, at Consultant's own expense, shall furnish additional sets of all documents that are sufficient, adequate and complete in the discretion of the City Representative for review by the City. The Consultant, at Consultant's own expense, shall attend any meeting, whether formal or informal, including the City Council meeting when requested by City to explain the reason the Consultant presented inadequate, insufficient, or incomplete documents to the City, and the delay, if any, that such submittal and re-submittal may cause in completion of the Project.

100.7.2.3 The City's review period in the Project Schedule shall not begin until the City Representative determines that the documents presented by Consultant fully comply with the requirements. After the City Representative determines that the documents comply with such requirements, the City shall begin a review of the documents.

100.7.2.4 After the City reviews the documents, one or several set(s) of the documents shall be returned to the Consultant with comments and corrections noted thereon. The Consultant shall make the changes necessitated by the corrections or other comments into the documents, and return the correction set(s) with the corrected documents, together with written responses to the City's correction(s), comments(s), and change(s), which state the action taken and reason for such action for each item presented by the City.

ARTICLE 101: PRELIMINARY AND GENERAL ITEMS

101.1 Project Management

101.1.1 Project management will include work necessary for communication and completion of the project tasks on time and within budget. The Consultant's staff will have the training and expertise necessary for the work tasks to which they are assigned.

101.1.2 The Consultant will provide invoices in the standard format provided by the City's Representative. Invoices will be accompanied by a cover letter explaining the general status of the project, including at a minimum the work completed to date, the anticipated remaining efforts and required schedule changes; progress report form; supporting data for direct expenses (when specified expenses are allowed per Exhibit D, herein); and an updated project status report reflecting Scope of Work activities identified by the City Representative.

101.1.3 On a weekly basis, or a time frame approved by the City's Representative, the Consultant's Project Manager will update the City Representative with regards to the status of the project schedule, budget and general status/progress. Within three business days following the kick-off meeting, the Consultant will prepare and distribute draft meeting minutes to the City's Representative (an e-mail to the City's Project Manager of the draft minutes is acceptable). The Consultant shall prepare and distribute final meeting minutes after the draft meeting minutes are approved by the City's Representative to all attendees.

101.2.2 Deliverables: Project Kick-Off Meeting Agenda and copies for distribution at Kick-Off Meeting; Project Kick-Off Meeting Minutes.

101.2.3 Consultant shall attend approximately ten progress/coordination meetings to be held with the City, other relevant agencies and utility companies. Design Progress meetings shall be conducted on a bi-weekly basis, or a time frame approved by the City's Representative, at the City's offices and will be attended by the Consultant's Project Manager, Project Engineer and other key personnel as determined to be necessary. Consultant shall prepare an agenda for each of the progress meetings. Within three business days following the progress/coordination meeting, Consultant shall prepare and distribute draft meeting minutes to the City's Representative (an email to the City's Project Manager of the draft minutes is acceptable). The Consultant shall prepare and distribute final meeting minutes after the draft meeting minutes are approved by the City's Representative to all attendees.

The City's representative acts in a capacity similar to that of a representative working for a private property owner which is to ensure that the City receives a quality product, delivered on schedule, for a fair price. Furthermore, the City Engineer's Office does not speak or act for any regulatory authority, nor does any regulatory authority speak or act for the City Engineer's Office. The Consultant agrees that its relationship with the regulatory authorities having jurisdiction over the Project is separate from its relationship with the City, and that the Consultant's interaction with each regulatory authority is to be conducted without assistance from the City.

EXHIBIT A
SCOPE OF SERVICES

BACKGROUND

Orth Rodgers & Associates entered into an agreement with the City of Las Vegas (City) on October 4, 2006, to provide engineering design services, preparation of Contract Drawings, Special Provisions and Cost Estimates for the Traffic Package 6 Intersection Improvements. A detailed scope of services for the Project is included in the Engineering Design Services Agreement.

This Scope of Additional Services outlines additional design work that is necessary to successfully complete the project.

TASK 910 BASIC SERVICES

Task 910 –Engineering Services

910.1: Additional Design Services

Orth-Rodgers & Associates, Inc. ("Consultant") is requesting authorization of additional services during this phase of the project. The design changes are a result of federal funding requirements and the Uniform Relocation Act right of way timeline associated with these. Due to the right-of-way timeline additional takes have to be eliminated from this design package. This will result in the elimination of right turn lanes and bus turnouts that require additional right-of-way (R/W). The additional services are as follows:

1. Updating current 90% level TP6B plans to accommodate changes noted above. This task will include removal and/or modification of all design elements that require R/W takes, including, but not limited to, right turn lanes and bus turnouts that were previously part of the design. Structural detail sheets will be modified for the proposed design changes since some walls are being eliminated and some remain. Traffic signal plans will be redesigned, interconnect and striping designs will be updated.
2. Modifications to the current design in Consultant's ACAD base file will be required to the design changes noted above.
3. Changes will include removal and replacement of design construction and removal notes on the roadway, striping and utility designs within the project.
4. Project special provisions and estimate of construction cost will require a full review for changes in specifications used and pay items required and deleted.
5. Cross-references from current plans to the proposed plans will be checked for consistency. The plan, specification and estimate (P, S & E) package will undergo Consultant's quality control review for each submittal that follows.
6. Utility coordination will be repeated with all agencies due to the addition of this intersection in this plan set.
7. Consultant will relocate existing luminaires within the project limits that do not meet current ADAAG guidelines. This estimate will provide for five (5) luminaire relocations.
8. Consultant will redesign existing driveways within unimproved areas of the project limits adjacent to mill/overlay improvements that do not meet ADA (ADAAG) guidelines.
9. It is estimated that there will be twelve (12) additional design and utility coordination meetings due to the design modifications noted. One (1) additional meeting with FAST will be required.
10. One additional submittal will be required for the client and public agencies to review a new TP6B package. Additional direct costs will be required for printing.

910.2: Additional Potholing Services

Orth-Rodgers & Associates, Inc. is requesting authorization of additional services to perform potholing of existing utilities within the project site. Utility potholing is necessary to determine the horizontal and vertical location of subsurface utilities that may be in conflict with the Project improvements. The Engineering Design Services Agreement includes utility potholing services within additional services. These additional services are as follows:

1. The project scope will consist of performing up to five (5) potholes at each intersection including Charleston/Durango and Charleston/Rancho for a total of 10 potholes. The number of potholes is provided prior to actual design modifications so it is an estimate only at this time. Following subsurface location, this pothole area will be surveyed for horizontal location and shown on the plans.
2. Services for Consultant's potholing and survey sub-consultants and services for Consultant to manage and process the utility data once it is processed and received.

910.3: Additional Surveying Services

Orth-Rodgers & Associates, Inc. is requesting authorization of additional services to perform survey at the southeast corner of the intersection at Charleston Blvd. and Rancho Blvd. This corner was developed into a Chevron gas station. R/W changes have occurred as well as the general topography at this quadrant. These additional services are as follows:

1. The project scope will consist of Consultant's surveyor field surveying the southeast corner of Charleston Blvd. and Rancho Blvd. and providing ACAD files to Consultant. Survey will include establishing R/W on this leg as well. Consultant will establish existing easements utilizing title reports provided by the City.
2. Services for Consultant's survey sub-consultant and services for OR Consultant A to manage and process the survey data once it is processed and received are included here as well.

910.4: Utility Certification

This task represents the additional effort Consultant will provide assisting the City in the utility certification process. Review of all utility conflicts and adjustments will be summarized in spreadsheet format for the City to be included in the certification letter. Additional coordination with the City via email, submittals and two (2) estimated meetings are included in this task as well.

910.5: Bid Support

During the bid process, Consultant will assist the City with the preparation of contract addenda. Addenda items requested by the City due to design changes at no fault of Consultant will be covered under this task. Consultant will provide addenda at no cost to the City if it is the result of "errors", "omissions" or the plans or specifications requiring clarifications.

910.6: Construction Support

Consultant will attend one pre-construction and one pre-bid conference meeting at the direction of the City. At City direction, Consultant will make up to 4 visits to the construction site to observe progress of the work, and consult with the City and the Contractor concerning any problems or design related issues. Consultant shall provide review of shop drawings on a time and material basis at the discretion of the City Review drawings and other data submitted by the Contractor and as required by the City. Consultant's review shall be for general conformity to the construction documents and shall not relieve the Contractor of any of his contractual responsibilities. Such reviews shall not extent to means,

methods, techniques, sequences, or procedures of construction, or to safety precautions and programs. At City direction, Consultant shall answer bidder's questions that may arise during the bid plan review.

910.7: As-Builts/Redlines

The City shall provide Consultant with a marked up set of plans indicating as-built locations. Consultant will update CAD drawing files and specifications to reflect the as-built condition

TASK 920 ADDITIONAL SERVICES

Task 920 –Additional Services

920.1: Additional Engineering Design

At City direction, Consultant will provide additional design services that exceed the basic scope items noted above and within the original contract. CAD and design time to incorporate additional design is also included in this task.

(i) Deliver the Goods or perform services within the time specified in this Agreement or any extension;

During the period of such resolution, the Company shall continue with its performance under the Contract.

E-4 Insurance

The Company shall procure and maintain Workers' Compensation and General Liability Insurance, and Commercial Automobile Liability Insurance at its own expense, for all work related to the performance of this Agreement.

Any money due and owing the Company under this Agreement may be retained by the City for its protection. In the event no money is due and owing, the surety, if required, of the Company, may be held until all of the Liabilities have been settled and suitable evidence to that effect furnished to the City.

(b) It is expressly agreed that the Company shall defend the City against the Liabilities and in the event that the Company fails to do so, the City shall have the right, but not the obligation, to defend the same and to charge all direct and incidental costs, including attorney's fees and court costs, to the Company.

The Company shall, at its sole expense, promptly defend against any such claim or action unless directed otherwise by the City or its representative; provided that the City or its representatives shall have notified the Company upon becoming aware of such claims or actions, and provided further that the Company aforementioned obligations shall not apply to equipment, materials, or processes furnished or specified by the City or its representatives.

E-8 Assignment of Contractual Rights

The Company shall not assign, transfer, convey or otherwise dispose of the Agreement or its right, title or interest in or to the same, or any part thereof, without the prior written consent of the City and any sureties.

E-9 Severability

The invalidity, illegality, or unenforceability of any provision of this Agreement or the occurrence of any event rendering any portion or provision of this Agreement void shall in no way affect the validity or enforceability of any other portion or provision of this Agreement. Any void provision shall be deemed severed from this Agreement, and the balance of this Agreement shall be construed and enforced as if this Agreement did not contain the particular portion of provision held to be void. The parties further agree to amend this Agreement to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this clause shall not prevent this entire Agreement from being void should a provision, which is of the essence of this Agreement, be determined void.

E-10 Audit of Records

(a) The Company agrees to maintain the financial books and records (including supporting documentation) pertaining to the performance of this Contract according to standard accounting principles and procedures. The books and records shall be maintained for a period of three (3) years after completion of this Contract, except that books and records which are the subject of an audit finding shall be retained for three (3) years after such finding has been resolved. (b) The City, or its designated representative(s), shall have the right to inspect and audit (including the right to copy and/or transcribe) the books and records of the Company pertaining to the performance of this Contract during normal business hours. The City will provide prior written notice to the Company of the audit and inspection. If the books and records are not located within Clark County, the Company agrees to deliver them to the City, or to the address, designated by the City, within Clark County. In lieu of such delivery, the Company may elect to reimburse the City for the cost of travel (including transportation, lodging, meals and other related expenses) to inspect and audit the books and records at the Company's office. If the books and records provided to the City are incomplete, the Company agrees to remedy the deficiency after written notice thereof from the City, and to reimburse the City for any additional costs associated therewith including, without limitation, having to revisit the Company's office. The Company's failure to remedy the deficiency shall constitute a material breach of this Agreement. The City shall be entitled to its costs and reasonable attorney fees in enforcing the provisions of this Paragraph..

(c) If, at any time during the term of this Contract, or at any time after the expiration or termination of the Contract, the City or the City's designated representative(s) finds the dollar liability is less than payments made by the City to the Company, the Company agrees that the difference shall be either: (a) repaid immediately by the Company to the City or (b) at the City's option, credited against any future billings due the Company.

E-11 Independent Contractor

The Company represents that it is fully experienced and properly qualified to deliver the Goods provided for herein, and that it is properly licensed, equipped, organized, and financed to perform such work. The Company shall act as an Independent Contractor and not as the agent of the City in performing the Agreement. The Company shall maintain complete control over its employees and all of its manufacturers, suppliers, and subcontractors. Nothing contained in this Agreement shall create any contractual relationship between any such manufacturer, supplier or subcontractor and City. Company shall perform all work in accordance with its own methods subject to compliance with the Agreement.

E-12 Use By Other Government Entities

The State of Nevada and/or any political subdivisions within the State of Nevada may be granted the privilege of joining this Agreement at the option of the Company only. In the event the Company allows another governmental entity to join this Agreement, it is expressly understood that the City shall in no way be liable for the obligations of the joining governmental entity.

E-13 Waiver

Waiver of any of the terms of this Agreement shall not be valid unless it is in writing signed by each party. The failure of the City to enforce any of the provisions of this Agreement, or to require performance of any of the provisions herein, shall not in any way be construed as a waiver of such provisions or to affect the validity of any part of this Agreement, or to affect the right of the City to thereafter enforce each and every provision of this Agreement. Waiver of any breach of this Agreement shall not be held to be a waiver of any other or subsequent breach of this Agreement.

E-14 Modification/Amendment

This Agreement shall not be modified or amended except by the express written agreement of the parties, signed by a duly authorized representative for each party. Any other attempt to modify or amend this Agreement shall be null and void, and may not be relied upon by either party.

E-15 Section and Paragraph Headings

The section and paragraph headings appearing in this Agreement are inserted for the purpose of convenience and ready reference. They do not purport to define, limit or extend the scope or intent of the language of the sections and paragraphs to which they pertain.

E-16 Integration

The Company may not publish or sell any information from or about this Agreement without the prior written consent of the City. This restriction does not apply to the use of the City's name in a general list of customers, so long as the list does not represent an express or implied endorsement of the Company or its Goods.

E-18 Limitation of Funding

The City reserves the right to reduce estimated or actual quantities, in whatever amount necessary, without prejudice or liability to the City, if funding is not available or if legal restrictions are placed upon the expenditure of monies for the Goods required under this Agreement.

E-19 Changes – Fixed-Price Goods

(i) Description of Goods to be provided.

(ii) Time of delivery.

(iii) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this Agreement, whether or not changed by the order, the City shall make an equitable adjustment in the Agreement price, the delivery schedule, or both, and shall modify the Agreement.

(c) The Company must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order; however, if the City decides that the facts justify, the City may receive and act upon a proposal submitted before final payment of the Agreement.

(d) If the Company's proposal includes the cost of property made obsolete or excess by the change, the City shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under Paragraph E-1, "Disputes"; however, nothing in this clause shall excuse the Company from proceeding with the Agreement as changed.

(f) The Company shall provide current, complete, and accurate documentation to the City in support of any equitable adjustment. Failure to provide adequate documentation, within a reasonable time after a request from the City, will be deemed a waiver of the Company's right to dispute the equitable adjustment proposed by the City, where such equitable adjustment has a reasonable basis at the time it is determined by the City.

E-20 Counterpart Signatures

This Contract may be executed in counterparts, all such counterparts will constitute the same contract and the signature of any party to any counterpart will be deemed a signature to, and may be appended to, any other counterpart. On the effective date of the termination, the Company shall terminate all work and take all reasonable actions to mitigate expenses. The Company shall submit a written request for incurred costs for services performed through the date of termination, and shall provide any substantiating documentation requested by the City. In the event of such termination, the City agrees to pay the Company within 30 days after receipt of a correct, adequately documented written request. Upon termination, the City shall cease using, and shall upon Company's request, return at Company's expense or destroy, all copies of the applicable Licensed Product(s), except that the City may retain a single copy of the Licensed Product and User Documentation for archival purposes Upon Company's request, City shall purge all copies of the applicable Licensed Product or any portion thereof from all computer systems and from any computer storage medium or device on which the City has placed or permitted others to place the Licensed Product, other than as necessary to retain a single copy of the Licensed Product and user Documentation for archival purposes. Notwithstanding the foregoing, the City shall not be obligated to retrieve any copy of the Licensed Product that resides on any backup media unless the retention period of such media is greater than 60 days and no attempt has been made to recover such copy there from for any purpose.

(g) If the Company terminates the license for any Licensed Product, the City will have a reasonable period from the receipt of Company's notice of termination to migrate from the Licensed Product to the software of another licensor. During this migration period, the City may continue using such Licensed Product and user Documentation subject to the terms and conditions of this Contract as necessary for migration.

require the use of vehicle to perform, Automobile Liability Insurance requirements, as described in (iii) above, do not apply.

(iv) Professional Liability Insurance (only if the contract is for professional services) of limits no less than $1,000,000, combined single limit and in the aggregate. If coverage is on a "claims made" basis, then it must continue for a period of two years beyond the completion or termination of this Contract. Any retroactive coverage must coincide with or predate the beginning of this Contract and may not be changed without the consent of the City.

(b) The Company shall deliver certificate(s) of insurance in ACORD form, and endorsements indicating that such coverage required by this Contract is in effect shall be delivered to the City within three days after the Award Date of this Contract, or before work commences, whichever is earliest. All policy certificates and endorsements are required to be an agent authorized by that insurer and who is licensed by the State of Nevada. (d) All deductibles and self-insurance retentions shall be fully disclosed in the certificate of insurance. No deductible or self-insured retention may exceed $10,000.00 without the prior written approval of the City.

(e) If the Company fails to carry the required insurance, the City may (i) order the Company to stop further performance hereunder, declare the Company in breach, pursuant to Paragraph E-4, terminate the Contract if the breach is not remedied and, if permitted, assess liquidated damages, or (ii) purchase replacement insurance and withhold the costs or premium payments made from the payments due to the Company or charge the replacement insurance costs back to the Company.

(f) Any subcontractor or subconsultant approved by the City shall be required to procure, maintain and submit proof of insurance to the City of the same insurance requirements as specified above, and as required in this paragraph.

(g) The Company is encouraged to purchase any additional insurance as it deems necessary.

(b) If a third party claim against the City for negligent performance by the Company is within the limits of its liability insurance and the insurance company has accepted the City's tender of defense, then the City will pay the Company what is due and owing to them, within the payment method specified in this Contract. However, if the claim is greater than the

coverage amount, the City, for its protection, may retain any money due and owing the Company under this Contract, until the claim has been resolved. In the event no money is due and owing, the surety, if required, of the Company, may be held until all of the Liabilities have been settled and suitable evidence to that effect furnished to the City.

(c) It is expressly agreed that the Company shall defend the City, against the Liabilities and in the event that the Company fails to do so, the City shall have the right, but not the obligation, to defend the same and to charge all direct and incidental costs, including attorney's fees and court costs, to the Company.

(d) In no event will the Company be liable for any consequential, indirect, exemplary, special or incidental damages, including any lost data and lost profits, arising from or relating to this Contract. The Company's total cumulative liability in connection with this Contract and the services provided hereunder, whether in contract or tort or otherwise, will not exceed the amount of fees paid to the Company. The City acknowledges that the fees reflect the allocation of risk set forth in this Contract and that the Company would not enter into the Contract without these limitations on its liability.

Neither party may assign their rights nor delegate their duties under this Contract without the written consent of the other party. Such consent shall not be withheld unreasonably. Any assignment or delegation shall not relieve any party of its obligations under this Contract.

E-8 Waiver [CAO-7/24/08]

Waiver of any of the terms of this Contract shall not be valid unless it is in writing signed by each party. The failure of the City to enforce any of the provisions of this Contract, or to require performance of any of the provisions herein, shall not in any way be construed as a waiver of such provisions or to affect the validity of any part of this Contract, or to affect the right of the City to thereafter enforce each and every provision of this Contract. Waiver of any breach of this Contract shall not be held to be a waiver of any other or subsequent breach of this Contract.

E-9 Taxes/Compliance with Laws [CAO-7/24/08]

If the Company goes out of business, the Company shall forward the books and records to the City to be retained by the City for the period of time required herein.

(b) The City, or its designated representative(s), shall have the right to inspect and audit (including the right to copy and/or transcribe) the books and records of the Company pertaining to the performance of this Contract during normal business hours. The City will provide prior written notice to the Company of the audit and inspection. If the books and records are not located within Clark County, the Company agrees to deliver them to the City, or to the address, designated by the City, within Clark County. In lieu of such delivery, the Company may elect to reimburse the City for the cost of travel (including transportation, lodging, meals and other related expenses) to inspect and audit the books and records at the Company's office. If the books and records provided to the City are incomplete, the Company agrees to remedy the deficiency after written notice thereof from the City, and to reimburse the City for any additional costs associated therewith including, without limitation, having to revisit the Company's office. The

Company's failure to remedy the deficiency shall constitute a material breach of this Agreement. The City shall be entitled to its costs and reasonable attorney fees in enforcing the provisions of this, subject to a cap of $2,500.00.

(c) If, at any time during the term of this Contract, or at any time after the expiration or termination of the Contract, the City or the City's designated representative(s) finds the dollar liability is less than payments made by the City to the Company, the Company agrees that the difference shall be either: (a) repaid immediately by the Company to the City or (b) at the City's option, credited against any future billings due the Company.

E-11 Independent Contractor [CAO-7/24/08]

The City shall hold the Company as the sole responsible party for the performance of this Contract. The Company shall maintain complete control over its employees and all of its subcontractors. Neither party shall have the right to obligate or bind the other party in any manner to any third party.

E-12 Severability [CAO-7/24/08]

The invalidity, illegality, or unenforceability of any provision of this Contract or the occurrence of any event rendering any portion or provision of this Contract void shall in no way affect the validity or enforceability of any other portion or provision of this Contract. Any void provision shall be deemed severed from this Contract, and the balance of this Contract shall be construed and enforced as if this Contract did not contain the particular portion or provision held to be void. The parties further agree to amend this Contract to replace any stricken provision with a valid provision that comes as close as possible to the intent of the stricken provision. The provisions of this clause shall not prevent this entire Contract from being void should a provision which is of the essence of this Contract be determined void.

E-13 Conforming Services [CAO-7/24/08]

The services performed under this Contract shall conform in all respects with the requirements set forth in this Contract. The Company shall furnish the City with sufficient data and information needed to determine if the services performed conform to all the requirements of this Contract.

This Contract shall not be modified or amended except by the express written agreement of the parties, signed by a duly authorized representative for each party. Any other attempt to modify or amend this Contract shall be null and void, and may not be relied upon by either party.

E-15 Entire Agreement, Section and Paragraph Headings [CAO-7/24/08]

(a) This Contract represents the entire and integrated agreement between the City and the Company. It supersedes all prior and contemporaneous communications, representations, and agreements, whether oral or written, relating to the subject matter of this Contract.

No officer, employee, architect, attorney, engineer or inspector of, or for the City, who is authorized in such capacity and on behalf of the City to exercise any legislative, executive, supervisory or other similar functions in connection with this Contract, shall become directly or indirectly interested personally in this Contract or in any part hereof, any material supply contract, subcontract, insurance contract, or any other contract pertaining to this Contract.

(b) Each party represents that it is unaware of any financial or economic interest of any public officer or employee of the City relating to this Contract. Notwithstanding any other provision of this Contract, if such interest becomes known, the City may immediately terminate this Contract for default or convenience, based on the culpability of the parties.

E-17 Public Records [CAO-7/24/08]

The City is a public agency as defined by state law. As such, it is subject to the Nevada Public Records Law (Chapter 239 of the Nevada Revised Statutes). The Company shall not disclose this information, nor allow to be disclosed to any person or entity without the express prior written consent of the City. The Company shall have the right to use any such confidential information only for the purpose of providing the services under this Contract, unless the express prior, written consent of the City is obtained. Upon request by the City, The Company shall promptly return to the City all confidential information supplied by the City, together with all copies and extracts.

(b) The confidentiality requirements shall not apply where (i) the information is, at the time of disclosure by the City, then in the public domain; (ii) the information is known to the Company prior to obtaining the same from the City; (iii) the information is obtained by the Company from a third party who did not receive the same directly or indirectly from the City; or (iv) the information is subpoenaed by court order or other legal process, but in such event, the Company shall notify the City. In such event the City, in its sole discretion, may seek to quash such demand.

(c) The obligations of confidentiality shall survive the termination of this Contract.

E-19 Marketing Restrictions [CAO-7/24/08]

The Company may not publish or sell any information from or about this Contract without the prior written consent of the City. (b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this Contract, whether or not changed by the order, the City shall make an equitable adjustment in the Contract price, the delivery schedule, or both, and shall modify the Contract.

(c) The Company must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order; however, if the City decides that the facts justify, the City may receive and act upon a proposal submitted before final payment of the Contract.

(d) If the Company's proposal includes the cost of property made obsolete or excess by the change, the City shall have the right to prescribe the manner of the disposition of the property.

(e) Failure to agree to any adjustment shall be a dispute under Paragraph E-1 (Disputes); however, nothing in this clause shall excuse the Company from proceeding with the Contract as changed.

The Company shall provide current, complete, and accurate documentation to the City in support of any equitable adjustment. Failure to provide adequate documentation, within a reasonable time after a request from the City, will be

deemed a waiver of the Company's right to dispute the equitable adjustment proposed by the City, where such equitable adjustment has a reasonable basis at the time it is determined by the City.

1.0 Overview

This Statement of Work (SOW) outlines the software, hardware, and implementation services included with the purchase of an interactive solution from Selectron Technologies. Additionally, this document describes the Customer's responsibilities in providing a suitable environment and facilitating a successful implementation of the Selectron Technologies' interactive solution.

2.0 Functionality

This section details the functionality of each application included in the implementation of this interactive solution. All functions and features are dependent upon required application[1] data availability. The interactive solution must be able to retrieve data from the application databases either through direct access or through an indirect interface provided by the Customer and/or database vendor. In addition, the interactive solution is required to post data back to the application databases. Normally, an indirect interface is provided to ensure system integrity for posted data.

The exact data required for retrieval and posting by the interactive solution is determined by final product definition including agreed upon call flow, business rules, and work process. Additionally, the call flow, business rules, and work process may be limited by the availability and access to data.

2.1 VoicePermits

The VoicePermits application interacts with the Customer's permitting database to deliver information and services over the phone to callers.

2.1.1 Standard Feature Set

This section details the standard features included with the VoicePermits application.

2.1.1.1 Inspection Scheduling

VoicePermits allows callers to schedule, reschedule, and cancel inspections. Additionally, callers can leave messages for inspectors; messages are stored on the interactive solution's server for 90 days. Once the caller has scheduled, rescheduled, or cancelled an inspection, they will receive a confirmation number. To access scheduling functionality, callers must enter a valid permit number. When an inspection is scheduled against a permit on which the inspection's type has not previously been added, the inspection type will be added to the permit prior to scheduling.

2.1.1.2 Posting Inspection Results

Inspectors can use VoicePermits to post inspection results, hear messages left by the permit holder, and leave a message for the permit holder. To ensure security, inspectors must enter a PIN prior to recording results. The PIN can be determined by the Customer, but must be validated by the permitting database.

---

1. The terms "application databases" and "application systems" refer to all Customer databases that have been integrated with the interactive solution (e.g., permitting database, utility database, court database, etc.).

2.1.1.3 Obtain Inspection Results

Permit holders can call VoicePermits to listen to the results of their scheduled inspection and listen to any messages left by the inspector; messages are stored on the interactive solution's server for 90 days. To access inspection results, callers must enter a valid permit number.

2.1.1.4 PIN Access

Callers must enter a valid PIN to gain access to the system. VoicePermits relies on the Customer's permitting system to manage and verify PINs.

2.1.2 Additional Features

This section details the optional, add-on modules included with the VoicePermits application.

2.1.2.1 Correction Codes

When posting results for a failed inspection, the inspector can enter a correction code. Correction codes detail the specific reason for inspection failure. The description of the correction code is available to callers requesting inspection results.

The permitting database must allow the input of correction codes, as well as access to the field storing the codes, to allow full functionality of this module. The Customer is responsible for maintaining correction code data (section 3.1.21, **Maintain Correction Codes**).

2.1.2.2 Inspection Prerequisites

System administrators can configure VoicePermits to disallow inspections from being scheduled until other, associated inspections have been scheduled or approved. When callers attempt to schedule an inspection whose prerequisites have not been met, the system speaks back the specific unmet prerequisites. The Customer's business rules determine whether or not inspection prerequisites must be scheduled or approved prior to scheduling associated inspections.

2.1.2.3 Limit Inspections

When implemented, this module allows the jurisdiction to set a maximum number of scheduled inspections per day, per defined group. This module can be implemented to allow inspection limitation using one of two schemes: by inspection group (such as Electrical, Plumbing, etc.) or by a jurisdiction-defined custom group (limitations set by city, by inspection type, location, or other criteria desired by the Customer). The implemented grouping scheme is dependent upon jurisdiction requirements.

Inspection groups that have reached the daily maximum limit are not available for caller selection. When contractors arrive at the Customer's office for scheduling, staff members can use the included Inspection Calendar web page to view availability prior to scheduling inspections in the permitting system or by using VoicePermits.

VoicePermits regularly polls the permitting database (section 3.1.19, **Maintain Inspection Limitation**) to verify the number of scheduled inspections per group. The information is then updated to the VoicePermits server and is used to present callers with scheduling information and update the Administration Tool (section 4.2, **Software**) and the Inspection Calendar web page. If concurrent scheduling requests occur between polling attempts, the daily inspection count may be exceeded. The Customer may configure the polling schedule in the Administration Tool. However, Selectron Technologies recommends periodically polling the permitting database, rather than on-demand schedule verification, to minimize processor use.

2.1.2.4 Modify Inspection Conditions

Each inspection type is accompanied by a standard set of rules for allowing/disallowing inspection scheduling. Using the Administration Tool (section 4.2, **Software**), the Customer's staff can enable or disable each rule at the inspection type level. The specific rules to be implemented are mutually agreed upon by the Customer and Selectron at the onset of implementation.The same conditions logic applies to both VoicePermits and WebPermits.

2.1.2.5 Payment Processing: Credit Card

VoicePermits accepts credit card payments, allowing callers to pay inspection fees, project fees, and building application fees. The Customer's business rules determines whether the system can process over payments, partial payments, remainder amounts from previous partial payments, and payments for specific inspections when there are multiple outstanding inspection fees. Visa®, MasterCard®, and Discover® are all pre-configured credit card types within VoicePermits; credit card types not used by the Customer will be unavailable to the caller. Additionally, VoicePermits accepts Visa or MasterCard debit cards; payments using debit cards are processed as a credit transaction.

Once a payment has been processed, VoicePermits issues a payment confirmation number. When taking a payment, the payment processing software verifies the credit card number and expiration date. For more security, the Customer can choose to verify the card holder's zip code and security code.

Fee data must be available to VoicePermits to ensure functionality of this module.

VoicePermits provides a report for manual posting, or, if supported, passing payment information to the interface to be processed into the Customer's permitting system.

The following payment processing fees and services are not covered by purchase of the VoicePermits application:

- Transaction fees
- Merchant accounts
- Third-party payment processing services, fees, and software

The Customer must select the third-party payment processing vendor prior to system development. Any changes to payment processing vendors, after system development, are billable on a Time and Materials basis.

2.1.2.6 Payment Processing: Shopping Cart

The Shopping Cart module allows callers to make a single payment for multiple fees. During the call, when a caller opts to make a payment on an item such as an inspection, the item and the associated cost is added to the caller's "shopping cart." Once the caller has selected all desired purchases, the caller indicates to VoicePermits that no additional purchases are desired and the caller wishes to make a payment. VoicePermits speaks the number of items in the caller's shopping cart, any applicable convenience fees, and the total amount to be paid. The caller may choose to make the payment or to clear the contents of the "shopping cart" and start over.

2.1.2.7 Inspection Type-based Transfer Numbers

When a caller requests a transfer to customer service from VoicePermits, the interactive solution determines the transfer extension based on the type of inspection with which the caller is currently working. If the caller is not working with an inspection, or if the transfer extension has not been defined for that inspection type, VoicePermits transfers the caller to a primary customer support number defined by the Customer.

Selectron implements VoicePermits using the associated transfer extensions provided by the Customer at the beginning of implementation. It is the Customer's responsibility to maintain the list of transfer extensions associated with inspection types. The Customer may add, modify, or delete extensions associated with inspection types using the Administration Tool (section 4.2, **Software**). No more than one transfer extension may be associated with an inspection type.

2.1.2.8 Professional Voice Recording

All system prompts (including call flow), correction code descriptions, and street names are professionally recorded prior to installation. Additionally, all outbound notification prompts are professionally recorded (section 2.5.1.1, **Outbound Notify**). The following non-system prompt and message types are not included, and require Customer recording:

- Optional Greeting (section 3.1.4, **Append an Optional Greeting**)

For more information regarding non-system prompt recording, refer to section 3.1.8, **Record Prompts and Responses**.

The Customer must sign-off on all Professional Voice Recording scripts prior to prompt recording. All prompt change requests after recording has been completed may incur additional charges on a Time and Materials basis (street names will be updated on a quarterly basis as described in section 3.1.7, **Add New Streets**).

2.1.2.9 Same Day Scheduling - Additional Fees

Callers may schedule an inspection for the same day on which they are calling. The system speaks any additional fees that are required for same-day

inspections. VoicePermits relies on the permitting system to provide fee amounts and calculated amounts owed. The Customer may specify a cutoff time after which same day inspections cannot be scheduled.

2.1.2.10 SmartDelivery

SmartDelivery software enables VoicePermits to send faxes and/or e-mail to callers.

When requesting a fax, callers are prompted to use their telephone keypad to enter the number where the fax should be sent. Selectron Technologies recommends that faxed documents be no longer than ten pages to ensure accurate delivery to recipients.

Prior to receiving an e-mail, callers must have an e-mail address on file in the permitting database. If an e-mail address is not available, callers are not given the option of receiving an e-mail.

2.1.2.11 Speak Inspector Information

With this module, a permit holder with an inspection scheduled for the current day can verify the identity of the scheduled inspector. The permit holder calls VoicePermits and enters the inspection confirmation number or, alternatively, the permit number and inspection type. When the permit holder selects the relevant menu option, VoicePermits speaks the name of the scheduled inspector, the scheduled inspector's telephone number, and a brief generic message (the content of the message is decided upon by the Customer prior to system implementation).

2.1.2.12 Subcontractor Registration

The Customer's permitting system houses subcontractor information. Subcontractors wishing to use VoicePermits (or WebPermits) must validate their identity using a PIN. Selectron modifies the interactive solution to accept PIN input from subcontractors and validate against PINs existing within the Customer's permitting system.

2.1.2.13 Subcontractor Add to Company Grid

In order to schedule inspections against a permit, a subcontractor must be assigned to that permit. Selectron modifies the interactive solution to accept self-assignment from subcontractors. The interactive solution's reporting suite (section 3.1.1, **Run System Reports**) indicates activities performed on a given permit, including subcontractor identification numbers.

2.2 WebPermits

The WebPermits application interacts with the Customer's permitting database to deliver information and services over the web to citizens. WebPermits works in conjunction with VoicePermits and cannot be run as an independent application. The WebPermits application resides on the Customer's web server (section 5.2.2.8, **Provide Web Server**).

2.2.1 Standard Feature Set

When citizens access the main WebPermits page, they are required to log in with a permit number and security code. The security code can be determined by the Customer, but must be verified by the permitting database. Most jurisdictions use the site address associated with the permit as the security code.

This section details the standard features included with the WebPermits application.

2.2.1.1 Inspection Scheduling

WebPermits allows citizens to schedule, reschedule, and cancel inspection using a web interface. When scheduling an inspection, the citizen can select the specific inspection type as well as inspection date from a calendar. Available dates on the calendar are determined by the Customer's business rules. Additionally, citizens can select a preference of a morning or afternoon inspection. Once citizens have scheduled, rescheduled, or cancelled an inspection, they receive a confirmation number; WebPermits provides a printer-friendly page allowing the citizen to easily print the confirmation.

To access scheduling functionality, a valid permit number must be entered during the login process.

2.2.1.2 Obtain Inspection Results

Permit holders can access WebPermits to view the results of their scheduled inspection. WebPermits displays the inspection type, the completed date, inspection result, inspector, and a confirmation number. WebPermits provides a printer-friendly page allowing permit holders to easily print the inspection results associated with a permit.

To access inspection results, a valid permit number must be entered during the login process.

2.2.1.3 E-mail Link

WebPermits provides an e-mail link, allowing citizens to directly e-mail the Customer's jurisdiction. When citizens click the link, their default e-mail client displays with the appropriate, pre-defined e-mail address and configurable subject heading filled in.

2.2.1.4 PIN Access

Users must enter a valid PIN to gain access to the system. WebPermits relies on the Customer's permitting system to manage and verify PINs. The PIN a user enters to access WebPermits is identical to the PIN the user enters to access VoicePermits.

2.2.2 Additional Features

This section details the optional, add-on modules included with the WebPermits application.

2.2.2.1 Payment Processing: Credit Card

WebPermits accepts credit card payments, allowing callers to pay inspection fees, project fees, and building application fees. The Customer's business

rules determine whether the system can process over-payments, partial payments, remainder amounts from previous partial payments, and payments for specific inspections when there are multiple outstanding inspection fees. Visa®, MasterCard®, and Discover® are all pre-configured credit card types within WebPermits; credit card types not used by the Customer are unavailable to the citizen for use. Additionally, WebPermits accepts Visa or MasterCard debit cards; payments using debit cards are processed as a credit transaction.

When taking a payment, the payment processing software verifies the credit card and expiration date. For more security, the Customer can choose to verify the card holder's zip code and security code. Once a payment has been processed, WebPermits issues a payment confirmation number; WebPermits provides a printer-friendly page allowing citizens to easily print the confirmation details.

Fee data must be available to WebPermits to ensure functionality of this module.

WebPermits provides a report for manual posting, or, if supported, passing payment information to the interface to be processing into the Customer's permitting system.

The following payment processing fees and services are not covered by the purchase of this module:

- Transaction fees
- Merchant accounts
- Third-party payment processing services, fees, and software

The Customer must select the third party payment processing vendor prior to system development. Any changes to payment processing vendors, after system development, is billable on a Time and Materials basis.

2.2.2.2 Payment Processing: Shopping Cart

WebPermits employs the same shopping cart functionality VoicePermits (section 2.1.2.6, **Payment Processing: Shopping Cart**). During a web session, when web user opts to make a payment on an item such as an inspection, the item and the associated cost is added to the user's "shopping cart." When the user has finished adding items to the shopping cart and elects to make a payment, WebPermits displays a list of all items that have been added, the associated cost for each, any applicable convenience fees, and the total amount to be paid. The caller may choose to make the payment or to clear the contents of the "shopping cart" and start over.

2.2.2.3 Same Day Scheduling - Additional Fees

Web users may schedule an inspection to be performed on the same day on which they are requesting the inspection. The system displays any additional fees that are required for same-day inspections. WebPermits relies on the permitting system to provide fee amounts and calculated amounts owed. The Customer may specify a cutoff time after which same day inspections cannot be scheduled.

2.2.2.4 Subcontractor Add to Company Grid

In order to schedule inspections against a permit, a subcontractor must be assigned to that permit. Selectron modifies the interactive solution to accept self-assignment from subcontractors. The interactive solution's reporting suite (section 3.2.1, **Run System Reports**) indicates activities performed on a given permit, including subcontractor identification numbers.

2.3 VoiceCourt

The VoiceCourt application interacts with the Customer's court database to deliver information and service over the phone to callers.

2.3.1 Standard Feature Set

This section details the standard features included in the VoiceCourt application.

2.3.1.1 Case Information Access

VoiceCourt allows callers to hear a summary of their case disposition and any related court dates or fines owed. To access this information, callers must enter their case number, driver's license, Social Security number, or license plate number, and PIN (and/or date of birth in a MM-DD-YY format). The PIN can be defined by the Customer, but must be verified by the court database. VoiceCourt confirms the chosen case by specifying a description and the ruling date. Once the caller confirms, fines and court dates assigned by the Customer's jurisdiction are played as well.

2.3.1.2 Enter Plea

Callers may enter a plea on the case about which they are calling. The available pleas are defined at the onset of implementation; subsequent changes to available pleas require additional professional services.

2.3.1.3 Payment History

Callers may hear the payment history on the case about which they are calling. This history includes all payments previously applied against the case. VoiceCourt speaks the payment date, amount paid, and the method of payment.

2.3.1.4 Warrant Options

Each case type is accompanied by a standard set of business rules to govern the caller's options when interacting with the case. Selectron enhances VoiceCourt to include these rules. Using the Administration Tool (section 4.2, **Software**), the Customer's staff can toggle each rule at the case type level. The specific rules to be implemented are mutually agreed upon by the Customer and Selectron at the onset of implementation.The same conditions logic applies to both VoiceCourt and WebCourt. Any rule requiring complexity beyond a yes/no value will result in a transfer of the caller to a customer service representative.

2.3.2 Additional Features

This section details the optional, add-on modules and features included with this implementation of the VoiceCourt application.

2.3.2.1 Payment Processing: Credit Card

VoiceCourt accepts credit card payments; the Customer's business rules determine whether the system can process over payments or partial payments. Visa®, MasterCard®, and American Express® are all pre-configured credit card types within VoiceCourt; credit card types not used by the Customer are unavailable to the caller. Once a payment has been processed, VoiceCourt issues a payment confirmation number. When taking a payment, the payment processing software verifies the credit card number and expiration date. For more security, the Customer can choose to verify the card holder's zip code and security code.

VoiceCourt provides a report for manual posting, or, if supported, passing payment information to the interface to be processed into the Customer's court database.

The following payment processing fees and services are not covered by purchase of the VoiceCourt application:

- Transaction fees
- Merchant accounts
- Third-party payment processing services, fees, and software

The Customer must select the third-party payment processing vendor prior to system development. Any changes to payment processing vendors, after system development, are billable on a Time and Materials basis.

2.3.2.2 Professional Voice Recording

All system prompts (including call flow) are professionally recorded prior to installation. Additionally, outbound notification prompts are professionally recorded (section 2.5.1.1, **Outbound Notify**). The following non-system prompt and message types are not included, and require Customer recording:

- Optional Greeting (section 3.3.4, **Append an Optional Greeting**)

For more information regarding non-system prompt recording, refer to section 3.3.7, **Record Prompts and Responses**.

The Customer must sign-off on all Professional Voice Recording scripts prior to prompt recording. All prompt change requests after recording has been completed may incur additional charges on a Time and Materials basis.

2.3.2.3 SmartDelivery

SmartDelivery software enables VoiceCourt to send faxes and/or e-mails to callers.

When requesting a fax, callers are prompted to enter the number where the fax should be sent. Selectron Technologies recommends that faxed documents be no longer than ten pages to ensure accurate delivery to recipients.

Prior to receiving an e-mail, callers must have an e-mail address on file in the court database. If an e-mail address is not available, callers are not given the option of receiving an e-mail.

2.3.2.4 Spanish Language

The Spanish Language module enables VoiceCourt to play back system prompts in both English and Spanish. Additionally, all dates, numbers, ordinals, currencies, and letters are translated to the proper language. All other prompts must be recorded and translated by the Customer (section 3.3.7, **Record Prompts and Responses**).

When Professional Voice Recording has been implemented in conjunction with the Spanish Language module, all system prompts are recorded in Spanish prior to installation. Non-system prompt and message types are not included and require Customer translation and recording. Refer to section 2.3.2.2, **Professional Voice Recording**, for a list of non-system prompts and messages.

The professionally-recorded Spanish prompts use a vocabulary and dialect predetermined by Selectron. Additions and changes to the prompts to account for regional differences are subject to time and materials billing.

2.3.2.5 Computer Telephony Integration: Screen Pop

The screen pop component is installed on customer service representatives' computers. When callers transfer from the VoiceCourt interactive solution to the customer service center, VoiceCourt passes caller account information to the screen pop component for viewing by the representative receiving the transferred caller. Account information includes the caller's account number, and may include other account-related that are agreed upon at the beginning of implementation.

VoiceCourt uses Syntellect's CT Connect software to enable screen pop functionality. The Customer must ensure that its telephony environment is configured to interface with CT Connect (section 5.2.2.6, **Configure Telephony Environment for CTI**). Additionally, the data fields available through the screen pop funtionality must be supported by the Customer's court system. Selectron assists the Customer in determining what data can be passed to customer service representatives.

2.3.2.6 Schedule Court Appearances

VoiceCourt allows callers to schedule a court appearance on a case. Callers select the desired court appearance from options presented by VoiceCourt. VoiceCourt relies on the Customer's court system to pass available options.

Once the caller has scheduled a court appearance, the caller receives a confirmation number.

2.3.2.7 Schedule Schools

VoiceCourt allows callers to schedule, reschedule, or cancel enrollment in a relevant class based on case type and plea. If the caller has not already entered a case number for class scheduling, the caller is prompted to enter a

driver's license number and authentication information determined by the Customer. The caller then selects the relevant case for class scheduling.

When scheduling or rescheduling a class, VoiceCourt speaks the next available class date, time, and (if necessary) location. The caller may select this class or request to hear the next available.

Once a caller successfully schedules a class, VoiceCourt speaks the confirmation number, date, and time, and location of the class. The caller is prompted to hear directions to the class location.

2.4 WebCourt

The WebCourt application interacts with the Customer's court database to deliver information and services over the web to citizens. WebCourt works in conjunction with VoiceCourt and cannot be run as an independent application. The WebCourt application resides on the Customer's web server (section 5.2.2.8, **Provide Web Server**).

2.4.1 Standard Feature Set

When citizens access the main WebCourt page, they are required to log in with a case number and security code. The security code can be determined by the Customer, but must be verified by the court database. Most jurisdictions use the site address associated with the caller's case as the security code.

This section details the standard features included with the WebCourt application.

2.4.1.1 Case Information Access

Citizens can access their current case status information, including case number, case disposition, court dates and fees owed.

2.4.1.2 Payment History

Citizens can access their case's fee payment history. Information displayed includes the payment date, amount paid, and the method of payment.

2.4.1.3 E-mail Link

WebCourt provides an e-mail link, allowing citizens to directly e-mail the Customer's jurisdiction. When citizens click the link, their default e-mail client displays with the appropriate, pre-defined e-mail address and configurable subject heading filled in.

2.4.2 Additional Features

This section details the optional, add-on modules included with the WebCourt application.

2.4.2.1 Spanish Language

WebCourt includes the framework for displaying content in the Spanish language in the same format and structure as the English framework. Users may select an English or Spanish navigation experience.

The Customer provides translation of the existing English content into Spanish.

2.4.2.2 Payment Processing: Credit Card

WebCourt accepts credit card payments, allowing callers to pay their bills; the Customer's business rules determine whether the system can process overpayments or partial payments. Visa®, MasterCard®, and American Express® are all pre-configured credit card types within WebCourt; credit card types not used by the Customer are unavailable to the citizen for use. When taking a payment, the payment processing software verifies the credit card and expiration date. For more security, the Customer can choose to verify the card holder's zip code and security code. Once a payment has been processed, WebCourt issues a payment confirmation number; WebCourt provides a printer-friendly page allowing citizens to easily print the confirmation details.

WebCourt provides a report for manual posting, or, if supported, passing payment information to the interface to be processing into the Customer's court system.

The following payment processing fees and services are not covered by the purchase of this module:

- Transaction fees
- Merchant accounts
- Third-party payment processing services, fees, and software

The Customer must select the third party payment processing vendor prior to system development. Any changes to payment processing vendors, after system development, is billable on a Time and Materials basis.

2.4.2.3 Schedule Court Appearances

WebCourt allows web users to schedule a court appearance on a case. Web users select the desired court appearance from options presented by WebCourt. WebCourt relies on the Customer's court system to pass available options.

Once the web user has scheduled a court appearance, WebCourt displays a confirmation number.

2.4.2.4 Schedule Schools

WebCourt allows web users to schedule, reschedule, or cancel enrollment in a relevant class based on case type and plea. If the web user has not already entered a case number for class scheduling, the user is prompted to enter a driver's license number and authentication information determined by the Customer. The web user then selects the relevant case for class scheduling. from the options presented by WebCourt. WebCourt relies on the Customer's court system to pass available options.

Once a web user caller successfully schedules a class, WebCourt displays the confirmation number, date, and time, and location of the class.

2.4.2.5 Attorney-entered Pleas

This module allows attorneys to enter pleas on behalf of clients. In order to enter a plea, an attorney must enter appropriate identity authentication information. If multiple offenses exist on a case, the attorney may enter pleas for the multiple offenses within a single submit function.

2.4.2.6 Attorney/Bondsmen Case Access

Attorneys and bondsmen may access case information by logging into WebCourt using the appropriate authentication information. Cases may be accessed by case number as well as by other search criteria that are mutually agreed upon by the Customer and Selectron prior to implementation.

2.4.2.7 Provide Attorney Information

A web user enters a case number, and WebCourt displays the case, as well as the attorney of record and attorney's contact information. No authentication information is required to view this information.

2.4.2.8 Spanish Language

WebCourt includes the framework for a Spanish-language IWR solution. However, it is the responsibility of the Customer to provide Spanish translations for all pages in the WebCourt solution.

2.5 Outbound Delivery Services

Outbound Delivery Services is an information delivery system that allows the Customer to initiate automated outbound campaigns to deliver information and messages to citizens. The engine is used to power two service types: Outbound Alert and Outbound Notify. Both service types are implemented separately. The service type(s) that are implemented for the interactive solution are detailed below.

2.5.1 Standard Feature Set

This section details the standard features included with Outbound Delivery Services.

2.5.1.1 Outbound Notify

The Outbound Notify service type enables the Customer to run contextual campaigns tailored to specific individuals or groups. Typically, Outbound Delivery Services pulls data from the Customer's application database(s) to present information to citizens, although Selectron Technologies works with the Customer to implement other solutions. Due to their complex nature, each notification requires Professional Services to configure.

Outbound Notify can be implemented with a number of pre-configured notifications or Selectron Technologies works with the Customer to develop custom notifications as agreed upon. Refer to section 2.5.2, **Additional Features**, for a list of all pre-configured notifications included with this implementation.

Notifications can be configured to run automatically or at specific dates and times. Notifications are sent via phone. When SmartDelivery has been implemented, Outbound Delivery Services can send notifications via fax and/or e-

mail (section 2.5.2.9, **SmartDelivery**). In order for faxes and e-mails to be sent, the fax number or e-mail address must be available in the applicable database (e.g. permitting or cout). If contact information is not available, the notification cannot be sent. Note that fax or e-mail based notifications do not include the ability to make payments or transfer to customer service.

2.5.2 Additional Features

This section details the optional, add-on modules included with this implementation of Outbound Delivery Services.

2.5.2.1 Outbound Notify: Expiring and Expired Permits Notification

This service requires the VoicePermits application and interacts with the permitting database. When this notification is configured, permit holders may be contacted about their expiring and expired permits. Typical information included in this notification includes the permit number and the expiration, or expired, date. The date and time of notification delivery, relative to the expiration date, can be configured to fit the Customer's business rules.

2.5.2.2 Outbound Notify: Permits Ready to Be Issued Notification

This notification requires the VoicePermits application and interacts with the permitting database. When this notification is configured, the interactive solution apprises the permit applicant when a permit is ready to be issued. The system speaks the permit number and fees due, then speaks generic language agreed upon by Selectron and the Customer, such as payment options. The recipient of the notification is prompted to transfer to VoicePermits to make a payment.

2.5.2.3 Outbound Notify: Inspection Next Day Notification

This notification requires the VoicePermits application and interacts with the permitting database. When this notification is configured, the interactive solution contacts a permit holder when an inspection is scheduled for the next day. The system speaks the type of inspection, the permit number, and a general message indicating that the inspection is scheduled to occur. If available, the system speaks whether the inspection is scheduled for the morning or afternoon. The time of day that the notification occurs can be configured to fit the Customer's business rules.

2.5.2.4 Outbound Notify: Who's My Inspector Notification

This notification requires the VoicePermits application and interacts with the permitting database. On the day of an inspection, once the inspection has been assigned to an inspector, the interactive solution contacts the permit holder and speaks the assigned inspector's name, the assigned inspector's contact number, and an agreed-upon generic message indicating that the inspector will contact the permit holder shortly.

2.5.2.5 Outbound Notify: Court Appearance Notification

This notification requires the VoiceCourt application and interacts with the court database. When this notification is configured, the interactive solution contacts defendants who are scheduled for a court appearance. The system speaks the date, time, and location of the court appearance and provides the

option for the recipient to transfer to a customer service representative. The number of days prior to the scheduled court appearance at which the notification is sent can be configured to fit the Customer's business rules.

2.5.2.6 Outbound Notify: Payment Reminder Notification

This notification requires the VoiceCourt application and interacts with the court database. When this notification is configured, the interactive solution contacts defendants who owe outstanding balances on citations. The system speaks the citation number and the amount owed. The recipient of the notification is prompted to transfer to VoiceCourt to make a payment. The notification is triggered when payment on a citation is overdue by a certain number of days; this number of days can be configured to fit the Customer's business rules.

2.5.2.7 Outbound Notify: Warrant Notification

This notification requires the VoiceCourt application and interacts with the court database. When this notification is configured, the interactive solution contacts persons for whom an arrest warrant will been issued. The system speaks the date the warrant will be issued and speaks a generic message providing remediation options. The notification recipient is prompt to transfer to a customer service representative. The notification is triggered a certain number of days prior to warrant issuance; this number of days can be configured to fit the Customer's business rules.

2.5.2.8 Outbound Notify: Class Reminder Notification

This notification requires the VoiceCourt application and interacts with the court database. When this notification is configured, the interactive solution contacts persons who have registered for applicable court classes. The system speaks the kind of class, as well as the date, time, and location of the class, and a generic informational message agreed upon by Selectron and the Customer. The number of days in advance the reminder notification is sent can be configured to fit the Customer's business rules.

2.5.2.9 SmartDelivery

Smart Delivery software enables Outbound Delivery Services to send faxes and/or e-mail to message recipients.

2.5.2.10 Spanish Language

The Spanish Language module allows Outbound Delivery Services to play outbound campaign messages in both English or Spanish over the phone. The content of the message is identical for each language. All messages must be translated and recorded by the Customer, however, all dates, numbers, ordinals, currencies, and letters are already translated to the proper language. Depending on configuration, campaigns sent via fax or e-mail include both English and Spanish within the same message.

2.6 CommunitySelect

CommunitySelect is an interactive solution that provides the Customer an environment for creating its own dynamically-configurable, interactive menus. The Customer's administrative staff use the CommunitySelect Manager application to create a menu structure consisting of

"nodes." Using a simple drag-and-drop interface, the Customer can create, edit, arrange, and delete nodes to build a department-specific information system for callers. Customers then use a touch-tone telephone to record the necessary spoken messages or prompts.

CommunitySelect requires that the interactive solution uses Selectron core components that are version 4.5.3 or later.

2.6.1 Nodes

CommunitySelect includes five types of nodes that may be created.

- Submenu: A submenu is a menu of options that is nested within a higher-level menu option. Submenus enable the Customer to streamline the Community-Select call flow and organize content into groups containing similar information.
- Information item: A general information item contains a spoken message that provides some informational message to callers accessing CommunitySelect.
- Fax document: The fax node allows callers to request a specific fax document by selecting the relevant menu choice.
- Call transfer: CommunitySelect transfers the caller to an extension within the Customer's phone system.
- Call chain: If the Customer has implemented another interactive solution from Selectron Technologies, the chain node enables callers to be transfered into the call flow of such solutions. The Customer can designate whether the caller is chained into the beginning of the call flow, or to a designated location within the call flow.

2.6.2 Shortcuts

Each node within CommunitySelect can be assigned a unique shortcut key sequence. Callers can then enter this sequence at any point in the CommunitySelect call flow to access the node directly.

2.6.3 Placement

If CommunitySelect is implemented in tandem with other interactive solutions from Selectron Technologies, the Customer must designate the desired placement of CommunitySelect and the other interactive solution(s) relative to each other. For example, the Customer may desire that CommunitySelect be the first interactive solution callers reach when placing a call to the department, or the Customer might want each interactive solution to possess a unique phone number. The Customer must determine its preference at the onset of implementation; subsequent changes will require Selectron professional services and may be subject to time and materials billing.

2.6.4 Configuration Scope

The CommunitySelect Manager is intended for use in configuring the menu structure within the CommunitySelect call flow only. The CommunitySelect Manager cannot be used to alter the call flow of other Selectron interactive solutions.

2.6.5 Spanish Language

When the Spanish language module is implemented, the CommunitySelect menu can be presented to callers in both English and Spanish. The menu tree will be identical across both languages. All dates, numbers, ordinals, currencies, and letters are translated to the proper language. Otherwise, just as in English, the Customer is responsible for recording all spoken Spanish prompts within CommunitySelect (section 3.6.3, **Record Prompts and Reponses**).

When Professional Voice Recording has been implemented in conjunction with the Spanish Language module, all system prompts are translated and recorded in Spanish prior to installation. Non-system prompt and message types are not included and require Customer translation and recording. Refer to section section 2.6.6, **Professional Voice Recording**, for a list of non-system prompts and messages.

The professionally-recorded Spanish prompts use a vocabulary and dialect predetermined by Selectron. Additions and changes to the prompts to account for regional differences are subject to time and materials billing.

2.6.6 Professional Voice Recording

All system prompts are professionally recorded prior to installation, in both English and Spanish. The following non-system prompt and message types are not included, and require Customer recording:

- Optional Greeting (section 3.1.4, **Append an Optional Greeting**)

For more information regarding non-system prompt recording, refer to section section 3.6.3, **Record Prompts and Responses**.

The Customer must sign-off on all Professional Voice Recording scripts prior to prompt recording. All prompt change requests after recording has been completed may incur additional charges on a Time and Materials basis.

2.6.7 Department-specific Templates

Selectron delivers two call flow templates with CommunitySelect, one for the courts department and one for the building and permitting department. The templates are intended to serve as a quick-start guide for customizing the call flow to the Customer's preference; the Customer may edit the templates as desired. Each template includes the associated professionally-recorded voice prompts.

2.7 Enterprise-wide Functionality

This section details additional functionality that is shared by all applications identified in this Statement of Work.

2.7.1 Rejected Payment Submissions Report

Selectron bulds a custom report that displays all payment attempts that were rejected. The report lists account/permit/case number, application through which payment was attempted, and reason for rejection. Administrative personnel can filter the report to show results for all applications or any combination of applications.

2.7.2 Fax Server Integration

When a caller requests a faxed document, the interactive sends the requested fax as an attachment to an SMTP message. The document for faxing is in either an .rtf or .pdf format. Further specific details of the fax workflow are agreed upon by Selectron and the Customer prior to system implementation.

That the interactive solution's reporting functionality can only report that documents were sent to the Customer's fax server; any further reporting (for example, delivery status to the person who requested the fax) is the responsibility of the Customer's fax server.

3.0 Administrative Tasks

This section details tasks that the Customer's system administrator can perform while maintaining and operating the interactive solution.

3.1 VoicePermits

The tasks listed below apply to the VoicePermits application.

3.1.1 Run System Reports

System administrators can generate, view, save, and print system usage reports using Microsoft Internet Explorer® 5.0, Mozilla Firefox 1.0, or newer, with access to the Customer's intranet. Reports can be saved as PDF files from the browser.

System administrators can also configure reports for automatic delivery to designated e-mail addresses. Auto-delivery frequency options include monthly, weekly, and daily.

Table 1 lists the reports available with this implementation.

Table 1 System Reports

Report	Definition
System Usage	Calls received by day for selected date range
System Line Usage	Calls received by line for selected date range
System Usage by Hour	Calls received by hour for selected date range
System Statistics	Displays consolidated usage information, including time in use and call time information
Call Activity Details	Displays all actions that a caller made during a call
Inspector Post Activity	Lists all inspections posted by each inspector for a selected date range
Action Report	Number of times the application functions were selected for selected date range

Table 1 System Reports

Report	Definition
Payment	Payment type with date, time, utility account numbers, and Confirmation numbers
Fax Activity Report	Fax status, document, date, time, and permit number
Email Activity Report	Date sent, document type, confirmation number, and permit number

3.1.2 Set Operator Transfer Extension

By setting the operator transfer extension, system administrators can determine where VoicePermits transfers calls. Calls can be transferred to different extensions depending on the time of day and what type of information the caller is requesting. Operator transfer settings are managed using the Administration Tool (section 4.2, **Software**).

3.1.3 Set Office Hours and Holidays

When office hours and holidays have been set, the system checks against the office hours and holiday schedule to determine the correct action when transferring calls.

3.1.4 Append an Optional Greeting

Appending an optional greeting instructs the system to play an additional greeting message when callers access VoicePermits. The optional greeting can be used to inform callers of changes in office hours or upcoming holidays. System administrators are responsible for recording the optional greeting. Training on how to record prompts and responses is provided during system installation (section 4.4.3, **Provide Administrative Training**).

3.1.5 Control Administrative Access

The system administrator is responsible for creating and deleting administrative accounts, editing account access levels, and changing the prompt recording access PIN for the interactive solution. Access levels can be set to only allow reporting capabilities or to allow full administrative access. Administrative access can be set using the Administration Tool (section 4.2, **Software**).

3.1.6 Manage PINs

The Customer is responsible for creating or modifying PINs for user access to VoicePermits and WebPermits. Selectron assumes that PIN management occurs in the Customer's permitting system.

3.1.7 Add New Streets

As new streets are added to the Customer's jurisdiction, the system administrator should add them to VoicePermits; this ensures that appropriate responses are played to caller inquiries. Adding new street names and words requires two steps: creating

the file in the Administration Tool (section 4.2, **Software**) and then recording the name or word using the telephone.

When Professional Voice Recording has been implemented, street name prompts are recorded prior to system delivery. Any new or updated prompts can be recorded for the Customer on a quarterly basis; prompts needing immediate recording, between quarterly updates, are the Customer's responsibility (section 3.1.8, **Record Prompts and Responses**). Note that, in order for Selectron Technologies to identify new streets, they must exist in the VoicePermits database. Access to quarterly voice updates is contingent upon an active Support and Maintenance plan; refer to the Contract for more details.

3.1.8 Record Prompts and Responses

New street words, codes, or system prompts need to be recorded. Recording prompts and responses creates an audio file for use by VoicePermits during a call. Each word or phrase has a unique identifying number that is used in recording. After a report is generated showing the number of unrecorded prompts, a system administrator can call the system to record the missing prompts.

When purchasing Professional Voice Recording, all system prompts (including call flow), correction codes, and street names are recorded prior to system delivery. However, non-system prompt types and messages must be recorded by the Customer; refer to section 2.1.2.8, **Professional Voice Recording**, for a list of non-system prompts. Training on how to record prompts and responses is provided during system installation (section 4.4.3, **Provide Administrative Training**).

3.1.9 Monitor System Status

Using the system monitor, the Customer's system administrator can view the status of the VoicePermits system. The status of each line is displayed, complete with the actions (if any) that are currently taking place.

3.1.10 Define Fax Template Location

When callers request faxes, the information is sent in a pre-determined template. The Customer is responsible for creating a template in RTF format and uploading it using the Administration Tool (section 4.2, **Software**). Each implemented module with faxing functionality may require a separate template. Selectron Technologies' Project Manager assists the Customer in determining the number of templates required to ensure system functionality.

3.1.11 Assign E-mail Field

In order for callers to receive an electronic copy of information, the Customer must assign a field to hold the e-mail address in the permitting database.

3.1.12 Set Payment Processing Guidelines

Setting payment processing guidelines consists of updating the password VoicePermits uses to securely interface with the payment vendor and directing how the interactive solution processes payments from callers. Using the Administration Tool (section 4.2, **Software**), the system administrator can update the payment vendor password, change credit card authorization options, and test payment processing.

3.1.13 Set Maximum Message Length

The VoicePermits application allows callers to leave messages for inspectors. By setting the maximum message length, the system administrator can determine a specific amount of time for messages. While messages can be any length, Selectron Technologies recommends that they be no longer than the automatic default of five minutes.

3.1.14 Define Schedule Days

The VoicePermits application offers callers a specific number of days ahead for inspection scheduling. The system administrator can set the number of available days using the Administration Tool (section 4.2, **Software**). The Customer's business rules determine how many days forward VoicePermits will offer callers.

3.1.15 Maintain Inspector Names and Contact Numbers

In order for the speak inspector information (section 2.1.2.11, **Speak Inspector Information**) and Who's My Inspector Outbound Notification (section 2.5.2.4, **Outbound Notify: Who's My Inspector Notification**) functionality to perform as defined, VoicePermits includes an audio file for each inspector's name. These audio files must remain current to ensure that an audio recording exists for every inspector. With the Professional Voice Recording module, Selectron records all inspector names prior to system implementation. Additionally, if the Customer maintains an active support and maintenance plan, Selectron updates the list of audio files on a quarterly basis. Between quarterly updates, the Customer can record inspector names using the Administration Tool and a telephone (section 3.1.8, **Record Prompts and Responses**).

Additionally, the Customer must ensure that the relevant inspector name and phone number information remains current in the permitting system.

3.1.16 Maintain Inspection Conditions

Selectron configures inspection conditions for each inspection type prior to system implementation (section 2.1.2.4, **Modify Inspection Conditions**). System administrators must update conditions as necessary when business rules affecting condition logic change.

3.1.17 Determine Inspection Groups

After initial implementation, the Customer is responsible for determining the Inspection Groups used for VoicePermits' Limit Inspections module. Inspection Groups are created using the Administration Tool (section 4.2, **Software**). Inspection Groups consist of a series of inspection types that are sub-sets of the defined group. The group could contain directly related inspection types (i.e., all plumbing inspections could be grouped under Plumbing) or specific inspections requiring limitations could be placed within their own group (i.e. a rough plumbing inspection type might need limitation, while all other plumbing inspections might not).

Selectron Technologies' Project Manager assists the Customer with the initial group configuration.

3.1.18 Maintain Inspection Prerequisites

The System administrator is responsible for adding, editing, and deleting VoicePermits' inspection prerequisites using the Administration Tool (section 4.2, **Software**). When inspection prerequisites are added, the system administrator must also record corresponding system prompts (section 3.1.8, **Record Prompts and Responses**). Selectron Technologies assists the Customer with the initial prerequisite configuration.

3.1.19 Maintain Inspection Limitation

When VoicePermits' Limit Inspections module is implemented, system administrators are responsible for setting inspection limits for each designated inspection group. Additionally, the Customer can configure the permitting database polling schedule using the Administration Tool. VoicePermits regularly polls the permitting database to determine inspection availability.

If the Customer is using another vendor's product to schedule inspections on the web, the Customer is responsible for ensuring that the inspection limit is respected.

3.1.20 Verify Inspection Availability

When VoicePermits' Limit Inspections module is implemented, the Customer's staff must monitor the Inspection Calendar web page prior to scheduling inspections in the permitting database. If inspection availability is not checked, the daily inspection limit may be exceeded.

To view the Inspection Calendar web page, staff members need Microsoft Internet Explorer® 5.0, Mozilla Firefox™ 1.0, or newer, with access to the Customer's intranet.

3.1.21 Maintain Correction Codes

The system administrator is responsible for adding, editing, and deleting VoicePermits' correction codes using the Administration Tool (section 4.2, **Software**). When correction codes are added, the system administrator must also create a corresponding recording of the description to be played back to callers (section 3.1.8, **Record Prompts and Responses**). Selectron Technologies assists the Customer with the initial code configuration.

When Professional Voice Recording is implemented, prompt recording for correction codes is done prior to system delivery. The Customer is responsible for recording any subsequent correction code prompts. Selectron Technologies offers additional prompt recording of correction codes on a time and materials basis.

3.2 WebPermits

The tasks listed in this section apply to the WebPermits application.

3.2.1 Run System Reports

System administrators can generate, view, save, and print system usage reports using Microsoft Internet Explorer® 5.0, Mozilla Firefox 1.0, or newer, with access to the Customer's intranet. Reports can be saved as PDF files from the browser.

System administrators can also configure reports for automatic delivery to designated e-mail addresses. Auto-delivery frequency options include monthly, weekly, and daily.

Table 2 lists the reports available with this implementation.

Table 2 System Reports

Report	Definition
System Usage	Web sessions initiated by day for selected date range
System Usage by Hour	Web sessions initiated by hour for selected date range
Action Report	Number of times a web page was selected for specified date range
Web Activity Details	Displays all actions that a user made during a web session
Payment Detail Report	Payment type with date, time, utility account numbers, and Confirmation numbers
Web Activity Details	Displays all actions that a user made during a session

3.2.2 Set Payment Processing Guidelines

Setting payment processing guidelines consists of updating the password WebPermits uses to securely interface with the payment vendor and directing how the interactive solution processes payments from callers. Using the Administration Tool (section 4.2, **Software**), the system administrator can update the payment vendor password, change credit card authorization options, and test payment processing.

3.2.3 Define Schedule Days

The WebPermits system offers citizens a specific number of days ahead for inspection scheduling. The system administrator can set the number of available days using the Administration Tool (section 4.2, **Software**). The Customer's business rules determine how many days forward WebPermits offers citizens. WebPermits uses the same scheduling configuration as VoicePermits and this setting only needs to be set once for both applications.

3.2.4 Control Administrative Access

The system administrator is responsible for creating and deleting administrative accounts and editing account access levels. Access levels can be set to only allow reporting capabilities or to allow full administrative access. Administrative access can

be set using the Administration Tool (section 4.2, **Software**). Administrator accounts are for both the VoicePermits and WebPermits applications.

3.3 VoiceCourt

The tasks listed below apply to the VoiceCourt application.

3.3.1 Run System Reports

System administrators can generate, view, save, and print system usage reports using Microsoft Internet Explorer® 5.0, Mozilla Firefox 1.0, or newer, with access to the Customer's intranet. Reports can be saved as PDF files from the browser.

System administrators can also configure reports for automatic delivery to designated e-mail addresses. Auto-delivery frequency options include monthly, weekly, and daily.

Table 3 lists the reports available with this implementation.

Table 3 System Reports

Report	Definition
System Usage	Calls received by day for selected date range
System Line Usage	Calls received by line for selected date range
System Usage by Hour	Calls received by hour for selected date range
System Statistics	Displays consolidated usage information, including time in use and call time information
Action Report	Number of times the application functions were selected for selected date range
Payment Detail Report	Payment type with date, time, court account numbers, and Confirmation numbers
Fax Activity Report	Fax status, document, date, time, and number
Email Activity Report	Date sent, document type, confirmation number, and account/citation number

3.3.2 Set Operator Transfer Extension

By setting the operator transfer extension, system administrators can determine where VoiceCourt transfers calls. Calls can be transferred to different extensions depending on the time of day and what type of information the caller is requesting. Operator transfer settings are managed using the Administration Tool (section 4.2, **Software**).

3.3.3 Set Office Hours and Holidays

When office hours and holidays have been set, the system checks against the office hours and holiday schedule to determine the correct action when transferring calls.

3.3.4 Append an Optional Greeting

Appending an optional greeting instructs the system to play an additional greeting message when callers access VoiceCourt. The optional greeting can be used to inform callers of changes in office hours or upcoming holidays. System administrators are responsible for recording the optional greeting. Training on how to record prompts and responses is provided during system installation (section 4.4.3, **Provide Administrative Training**).

3.3.5 Control Administrative Access

The system administrator is responsible for creating and deleting administrative accounts, editing account access levels, and changing the prompt recording access PIN for the interactive solution. Access levels can be set to only allow reporting capabilities or to allow full administrative access. Administrative access can be set using the Administration Tool (section 4.2, **Software**).

3.3.6 Add New Streets

As new streets are added to the Customer's jurisdiction, the system administrator should add them to the VoiceCourt application; this ensures that appropriate responses are played to caller inquiries. Adding new street names and words requires two steps: creating the file in the Administration Tool (section 4.2, **Software**) and then recording the name or word using the telephone.

3.3.7 Record Prompts and Responses

New street words, codes, or system prompts need to be recorded. Recording prompts and responses creates an audio file for use by VoiceCourt during a call. Each word or phrase has a unique identifying number that is used in recording. After a report is generated showing the number of unrecorded prompts, a system administrator can call the system to record the missing prompts.

When purchasing Professional Voice Recording, all system prompts (including call flow) are recorded prior to system delivery. However, non-system prompt types and messages must be recorded by the Customer; refer to section 2.3.2.2, **Professional Voice Recording**, for a list of non-system prompts. Training on how to record prompts and responses is provided during system installation (section 4.4.3, **Provide Administrative Training**).

When the Spanish Language module is implemented, recording and translation of prompts from English to Spanish is the Customer's responsibility. Dates, numbers, ordinals, currencies, and letters are already translated to the proper language.

When Professional Voice Recording has been implemented in conjunction with the Spanish Language module, all system prompts (including call flow) are translated and recorded in Spanish prior to installation. Street names and non-system prompt and message types are not included and require Customer translation and recording. Refer to section 2.3.2.2, **Professional Voice Recording**, for a list of non-system prompts and messages.

3.3.8 Monitor System Status

Using the system monitor, the Customer's system administrator can view the status of the VoiceCourt system. The status of each line is displayed, complete with the actions (if any) that are currently taking place.

3.3.9 Define Fax Template Location

When callers request faxes, the information is sent in a pre-determined template. The Customer is responsible for creating a template in RTF format and uploading it using the Administration Tool (section 4.2, **Software**). Each implemented module with faxing functionality may require a separate template. Selectron Technologies' Project Manager assists the Customer in determining the number of templates required to ensure system functionality.

3.3.10 Assign E-mail Field

In order for callers to receive an electronic copy of information, the Customer must assign a field to hold the e-mail address in the court database.

3.3.11 Set Payment Processing Guidelines

Setting payment processing guidelines consists of updating the password VoiceCourt uses to securely interface with the payment vendor and directing how the interactive solution processes payments from callers. Using the Administration Tool (section 4.2, **Software**), the system administrator can update the payment vendor password, change credit card authorization options, and test payment processing.

3.3.12 Maintain Warrant Options

Selectron configures warrant options logic for each case type prior to system implementation (section 2.3.1.4, **Warrant Options**). System administrators must update conditions as necessary when business rules affecting condition logic change.

3.4 WebCourt

The tasks listed in this section apply to the WebCourt application.

3.4.1 Run System Reports

System administrators can generate, view, save, and print system usage reports using Microsoft Internet Explorer® 5.0, Mozilla Firefox 1.0, or newer, with access to the Customer's intranet. Reports can be saved as PDF files from the browser.

System administrators can also configure reports for automatic delivery to designated e-mail addresses. Auto-delivery frequency options include monthly, weekly, and daily.

DEFAULTS

4.1 Events of Default. Each of the following shall be deemed an "Event of Default" under this MOU.

A. Any party to this MOU fails to pay an amount under this Agreement when due.

B. Any party to this MOU fails to perform any of its duties or obligations hereunder or to abide by any covenant or representation contained in this MOU.

Notwithstanding the provisions stated above, no default, including one of the above described defaults, shall constitute an Event of Default unless one or more of the other parties to this MOU gives the defaulting party to this MOU notice in writing of the default and such default remains uncured for a period of thirty (30) days if the default is capable of cure. If such default is capable of cure, but not within thirty (30) days, it shall not be an Event of Default if the defaulting party commences to cure the same within the above-referenced thirty (30) day period and prosecutes such cure to completion with all due diligence.

4.2 Remedies for Default.

A. Remedies of Authority. If the City is the defaulting party, and an Event of Default has occurred, the City shall be entitled to exercise all rights that it has under the terms of this MOU and may withhold further funding. In addition, subject to Section 4.5 of this MOU, upon an Event of Default by the City, the Authority shall have the right to bring any suit, action or proceeding at law or in equity to enforce its rights under the provisions of this MOU and to require that the City carry out the agreements that it has made hereunder. The suit may be for specific performance, for damages, or for both, and the Authority may also, by action in equity, enjoin any acts or things which are unlawful or in violation of the Authority's rights under this MOU.

B. Remedies of City. Subject to Section 4.5, in the Event of a Default by the Authority hereunder, the City shall be entitled to bring a lawsuit at law or in equity seeking damages from the Authority on account of the breach, and the City shall also be entitled to bring a lawsuit for specific performance to order the Authority to comply with its duties under this MOU, or bring an action for an injunction to enjoin acts of the Authority which may be unlawful or in violation of the rights of the City under this MOU.

4.3 Mutual Remedies. In addition to the remedies stated in Sections 4.1 and 4.2 of this MOU, the Authority and the City shall have all other rights and remedies afforded them by law or in equity for the enforcement of this MOU if an Event of Default has occurred and one of the other parties is the defaulting party. Subject to Section 5.5, no right or remedy conferred by this MOU is intended to be exclusive of any other right or remedy, and each and every said right or remedy is cumulative in addition to any other right or remedy given under this MOU or now or hereafter existing at law or in equity, or by statute.

4.4 No Implied Waivers. The delay or omission of any party in exercising any right or power accruing upon any event of default hereunder shall not exhaust or impair any such right or power, and shall not be construed to be a waiver of any such default or acquiescence therein. Every power or remedy given by this MOU or at law or in equity may be exercised from time to time and in any manner as may be deemed expedient.

4.5 Effect of Waiver. No waiver of any individual default hereunder by any party shall extend toward any subsequent or other event of default hereunder, or shall impair any rights or remedies for any such subsequent or other event of default hereunder.

ARTICLE V
MISCELLANEOUS

5.1 Indemnification.

A. Subject to the limitations of NRS Chapter 41, the City agrees to protect and indemnify and hold the Authority, its directors, officers and employees and agents and each of them, harmless from and against any and all claims, losses, expenses, suits, actions, decrees, judgments, awards, attorneys' fees, and court costs which the Authority, its directors, officers, employees or agents or any combination thereof may suffer or which may be sought against or recovered or obtained from them as a result of or by reason of or arising out of or in consequence of (i.) any act or omission, negligent or otherwise, of the City, or any of its contractors, subcontractors, agents, licensees or anyone who is directly employed by the City, or any of its representatives, agents or licensees, in connection with the Project.

B. Subject to the limitations of NRS Chapter 41, the City agrees that it shall at its sole cost and expense defend the Authority, its directors, officers, employees and agents and each of them in any suit or action for which the City has agreed to indemnify the Authority, its directors, officers, employees or agents. The Authority shall promptly notify the City of any claim made against it for which it may seek indemnification and shall fully cooperate with the City in the defense and/or settlement thereof. If the City fails to defend the Authority as herein

provided, the Authority shall have the right but not the obligation to defend the same and charge all of the direct or incidental costs of such defense, including, without limitation, any attorneys' fees or court costs to, and recover the same from, the City.

C. No indemnification is required to be paid by the City for any claim, loss or expense arising from the willful misconduct or gross negligence of the Authority or its directors, officers or employees.

D. The provisions of this Section 5.1 shall survive the termination of this MOU for a period of twelve (12) months thereafter. It is not intended by the parties hereto that the indemnification provided in this Section 5.1 revive any claim of, or extend, any statute of limitations, which has run or expired against any party or third party.

5.2 No Third-Party Beneficiaries. None of the provisions of this MOU is intended to, and none shall, constitute the general public, any member thereof, or any other person a beneficiary or third party beneficiary hereunder or to authorize anyone who is not a party to this MOU to maintain any suit for personal injuries, other damage, or any other cause of action, pursuant to this MOU.

5.3 Delay of Performance. The parties' respective obligations hereunder are subject to the following:

A. Force Majeure. B. Reasonable Requests for Extension. If the party expected to perform reasonably requests an extension of time to perform, that request will not be unreasonably denied. This clause shall not apply to any delay exceeding one (1) year from the date for performance specified herein.

5.4 Contract Interpretation. All questions concerning interpretation or clarification of this Agreement will be resolved if possible by the representatives of the Authority and the City administering this Agreement. If those parties are unable to resolve the question, any party to this Agreement involved in such dispute may request in writing a meeting of the City Manager of the City, and the President/CEO or designeess to attempt to resolve the question. The parties involved in such dispute agree to use their best efforts to cause those individuals to meet within five (5) days of a request. If there is no resolution to the question within ten (10) days after such request any party involved in such dispute may request binding arbitration as provided in Section 4.5.

5.6 Successors and Assignments. This MOU shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. Except as otherwise permitted herein, no assignment of this MOU or any right or obligation hereunder by any party hereto shall be valid unless the other party hereto consents to such assignment in writing.

5.7 Entire Agreement. This MOU, including any exhibits hereto constitutes the entire agreement of the parties hereto. The parties may modify this MOU, but only by a written instrument signed by each party.

5.8 Further Assurances. The City and the Authority agree to do such further acts and things and to execute and deliver to the other such additional certificates, documents and instruments as they may reasonably require or deem advisable to carry into effect the purposes of this MOU. Without limit or foregoing, the Authority will execute and acknowledge the instruments reasonably requested by the City evidencing termination of this MOU.

Standards for Participating Destinations

Authenticity is an important factor in deciding what destinations appear on the website. More important to the traveler, however, is destination "honesty," i.e., ensuring that the traveler is not misled about the heritage experience, the destination or event and that basic information, such as hours of operation, admission fees, etc., is clearly stated.

Destinations must:

- Be open to the public and maintain regular hours or offer public access to historic areas, districts or regions.
- Be safe and pose no threat to visitors.
- Not employ negative historic preservation and site stewardship practices.
- Represent the heritage, history and/or culture of the region, state, city or community.
- Promote the destination in a way that preserves and protects the resource.
- Provide adequate interpretation to enhance the visitor experience.
- Agree to work with the National Trust's Heritage Travel business to ensure that the site and experience are accurately described, especially in areas of historic, heritage and cultural experiences.
- Work, or be willing to do so, with local, regional and statewide tourism and preservation organizations to take advantage of opportunities and increase awareness of the importance of heritage to a community.

WHEREAS, the City Council, by resolution heretofore adopted, has authorized the proper officers of the City to execute a construction contract on behalf of the City in accordance with NRS 271.335, for the Project, all as provided by law; and

WHEREAS, the City Council has heretofore determined that a portion of the cost and expense of the Project is to be paid by special assessments levied against the benefited lots, tracts and parcels of land in the District which the City Council has determined will receive special benefits (and corresponding market value increases) from the improvements in the Project; and

The total cost of the District shall be apportioned and the amount to be assessed shall be as follows:

Total Cost	Estimated Amount of Special Assessments	Amount Available from Other Sources
$227,512.75	$218,356.75	$9,156.00

Section 3. The final assessment roll for the District has been examined by the City Council, is tentatively approved, and is ordered filed in the office of the City Clerk.

Section 4. Wednesday, July 7, 2010 at 1:00 P.M., at the City of Las Vegas Council Chambers, 400 Stewart Avenue, Las Vegas, Nevada, be, and the same hereby is, fixed as the date, time and place when the City Council will hear and consider complaints, protests and objections to the final assessment roll, to the amount of each of the assessments, and to the regularity of the proceedings in making such assessments (whether made verbally or in writing) by the owners of the assessable property specially benefited by the Project in "City of Las Vegas, Nevada, Improvement District No. 1513 Via Olivero Avenue And Valadez Street (East Of Cimarron Road)" and proposed to be assessed, or by any party or person interested, and by all parties or persons aggrieved by such assessments.

Section 5. The City Clerk shall give notice by publication in the Las Vegas Review-Journal, a newspaper of general circulation in the City and a newspaper of general circulation in the District. Such notice to be published at least once a week, for three consecutive publications, by three weekly insertions, the first such publication in said newspaper to be at least 15 days prior to the date of the protest hearing. It shall not be necessary that the notice be published on the same day of the week, but not less than 14 days shall intervene between the first publication in such newspaper and the last publication in the same newspaper. Service by publication shall be verified by the affidavit of the publishers and filed with the City Clerk. In accordance with NRS 271.380 (2), the City Clerk or Deputy City Clerk shall also give notice by registered or certified mail by depositing a copy of such notice in the United States mail, postage prepaid, as first-class mail, at least 20 days prior to such hearing, to the last known owner or owners of each tract being assessed at his or their last known address or addresses. Proof of mailing shall be made by the affidavit of the City Clerk or Deputy City Clerk and such proof shall be filed with the City Clerk, provided however, that failure to mail any such notice or notices shall not invalidate any assessment or any other proceedings concerning the District. Proof of the publication and proof of the mailing shall be maintained in the permanent records of the office of the City Clerk until all special assessments and special assessment bonds issued (if such special assessment bonds are hereafter issued) appertaining thereto, have been paid in full, both principal and interest, or any claim is barred by an appropriate statute of

limitations. The City Council of City of Las Vegas hereby determines that the manner of giving notice herein provided by publication and by registered or certified mail is reasonably calculated to inform the parties of the proceedings concerning the District and the levying of assessments, which may directly and adversely affect their legally protected interests. Such notice shall be provided in NRS 271.380 and shall be substantially in the following form:

(Start of Form)

NOTICE OF THE FILING OF FINAL ASSESSMENT ROLL, OF THE OPPORTUNITY TO FILE WRITTEN COMPLAINTS, PROTESTS, OR OBJECTIONS, AND OF THE ASSESSMENT HEARING, ALL CONCERNING THAT CERTAIN AREA TO BE ASSESSED FOR IMPROVEMENTS WITHIN THE CITY OF LAS VEGAS, NEVADA, SPECIAL IMPROVEMENT DISTRICT NO. 1513 – VIA OLIVERO AVENUE AND VALADEZ STREET (EAST OF CIMARRON ROAD).

NOTICE IS HEREBY GIVEN, that the Final Assessment Roll No. 2010-04 for City of Las Vegas, Nevada, Special Improvement District No. 1513 – Via Olivero Avenue And Valadez Street (East Of Cimarron Road) (hereinafter the "District") in and for the City of Las Vegas in the County of Clark, State of Nevada, which has been made out by the City Council of City of Las Vegas, together with the City Engineer, has been filed on June 2, 2010, in the office of the City Clerk and since such date, the final assessment roll has been, and now is available for examination by any interested person during regular office hours, Monday through Friday 8:00 a.m. until 5:00 p.m. The boundaries of the District are described in the Special Improvement District No. 1513 Creation Ordinance heretofore adopted (hereinafter the "Creation Ordinance"). The boundaries of the District, which include the location of the Project and the lots, tracts and parcels of land to be assessed, shall be the exterior boundary of each parcel of property fronting a street to be improved by the improvements (as described below) or fronting a cul-de-sac which abuts or fronts a street to be improved by the improvements. The streets to be improved by the improvements are:

VALADEZ (WEST SIDE) - from the centerline of Via Olivero Avenue north along Valadez approximately 340 feet (60-foot right-of-way)

VIA OLIVERO (NORTH SIDE) – from the centerline of Valadez Street west along Via Olivero Avenue approximately 600 feet (60-foot right-of-way)

The amounts to be assessed for the improvements in the District will be levied upon all tracts in the District, i.e., upon all abutting tracts in proportion to the special benefits derived (as shown by the estimated benefits and corresponding market value increases) provided, however, that an equitable adjustment will be made for assessments to be levied against wedge or "V" or other irregularly-shaped lots or tracts of lands, if any, and for any lot, tract or parcel not specially benefited by the improvements so that assessments according to benefits are to be equal and uniform.

The assessments will be levied on a front foot basis, provided those tracts which front a cul-de-sac and which abut or front a street or streets being improved will be assessed on a "unit lot" basis, i.e., all lots abutting the cul-de-sac are to be assessed the same amount based upon the front footage of those lots abutting the streets or streets being improved which also abut the cul-de-sac. Each property owner will be assessed for the cost of a 23 foot wide pavement section, curb, gutter, sidewalks and residential driveway approaches, where not already existing. The owners of property who elect to have water or sewer installed will be assessed on a per service or unit lot method for the installation of sewer laterals or water laterals. THE CITY HAS NO OBLIGATION TO PROVIDE WATER OR SEWER SERVICE TO ANY PROPERTY WITHIN THE DISTRICT REGARDLESS OF WHETHER THE CITY COUNCIL PROCEEDS WITH ALL OR ANY PART OF THE PROJECT.

Such basis of assessments has been designated by the City Council in the Creation Ordinance heretofore adopted. The portion of the costs to be assessed against, and the maximum amount of benefits estimated to be conferred upon each lot, tract or parcel of land or property in the District is stated in the final assessment roll. The City Council has determined that each of these tracts will receive special benefits (and corresponding market value increases) from the improvements in the Project.

The City Council will meet to hear and consider all complaints, protests, and objections to said final assessment roll, to the amount of the assessments, and to the regularity of the proceedings in making such assessments, by the owners of the property specially benefited by, and proposed to be assessed for, the improvements in the District. Any person interested and any parties aggrieved by such assessments may be heard on Wednesday, July 7, 2010, at 1:00 p. m. at the City of Las Vegas Council Chambers, 400 Stewart Avenue, in Las Vegas, Nevada. Any complaint, protest, or objection to the regularity, validity, and correctness of the proceedings, of the final assessment roll, of each assessment contained therein, and of the amount thereof levied on each lot, tract or parcel of land, shall be deemed waived unless filed in writing with the City Clerk, on or before Thursday, July 1, 2010, i.e., at least three days prior to the date set for the assessment hearing.

At the time and place so designated for the hearing, the City Council shall hear and determine all complaints, protests, and objections to the regularity of the proceedings in making such assessments, the correctness of such assessments, the amount levied on any particular lot, tract or parcel of land to be

assessed, the amount of the benefits and corresponding market value increases, which have been so made in writing or verbally. The City Council shall further have the power to adjourn such hearing from time to time, and by resolution shall have power, in its discretion, to revise, correct, confirm, or set aside any assessment and to order that such assessment may be made de novo. The owners of the property to be assessed are advised that this is the final chance to present any evidence as to the amount of the assessments (or other matters to be considered at the hearing) to the City Council. If a person objects to the final assessment roll or to the proposed assessments:

(1) He is entitled to be represented by counsel at the hearing;

(2) Any evidence he desires to present on these issues must be presented at the hearing; and

(3) Evidence on these issues that is not presented at the hearing may not thereafter be presented in an action brought pursuant to NRS 271.395.

Assessments shall be due and payable at the office of the City Treasurer without interest and without demand within 30 days after the ordinance levying the assessments becomes effective. All or any part of such assessments may also, at the election of the owner, be paid thereafter in forty (40) substantially equal semi-annual installments of principal and interest until paid in full, with interest in all cases on the unpaid and deferred installments of principal from the effective date of the assessment ordinance. After the adoption of the assessment ordinance and before assessment bonds are issued (or if bonds are not issued) the City shall provide the maximum rate of interest on the unpaid and deferred installments of assessments. If assessment bonds are sold, such rate will not exceed by more than one percent (1%) the highest rate of interest on the assessment bonds for the District. The effective interest rate on the assessment bonds of the District will not exceed the statutory maximum rate, i.e., will not exceed by more than three percent (3%) the "Index of Twenty Bonds", which is most recently published before the time bids for such bonds are received, or at a time a negotiated offer for the sale of such bonds is accepted. Penalties, at the rate of two percent (2%) (or at any higher rate authorized by statute, or any lower rate, which may be zero percent, for such period as determined by the City Director of Finance and Business Services) per month (not prorated for any portion of the month) on the unpaid balance of the assessment and accrued interest, shall be due for delinquencies. The owner of any property not in default

as to any assessment installment or payment may, at any time, pay the whole or any installment of the unpaid principal with interest accruing thereon to the next interest payment date and the payment of a penalty for such prepayment of up to three percent (3%) of the installment or installments of principal so prepaid. The City Council, in the ordinance levying the assessments, will establish a prepayment penalty or premium of up to three percent (3%) of the principal of deferred installments so prepaid.

Pursuant to NRS 271.357, the City has established a procedure to allow any person whose principal residence will be included in the District to apply for a hardship determination. A person whose application for a hardship determination has been approved by the City Council is entitled to have the principal amount of the assessment postponed, but is required to pay the interest on the unpaid balance of the assessment at the same rate and upon the same terms as established by the City for the assessments. A person desiring to apply for a hardship determination shall file an application no later than July 1, 2010, with the Clark County Department of Social Services (CCSS), 1600 Pinto Lane, Las Vegas, Nevada 89106. Please contact CCSS at (702) 455-8687 for a pre-qualification screening.

Pursuant to NRS 271.395, within 15 days immediately succeeding the effective date of the assessment ordinance to be adopted following the hearing, any person who has filed a complaint, protest, or objection in writing shall have the right to commence an action or suit in any court of competent jurisdiction to correct or set aside such determination. Thereafter, all actions or suits attacking the regularity, validity, and correctness of the proceedings, of the final assessment roll, of each assessment contained therein, and of the amount of the assessment levied on each tract, including, without limiting the generality of the foregoing, the defense of confiscation, shall be perpetually barred.

Dated this ____ day of _____, 20__.

The owner or owners of any lot, tract or parcel of land which is assessed in such final assessment roll, whether named or not in such roll, or any person interested, or any parties aggrieved, may, within three (3) days prior to the date set for the hearing, file with the office of the City Clerk his or her complaints, protests, or objections in writing to said assessment.

Section 7. Whenever any notice is mailed as herein provided, the fact that the person to whom it was addressed does not receive it shall not in any manner invalidate or affect the legality of the notice thereby given.

---

Staff has worked closely with local, tribal, and federal agencies along with interested stakeholders to develop a concept map for a new urban national park unit. This follow up resolution provides a map that highlights that concept and meets City objectives for federal legislation that would designate land within City limits for a national park unit, expand the disposal boundary to include lands to be annexed to the City for future urban development, establish corridors for infrastructure, and convey land to the City for economic development.

SECOND RESOLUTION SUPPORTING THE DESIGNATION OF AN AREA KNOWN AS THE UPPER LAS VEGAS WASH AS AN URBAN NATIONAL PARK UNIT MANAGED BY THE NATIONAL PARK SERVICE

WHEREAS, on November 18, 2009, the City Council adopted Resolution R-78-2009 for the purpose of urging the United States Congress, the U.S. Department of Interior, and the National Park Service to make a land management designation with respect to the Upper Las Vegas Wash that is appropriate for the protection of the resources, done in a timely manner to avoid further degradation of the area, and with appropriate funding to fully develop the area's scientific, educational and recreational potential; and

WHEREAS, the Council desires to follow up Resolution R-78-2009 with a second resolution indicating the Council's support for actions that would meet the objectives of the concept map attached to this Resolution, which objectives are to designate land within City limits for a national park unit, expand the disposal boundary to include lands to be annexed to the City for future urban development, establish corridors for infrastructure, and convey land to the City for economic development.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF LAS VEGAS, by means of this Resolution, to urge the United States Congress, the U.S. Department of Interior, and the National Park Service to make a land management designation that:

SECTION 5: IMPROVEMENTS TO THE SITE AND PROJECT BUDGET. The Tenant shall make improvements to the Site, or to the buildings, fixtures or appurtenances thereon, according to the Scope of Work and Tentative Schedule of Improvements, which is attached hereto as Attachment " 5 " and by this reference is made a part hereof. Within 60 days of execution of this Agreement by the Agency, Tenant agrees to commence, or cause the commencement of, rehabilitation and improvement of the Site, including the Façade Easement Area, pursuant to the plans and other documents submitted by Owner and/or Tenant and approved by Agency in accordance with the EVIP Guidelines. Tenant shall complete the improvements within 180 days of commencement of work. Additional time may be given upon approval of the Agency, which approval shall not be unreasonably

withheld. The improvements to the site also shall be referred to as the "Project" hereinafter. The Agency shall maintain a right of access to the Site, provided that the Agency gives the Owner and/or Tenant a minimum of twenty-four (24) hours written, advance notice prior to entering the Site.

SECTION 6: CONTRACTOR SELECTION REQUIREMENTS. If the Project exceeds $10,000, then the Tenant in compliance with NRS 279.478 must obtain three (3) or more competitive bids from properly licensed contractors. If the Tenant is unable to obtain (3) or more competitive bids, the Tenant shall provide the Agency, upon request, with documentation detailing when and which licensed contractor(s) were contacted.

SECTION 7: DESIGN REVIEW COMMITTEE. For reviewing the architectural and engineering design of the Project, the Agency has appointed a Design Review Committee comprised of one or more staff members from the following City of Las Vegas municipal departments: Office of Business Development; Planning and Development Department; Land Development, Public Works; Development Coordination, Public Works; and City of Las Vegas Department of Building & Safety. At its discretion, the Agency may solicit input from additional City staff depending on the individual needs of the Project. The Design Review Committee shall meet on an ad hoc basis. The Design Review Committee shall recommend approval or disapproval of the Project Scope of Work. If the Project is disapproved, the Agency shall retain the right to ask the Owner and/or Tenant to make changes to the proposed Scope of Work.

SECTION 8: COMPLIANCE WITH APPLICABLE DEVELOPMENT STANDARDS. The Tenant must comply with all development standards applicable to the Scope of Work, including but not limited to, the Zoning Code of the City of Las Vegas, the Building Code of the City of Las Vegas, and the Fire Code of the City of Las Vegas. Additional development standards may apply depending on the specific location of the Site.

SECTION 10: UNRELATED IMPROVEMENTS. Nothing herein is intended to limit, restrict or prohibit the Owner and/or Tenant from undertaking any other work in or about the subject premises which is unrelated to Entertainment VIP provided for in this Agreement.

SECTION 11: COMPLIANCE WITH THE REDEVELOPMENT PLAN AND EMPLOYMENT PLAN. The Agency finds that the Project as contemplated by this Agreement complies with the Entertainment VIP Guidelines and therefore would be deemed a substantial benefit to the Redevelopment Area. The Agency finds that the Project, upon completion, would achieve one or more of the following:

1. Encourage new commercial development;
2. Create or retain jobs for nearby residents;
3. Increase local revenues from private revenue sources;
4. Increase levels of human activity in the Redevelopment Area;
5. Possess attributes that are unique, either as to type of use or level of quality and design;
6. Require for their construction, installation or operation the use of qualified and trained labor; or
7. Demonstrate greater social or financial benefits to the community that would a similar set of buildings, facilities, structures or other improvements not paid for by the Agency.

The Agency has also considered the opinions of persons who reside in the Redevelopment Area or the immediate vicinity of the Redevelopment Area. In addition, the Agency has compared the level of spending

proposed by the Agency and the projections of future revenue made on the buildings, facilities, structures or other improvements.

The Tenant has declared that no other reasonable means of financing are available to undertake the improvements to the Property because the return on investment is not reasonable and the improvements are being financed through cash on hand and/or debt financing through a private lender. Furthermore, the Tenant would not undertake the full set of improvements contemplated in the Agreement through resources reasonably available to the Tenant pursuant to the Participant Affidavit and Employment Plan, attached hereto as Attachment " 7 " and by this reference made a part hereof.

The Tenant has also declared and provided the Agency with an Employment Plan, which is attached hereto as Attachment " 7 " and by this reference is made a part hereof. The Tenant, for itself and its successors and assigns, represents that in the construction of improvements on the Site provided for in this Agreement, the Tenant shall not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, marital status, ancestry or national origin.

SECTION 12: CONFLICTS OF INTEREST AND DISCLOSURE REQUIREMENTS. No member, official or employee of the Agency shall have any personal interest, direct or indirect, in this Agreement, nor shall any such member, official or employee participate in any decision relating to this Agreement which affects his personal interests or the interests of any corporation, partnership or association in which he is directly or indirectly interested. The Owner and/or Tenant warrants that it has not paid or given, and will not pay or give, any third party any money or other consideration for obtaining this Agreement. No member, official or employee of the Agency shall be personally liable to the Owner and/or Tenant in the event of any default or breach by the Agency or for any amount which may become due to the Participant or on any obligations under the terms of this Agreement. Pursuant to Resolution RA-4-99 adopted by the governing board of the Agency effective October 1, 1999, Owner and/or Tenant warrants that it has disclosed, on the Disclosure of Principals form attached hereto as Attachment " 6-A " and Attachment "6-B" and incorporated herein by reference, all persons and entities holding more than 1% (one percent) interest in Owner and/or Tenant or any principal member of Owner and/or Tenant. Throughout the term hereof, Owner and/or Tenant shall notify City in writing of any material change in the above disclosure within 15 (fifteen) days of any such change.

The nondefaulting party shall notify the defaulting party that a default exists and that the defaulting party must cure same within thirty (30) days of receipt of the notice of default. The party who so fails or delays must immediately commence to cure, correct or remedy such failure or delay, and shall complete such cure, correction or remedy with reasonable diligence and during any period of curing shall not be in default. In addition to any other rights or remedies, either party may institute legal action to cure, correct or remedy any default, to recover damages for any default or to obtain any other remedy consistent with the purpose of this Agreement. Such legal actions must be instituted in the District Court, County of Clark State of Nevada, in any other appropriate court in that county, or in the Federal District Court in the appropriate district of Nevada. The nondefaulting party may also, at its option, cure the breach and sue in any court of proper jurisdiction to collect the reasonable costs incurred by virtue of curing or correcting the defaulting party's breach. Further, the nondefaulting party may file legal action to require the defaulting party to specifically perform the terms and conditions of this Agreement. Upon occurrence of an Event of Default by either the Participant or the Agency during the existence of this Agreement, the non-defaulting party, at its option, may institute an action for specific performance of the terms and obligations (including the payment of any monetary obligation) of this Agreement. During the existence of this Agreement and upon the occurrence of a Owner and/or Tenant Event of Default, the Agency shall have the right to terminate, and this Agreement shall so terminate, the date that the written notice of termination is received by the Owner and/or Tenant or such other date as may

be specified in the written notice. In the event of termination of this Agreement by the Agency, the Owner and/or Tenant agrees to return any and all Agency Funds heretofore paid to the Owner and/or Tenant pursuant to the provisions of this Agreement within ten (10) calendar days after the termination date. Failure to return any and all Agency Funds paid to the Owner and/or Tenant shall entitle the Agency to sue the Owner and/or Tenant for specific performance as provided in this Section and to pursue the Agency's remedies, legal and equitable, for such damages as permitted by law.

SECTION 15: TERM. The term of this Agreement shall end upon the completion of all duties and obligations to be performed by each of the parties hereto.

SECTION 16: SEVERABILITY. Whenever possible, each provision of this Agreement shall be interpreted in such a manner as to be valid under applicable law, but if any provision shall be invalidated, it shall be deemed to be severed from this Agreement and the remaining provisions shall remain in full force and effect.

SECTION 17: GOVERNING LAW. The interpretation and enforcement of this Agreement shall be governed in all respects by the laws of the State of Nevada.

SECTION 18: NOTICES. Notices shall be in writing and shall be given by personal delivery, by deposit in the United States mail, certified mail, return receipt requested, postage prepaid, or by express delivery service, freight prepaid, in each case by delivery to the Owner and Tenant and the Agency at the addresses set forth in this Agreement or at such other address as a party may designate in writing. The date notice given shall be the date on which the notice is delivered, if notice is given by personal deliver, or five (5) calendar days after the date of deposit in the mail or with an express delivery service, if the notice is sent through the United States mail.

4. The Facade Easement shall include ancillary rights of ingress and egress over any portion of the Property that is necessary in order to repair and maintain the Facade Improvements located on and within the Facade Easement Area.

5. Grantor covenants by and for himself or herself, his or her heirs, executors, administrators, and assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, any person or group of persons on account of race, color, creed, religion, sex, marital status, national origin, ancestry, age, sexual preference, physical handicap or medical condition in the sale, lease, sublease, transfer, use, occupancy, tenure, or enjoyment of the premises herein conveyed, nor shall Grantor or any person claiming under or through him or her, establish or permit any such practice or practices of discrimination or segregation with reference to the selection, location, number, use or occupancy of tenants, lessees, subtenants, subleases, or vendees in the premises herein conveyed. The foregoing covenants shall run with the land.

6. The Grantee shall not use or exercise any right granted by the Facade Easement or do anything in a manner that will damage or impair the Facade Easement Area or the structural integrity of the building.

7. In the event of a violation of this Agreement by Grantor, the Grantee may, following reasonable notice to Grantor and after allowing thirty (30) days to correct said violation, institute a suit to enjoin such violation and to require the restoration of the Facade Improvements to their prior condition. In the alternative, the Grantee may enter upon the Property, correct any such violation and hold the Grantor and, his or her heirs, successors and assigns, responsible for the costs thereof in accordance with the Facade Easement Agreement and Building Facade Maintenance Agreement.

8. The Facade Easement granted herein shall terminate on the date which is five (5) years from the date of recordation of this Facade Easement Deed.

a. Option Term. The term of the Option (the "Option Term") shall commence thirty (30) days after recordation of the Facade Easement Deed and shall continue until five (5) years from the date of the recordation of this Façade Easement Deed. In order to exercise the Option, the Grantor must give sixty (60) days written notice to the Grantee that it wishes to exercise the Option.

b. Repurchase Price. If the Grantor exercises the Option, the Grantee agrees to sell and the Grantor agrees to repurchase the Facade Easement in an amount equal to the unamortized portion of the Purchase Price amortized on a straight-line basis over five (5) years. The Amortization Schedule is set out in Exhibit C, attached hereto and incorporated herein (the "Amortization Schedule").

c. Title, Escrow and Closing Costs. The Owner shall pay for all title, escrow and closing costs and fees associated with the repurchase of the Facade Easement. The Owner and Agency shall cooperate in good faith and execute such documents and take such actions as may be necessary to effectuate such repurchase.

BUILDING FACADE MAINTENANCE AGREEMENT

THIS AGREEMENT is made this ____ day of _____, 20___, between ARTEMUS W. HAM III, hereinafter referred to as "Owner" and the CITY of LAS VEGAS REDEVELOPMENT AGENCY, a public body, corporate and politic, hereinafter referred to as "Agency" with reference to the following facts:

WHEREAS, Owner is the owner of that real property ("the Property") in the City of Las Vegas, County of Clark, State of Nevada, legally described in Exhibit " A " attached hereto by this reference, commonly known as 500 and 506 Fremont Street, Las Vegas, Nevada and currently designated as Assessor's Parcel Nos.139-34-611-004 and 139-34-611-005; and

WHEREAS, the Property is located within the City of Las Vegas Redevelopment Area (the "Redevelopment Area"), and in furtherance of the Redevelopment Plan for the Redevelopment Area, the Agency approved an Entertainment Visual Improvement Program (the "Entertainment VIP") for the purpose of revitalization and elimination of blighting influences in the Redevelopment Area; and

WHEREAS, Owner and/or tenant has rehabilitated the facades of the property: the area consisting of the building face adjoining the Fremont Street right-of-way and northerly abutting alley right-of-way, or other public areas, including all exterior wall planes, window, doors, fascias, awnings, signage and other architectural projections.

and:

The area consisting of the parking lot adjoining the Fremont Street and Las Vegas Boulevard right-of-way and northerly abutting alley right-of-way, or other public areas, including all signage and

other architectural projections. Agency purchased a Facade Easement for the Property (hereinafter "the Facade Easement") which ensures that the building facades on the Property will be preserved in a manner consistent with the Entertainment Visual Improvement Agreement and Grant of Facade Easement dated _____ (the "EVIP Agreement"); and

WHEREAS, by the terms of said Façade Easement, Owner is required to enter into an agreement for a period of five (5) years giving the Agency authority to lien the Property to ensure that the façade(s) covered by the Façade Easement, legally described in Exhibit " B " attached hereto (the "Façade Easement Area"), will be diligently maintained and that violations will be corrected promptly; and

WHEREAS, this agreement is entered into to ensure that the Property is maintained because both parties recognize that diligent maintenance is an integral part of preservation of the Property and one of the considerations for Agency's purchase of the Façade Easement;

NOW, THEREFORE, IT IS AGREED BETWEEN THE PARTIES AS FOLLOWS:

1. Purpose. The purpose of this agreement is to ensure diligent maintenance of the building facades on the Property facing public streets and/or alleys, the Façade Easement Area, in accordance with the plans approved by the City of Las Vegas Office of Business Development and any other city department that may have issued approvals and/or permits as of the date of this agreement, or as may be otherwise approved by City during the term of this agreement. Copies of the plans for the Façade Easement Area required to be maintained under this agreement and which are incorporated herein by this reference, are on file with the City of Las Vegas in the Office of Business Development, 400 Stewart Avenue, Las Vegas, NV 89101.

2. Duty to Maintain Property. Owner covenants and agrees, for itself, its lessees, successors and assigns during the term of this agreement to diligently maintain and care for the Façade Easement Area in accordance with the plans approved by City. "Diligent maintenance" is persistent upkeep which employs the standard of care necessary to meet all requirements of applicable local ordinances and regulations and standards of workmanship in accordance with the generally accepted standards for maintenance observed by comparable uses located within the City of Las Vegas. In particular, Owner covenants that:

    a) All exterior building facades shall be maintained, repaired, or used in accordance with the City of Las Vegas Building Code and the plans approved by, any and all, appropriate City of Las Vegas department(s) as of the date of this agreement, or as may be otherwise approved by City during the term of this agreement.

    b) The exterior of the buildings and structures shall have effective weatherproofing and waterproofing, including non-deteriorated paint, uncracked or unbroken plaster, sound siding, sealing of doors and windows and adequate and approved roof covering.

c) All exterior doors, door hardware, handles, locksets and latch sets shall be in safe and operable condition, free of cracks, splits, holes, inadequate fastening and warpage.

d) All windows shall be secure, well sealed, unbroken, and with undamaged frames. No window bars, grills or grates of any kind shall be installed without the express approval of the City of Las Vegas Department of Building and Safety.

e) All exterior lighting, including but not limited to security, carport, stairway or balcony, and building lighting, must be operable at all times as required by the City of Las Vegas Building Code.

3. Agency's Right to Cure Owner's Default. Owner shall be in default of this agreement if Owner breaches any of the Owner's obligations under Paragraph 2 above, and the breach is not cured within thirty (30) days (or such longer period as may be specified in the Notice of Breach) after the Agency gives notice ("Notice of Breach") to the Owner of the failure to perform, which Notice of Breach shall specify in reasonable detail the conditions constituting the breach. The City's Director of the Office of Business Development ("Director") (or, if that position no longer exists, an Agency official with comparable duties) or the Director's designee may impose conditions on any extension of time to cure the breach, which conditions may include but are not limited to (i) requiring Owner to post a cash deposit or surety bond in the amount of the estimated cost of curing the breach or default, and (ii) requiring that Owner commence curing the breach or default by a specified date and thereafter diligently and in good faith continue to cure the breach until completion of the cure.

In the event of default, in addition to any other remedies available to Agency at law or in equity, Agency in its sole and absolute discretion may enter the Property and cure the default at Owner's cost at any time after giving not less than thirty (30) days' notice ("Notice of Default") to Owner, which Notice of Default shall state the Agency's intent to enter the Property and shall specify in reasonable detail the work or correction the Agency intends to perform.

4. Hold Harmless. Owner shall waive any and all claims for damage or loss as a result of Agency's entry onto the Property. Owner shall defend, indemnify and hold harmless Agency, its employees, officers, agents and contractors from and against any and all liability, loss, expense, including reasonable attorney's fees or claims for injury or damage caused by or as a result of the Agency, its employees, officers, agents or contractors entry onto the Property. Notwithstanding the foregoing, the above waiver and indemnity shall not apply with respect to any negligent acts or omissions or willful misconduct by the Agency, its employees, officers, agents and/or contractors.

5. Agency's Cost of Cure. If Agency, acting through its own employees or through its contractors, enters the Property and cures the breach or default, Agency shall perform the work in a reasonably efficient, cost effective and competitively priced manner. The cost of curing the default shall be due and payable within ten (10) days after delivery of an invoice to Owner, and if paid at a later date shall bear interest at the rate of 10% per annum from the date of the invoice until Agency is reimbursed by Owner. Any warranties provided by

Agency's contractors shall be assigned to Owner upon Owner's payment in full of the amounts due hereunder.

6. Additional Remedies. The Agency, in addition to the collection procedure set forth above in paragraph 4, may make the cost incurred in maintaining the Property a lien upon the Property by recording a notice with the Clark County Recorder. The lien may also include any and all costs incurred in recording the lien. The notice shall state that the Agency has incurred maintenance costs under the terms of this agreement and shall state the amount, together with the fact that it is unpaid. Such lien shall be immediately released upon Owner's payment of said costs.

7. Notices. Notices required or permitted to be given under the terms of this agreement shall be served personally, or by certified mail, return receipt requested, or by overnight courier, addressed as follows:

AGENCY: City of Las Vegas Redevelopment Agency
400 Stewart Avenue, 2nd Floor
Las Vegas, NV 89101
Attn: Operations Manager

OWNER: 2008 Gray Eagle Way
Las Vegas, NV 89117
Attn: Artemus W. Ham III

and, in the event that Owner hereafter conveys Property, to each successive Owner as shown on the tax rolls for Clark County.

8. Property Owner. If Owner conveys, grants or transfers the Property or a portion thereof to another, such grantee or transferee shall be responsible for complying with the terms and conditions of this agreement as to the Property or as to that portion thereof so conveyed and Owner shall have no further obligation hereunder as to said Property or that portion thereof. If Owner leases the Property or any portion thereof to another, the lease shall provide for Owner's right of entry to perform Owner's obligations under this agreement. The lease also shall provide for Agency's right of entry to inspect the Property for compliance with this agreement and in the event of breach to perform required maintenance in accordance with the procedure set forth in Paragraph 3. Owner shall advise the Director of the Office of Business Development in writing of any changes in address of Owner and of the names and addresses of any subsequent owners of the property or any portion thereof.

9. Miscellaneous Terms and Provisions.

a) If any provision of this agreement is adjudged invalid, the remaining provisions of it are not affected.

b) Notice to Agency or Owner shall be considered to have been given when sent in the manner and to the addresses stated in Paragraph 6 above.

c) This writing contains a full, final and exclusive statement of the agreement of the parties.

d) By executing this agreement Owner, on its behalf and on behalf of any successor in interest, authorizes and grants to Agency or to Agency's agent, permission with 48 hours advance notice to enter upon the Property subject to this agreement to perform inspections of the façade improvements or to perform any work authorized by this agreement in the event of breach by Owner of any covenant set forth in Paragraphs 2 above. However, the Agency shall coordinate the time of such inspections with the Owner in order to minimize the disruption of business or inconvenience to the Owner's customers.

10. Recordation: Covenant Running With the Land for Five Years. Upon recordation of the Façade Easement Deed and execution of this agreement by both parties, the Agency shall record this agreement with the Clark County Recorder's Office. Agency shall provide Owner a copy of the agreement showing the Recorder's stamp.

This agreement pertains to that area of the Property covered by the Façade Easement, and shall run with the land for a period of five (5) years from the date first stated above, including a period of time after the expiration of the Façade Easement. This agreement binds the successors in interest of each of the parties to it.

11. Priority of Mortgage Lien. No breach of the covenants, conditions or restrictions of this agreement shall defeat or render invalid the lien or charge or any first mortgage or deed of trust made in good faith and for value encumbering the Property, but all of said covenants, conditions and restrictions shall be binding upon and effective against any successor to the Owner whose title is derived through foreclosure or trustee's sale, or otherwise, with respect to the Property.

12. Attorneys' Fees. If any party to this agreement resorts to a legal action to enforce any provision of this agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees in addition to any other relief to which it may be entitled. This provision applies to the entire agreement.

13. Estoppel Certificate. Upon written request by Owner or a subsequent owner, Agency shall promptly execute and deliver an estoppel certificate, in a form reasonably approved by the Agency, addressed as indicated in the request, stating that the property is in compliance with this agreement, or not, and stating the amount of any outstanding fees or charges.

IN WITNESS WHEREOF, the parties have executed this agreement on the day and year set forth above.

VIP Participant Affidavit and Employment Plan

Please Print Legibly

STATE OF NEVADA }
} ss:
COUNTY OF CLARK }

I, Sara Jah, Mtiaz Mohammad, being first duly sworn, depose and state under penalty of perjury as follows:

1. I am a corporate officer, managing member, or sole proprietor of the Hoohah Cafe, a company duly organized in the State of Nevada as a LLC, (Corporation/LLC/Sole Proprietorship). The Participant is seeking the assistance of the city of Las Vegas Redevelopment Agency ("Agency") for making improvements to the property at 500-506 Fremont St. ("Site"), as more particularly described by the VIP agreement ("Agreement") being contemplated by the city of Las Vegas Redevelopment Agency at its public hearing to be held on _____.

2. I hereby warrant that I either own the site, or have a leasehold interest in the site for a minimum of five years subsequent to the effective date of this agreement.

   Assistance from the Agency will allow me to make improvements to the site which I could not otherwise do. This will result in substantial benefit to the Redevelopment Plan Area and the neighborhood adjacent to the Site because of one or more of the following reasons (check one or more):

   a. Encourage the creation of new business or other appropriate development; ☑
   b. Create jobs or other business opportunities for nearby residents; ☑
   c. Increase local revenues from desirable sources; ☑
   d. Increase levels of human activity in the redevelopment area or the immediate neighborhood in which the redevelopment area is located; ☑
   e. Possess attributes that are unique, either as to type of use or level of quality and design; ☐
   f. Require for their construction, installation or operation the use of qualified and trained labor; ☐ and
   g. Demonstrate greater social or financial benefits to the community than would a similar set of buildings, facilities, structures or other improvements not paid for by the agency. ☐

3. No other reasonable means of financing those buildings, facilities, structures or other improvements are available, because of one or more of the following reason(s) as checked by the Participant:

   a. An inducement for new businesses to locate or existing businesses to remain within the redevelopment area in which the business would ordinarily choose to locate outside the redevelopment area if the grant were not provided. Evidenced by a "but for" letter or statement from the business owner.; ☐ or
   b. There is a public objective and/or requirement that is more stringent and/or costly to undertake than a business would ordinarily embark upon. Evidenced by state or city ordinance. ☑ or
   c. There has been a lack of rehabilitation in the area and it is deemed unreasonable for the business to invest in improving the area unless the grant is provided. Evidenced by photographs of the immediate surrounding area displaying the slum and blight. ☑ or
   d. The exterior improvements to the property or business do not have a direct affect on revenues therefore making such an investment is not deemed acceptable by a customary financial institution. Evidenced by a denial letter from a financial institution. ☐ or

e. The visual improvement of the property or addition of the business to the area is so dramatic that it is a catalyst for economic development in the area. Evidenced by a positive economic impact analysis. ☐

Participant agrees to submit to the Agency its documentation which evidences that no reasonable means of financing are available to the Participant.

4. Participant hereby warrants the following:

a. The property on which the project is situated is free of all Mechanic's Liens at the time of application. SS (initial)

b. The applicant has no current bankruptcy proceedings, or past bankruptcy proceedings, whether corporate or personal, within the past five years. SS (initial)

c. The applicant has no past-due federal, state, county or city of Las Vegas tax bills at the time of application. SS (initial)

d. The applicant has no past-due bills or debts payable to the city of Las Vegas or the Redevelopment Agency. SS (initial)

5. Participant hereby acknowledges that existing opportunities for employment within the surrounding neighborhood of the redevelopment project are limited for neighborhood residents. Most residents must travel outside the neighborhood to find employment opportunities outside the redevelopment area, via public transportation or personal vehicles. Of the existing businesses within the neighborhood, many are family owned and have been in business for a long time. These existing businesses are not in an expansion mode and are not likely to employee neighborhood residents.

Furthermore, the project will help facilitate the continued expansion of employment opportunities by setting an example to other property/business owners to renovate their property/business and help create more employment opportunities through an expansion of business and renovation of vacant storefronts. The Project will allow neighborhood residents to apply for those positions (when available) for which they are qualified for as an employment opportunity. Appropriate measures will be taken to ensure that the neighborhood is aware of any job opportunities available from the business.

(4) Revoking or otherwise terminating the previous approval, but only if notice of the potential to take such action is provided at least fourteen days in advance of the hearing to:

(a) The applicant (if any) or to the applicant's agent; or

(b) Otherwise, to the property owner or operator of the use (or an agent).

(F) Notice of Decision. Written notice of the decision by the Planning Commission or City Council, as the case may be, including the reasons therefor, shall be provided to the applicant, if any,

SECTION 36: If any section, subsection, subdivision, paragraph, sentence, clause or phrase in this ordinance or any part thereof is for any reason held to be unconstitutional or invalid or ineffective by any court of competent jurisdiction, such decision shall not affect the validity or effectiveness of the remaining portions of this ordinance or any part thereof. The City Council of the City of Las Vegas hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase thereof irrespective of the fact that any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses or phrases be declared unconstitutional, invalid or ineffective.

PURPOSE/BACKGROUND:
Under applicable City ordinances, parking citations may be contested by means of a hearing officer process. For those who don't choose that process, another potential means of contesting a citation has been to appear in response to a civil complaint filed by the City in Municipal Court. The Municipal Court process has not proved workable, so this bill establishes the hearing officer process as the exclusive means of contesting a citation.

RECOMMENDATION:
This bill should be submitted to a Recommending Committee for review, hearing and recommendation to the City Council for final action.

(B) [Unless the City has sought judicial enforcement of the Notice of Infraction pursuant to Section 11.10.100, a] A person may initiate a hearing pursuant to Paragraph (3) of Subsection (A) of this Section by personally contacting the Director of Finance and Business Services, or his designee, identifying his/her name, current address and the Notice(s) of Infraction(s) and penalties thereon which such person wishes to subject to such hearing and receiving a date for such hearing. Any person initiating such a hearing in this manner [thereby stipulates to] (the "defendant") shall be bound by the decision of the Hearing Officer concerning liability for the infraction(s) and responsibility for the penalties thereon. [and shall acknowledge the same in writing. Any person] If any defendant scheduling a hearing before the Hearing Officer [thereby further stipulates that in the event of his or her failure] fails to appear at such hearing without having first sought and obtained a continuance of such hearing, the Hearing Officer may enter a decision against the defendant for the full amount of fines and penalties scheduled to be reviewed. [and shall acknowledge the same in writing. The acknowledgment provided for herein] In connection with the request for a hearing, the defendant must acknowledge the binding nature of the hearing and the Hearing Officer's authority in the event the defendant fails to appear at a hearing. I understand and agree that if necessary due to my lack of timely payment, the City of Las Vegas

can and will use this binding decision to have a formal civil judgment entered against me in the Las Vegas Municipal Court.

I understand that if a civil judgment is obtained, the City may seek and obtain a writ of execution against me. I understand that if a writ of execution is obtained, my wages and/or bank accounts may be garnished, liens may be put on my property and my vehicle(s) may be towed or immobilized. _____
Defendant

(C) Any hearing conducted pursuant to Subsection (A), Paragraph (3) and Subsection (B) of this Section shall be presided over by a Hearing Officer who shall be an attorney licensed to practice law in the State of Nevada.

(D) With respect to any hearing conducted pursuant to Subsection (A), Paragraph (3) and Subsection (B) of this Section, a properly filed Notice of Infraction shall constitute a claim of liability and a claim for relief and no other such claim shall be required. Prima facie proof of the violation alleged shall be established by the City providing the Hearing Officer with either a certified copy of the Notice of Infraction or the data stored in a computer or other device as described in Subsection (B) of Section 11.10.030. [, Subsection (B) of this Chapter.] No formal appearance by the City Attorney's office is required. The hearings and dispositions of all such actions shall be informal, with the Hearing Officer receiving witness statements or testimony and other evidence for the sole

purpose of dispensing fair and speedy justice between the parties.

(E) The burden of proving any defense shall be upon the person raising such defense.

(F) If the Hearing Officer finds that the infraction did not occur or that an infraction was committed, but one or more of the defenses set forth below is applicable, the Hearing Officer shall enter his decision for the defendant. Such a decision shall release the registered owner and/or operator from all liability thereunder. Such defenses include, but are not limited to:

(1) At the time of the receipt of the notice, possession of the subject vehicle had been acquired by another in violation of the laws of the State of Nevada;

(2) If the notice alleges a violation of any ordinance pertaining to a meter, such meter was mechanically malfunctioning to the extent that its reliability was questionable;

(3) Compliance with the subject ordinances would have presented an imminent danger to persons or property;

(4) The area of the alleged violation was so inadequately marked or lit as to fail to give sufficient notice that access to the area was restricted or prohibited;

(5) A mechanical malfunction of the vehicle caused it to be parked in the area alleged and it was removed as soon as could be reasonably expected thereafter;

(6) At the time of the issuance of the Notice of Infraction, the vehicle was parked consistent with public safety, by a physically handicapped person, a disabled veteran or a person transporting a physically handicapped person or disabled veteran in compliance with NRS 484.407.

(G) Except as provided in Subsection (H) of this Section, the defendant shall pay the total civil fines and penalties forthwith or at such times and on such conditions as the Hearing Officer shall prescribe if it is found that the person has either failed to appear or otherwise defend against the issuance of the infraction as agreed or that the infraction has been committed and no applicable defense exists. It is the defendant's burden to establish by a preponderance of the evidence that, through no fault of himself or his agent, he failed to receive notice of the issuance of the Notice of Infraction as provided in this Chapter. If the defendant meets this burden, he is not liable for any

civil penalties which would otherwise apply and such penalties shall not be included in any decision against the defendant.

(H) Upon request and proper proof, the Hearing Officer may reduce his decision concerning liability by up to twenty-five percent of the original amount found due in consideration of the timely payment of the prior balance if satisfied by the defendant that a preponderance of the evidence shows that the defendant has become indigent and will be unable to pay the balance.

(I) Upon reaching a decision, the Hearing Officer shall as soon as practicable thereafter, file a written decision substantially conforming to the following form:

Description: A residential family-like living arrangement for 5 to 10 unrelated individuals with disabilities who are in need of the mutual support																				

furnished by other residents, as well as the support services, if any, provided by the operator of the Community Residence. Residents may be self-governing or supervised by a sponsoring entity or its staff which furnishes habilitative or rehabilitative services related to the needs of the residents. Interrelationships among residents are an essential component of a Community Residence. A Community Residence shall be considered a residential use of property for purposes of all zoning and building codes. However, the Fire Marshal, pursuant to and consistent with the City's Fire Code, may require enhanced fire protection, including the installation of fire sprinklers and other mitigating measures, where one or more residents has a lessened ability to ambulate adequately. The use includes a Family Community Residence and a Transitional Community Residence, but does not include any of the following:

1. Senior Citizen Apartment;
2. Adult Day Care Center;
3. Convalescent Care Facility/Nursing Home;
4. Facility for Transitional Living for Released Offenders;
5. Facility to Provide Testing, Treatment, or Counseling for Drug and Alcohol Abuse;
6. Hospice;
7. Sex Offender Counseling Facility;
8. Boarding House or Rooming House;
9. Any other group living arrangement for unrelated individuals who are not disabled; or
10. Any of the following, as defined by NRS Chapter 449:
    a. Facilities for the Treatment of Drug and Alcohol Abuse;
    b. Modified Medical Detoxification Facilities;
    c. Transitional Living Facilities for Released Offenders;
    d. Facility for the Treatment of Narcotics; or
    e. Community Triage Center.

Conditional Use Regulations:

1. Except as otherwise provided in Regulations 2 and 3, a Community Residence may not be located closer than 660 feet to any other Community Residence (measured from property line to property line).
2. Where there is a street, freeway or drainage channel at least 100 feet wide between the proposed Community Residence and an existing Community Residence, the minimum separation requirement is reduced to 100 feet from property line to property line.
3. When the population of a proposed Community Residence is of such a nature that its location must be kept confidential for it to function successfully, such as a Community Residence for victims of domestic abuse, the minimum separation requirements set forth in Regulations 1 and 2 above shall not apply.
4. A maximum of 2 persons who function as facility operator or support staff may reside in a Community Residence without being counted toward the 10-resident limit established for that use. Resident operator/support staff in excess of 2 shall be counted toward the 10-person limit.
5. A Community Residence shall comply with all public health and safety requirements including all Building and Fire Code requirements for the dwelling type in question.
6. If Federal or State law or regulations require the proposed Community Residence to be licensed or certified, then the applicant must obtain that required license or certification before commencing operation of the Community Residence.
7. When located in an O, C-1 or C-2 Zoning District, a Community Residence may not be established unless it is part of a mixed-use development.
8. The operator of a Transitional Community Residence:
    a. Must require residents to be actively and continuously enrolled in an offsite support program, including without limitation Alcoholics Anonymous or an equivalent program, or a rehabilitation program such as one supervised by a medical professional or recognized treatment;
    b. Must prohibit the use of alcohol and illegal drugs by residents; and
    c. Upon request and with reasonable notice, must produce evidence satisfactory to the Director or the Code Enforcement Manager residents are in compliance with this Regulation.
9. Occupancy within a Community Residence shall not be made available to any individual whose tenancy would constitute a direct threat to the health and safety of individuals or would result in substantial physical damage to the property of others. The fact that a person is sentenced or referred to a Transitional Community Residence by a judge does not, without other evidence of a person's actual danger to other persons or property, establish that the person is a direct threat to the health and safety of others.
10. The Community Residence must be consistent with the scale and architectural character of the neighborhood.
11. The Special Use Permit provisions of LVMC 19.04.040(B) shall not apply to Regulations 5 through 10 above.
12. In the case of a Special Use Permit application that is filed as a consequence of not qualifying for conditional use treatment under Regulations 1 and 2 above, the application must be approved unless the Planning Commission or City Council determines that

one or more of the following conditions would occur: a. The building to be occupied as a Community Residence would be established or modified in a manner that would make it inconsistent with the scale and architectural character of the neighborhood; b. The proposed Community Residence, together with existing Community Residences, would alter the residential character of the neighborhood by creating an institutional atmosphere due to the concentration of Community Residences on a block or adjoining blocks; or c. The application or Community Residence does not or would not comply with Regulations 5 through 10 above.
On-site Parking Requirement: Two spaces per dwelling unit.

In order for the Department to verify compliance with applicable conditional use regulations, the Director may require the submission of documentation regarding such compliance. For uses concerning which the Director requires such documentation, the submission shall be in the form of a Conditional Use Verification provided by the Department. Within the time period for submission established by the Department,

the form must be signed, notarized and acknowledged, and filed with the Department. The form must be signed by the owner of record of the property for which the verification is sought; provided however, that such submission is also sufficient if it is signed and acknowledged by a lessee, a contract purchaser or an optionee of the property upon which such conditional use is maintained. However, interest in such property must exist in a written agreement with the owner of record attached to which is a copy of the submission and in which the owner of record has authorized the lessee, contract purchaser or optionee to sign the submission.

(D) Noncompliance. Whether or not the Director requires the submittal of a Conditional Use Verification under Subsection (C) of this Section, each person or entity maintaining, operating or permitting a conditional use must comply with all provisions of this Title. AGENDA MEMO

CITY COUNCIL MEETING DATE: JUNE 2, 2010
DEPARTMENT: Neighborhood Services
ITEM DESCRIPTION: ABEYANCE ITEM - Public Hearing to consider the report of expenses to recover costs for abatement of nuisance located at 1368 Pyramid Drive in the amount of $6,200.02 (General Fund) and assess a maximum of $207,050 in daily civil penalties. PROPERTY OWNER: WILLIE B JAQUESS – Ward 5 (Barlow) [NOTE: Municipal Court Judgment amends the abatement amount to $6,187.57.]

The agenda item was abeyed from the April 21, 2010 due to it was still in Municipal Court. A judgment was made in favor of the city of Las Vegas and amended the abatement fees to $6,187.57 on April 3, 2010.

NDX, LLC completed work on July 27, 2009 at a cost of $2,392.02 and Lunas Construction completed work on February 8, 2010 at a cost of $238.50; $1,122 in reinspection fees (w/late fees); $1,950 in civil penalties; plus a 15% administrative fee.

Today's public hearing is to consider the Report of Expenses filed by the Department of Neighborhood Services and to hear any objections thereto. Under the Uniform Code for the Abatement of Nuisance and Civil Penalties, the City Council may make revisions or adjustments to the Report of Expenses as deemed proper. If the Report of Expenses is confirmed and accepted by the Council, the Council can then declare the charges to be a personal obligation on the part of the property owner or may order the charges assessed against the property by means of a Lien of Assessment. In this particular case, we recommend a Lien of Assessment.

If the Lien is approved by the Council, certified copies of the recorded lien will be given to the County Treasurer's Office and the amount of the assessment will be collected at the same time and in the same manner as ordinary property taxes. All laws applicable to the collection and enforcement of property taxes shall be applicable to such assessment, and the amount of the assessment will be added to the next regular property tax bill levied against the parcel.

Re: Report of Expenses for the abatement of nuisance located at 1368 Pyramid Drive - Ward 5 (Barlow)

LVMC Ordinance 5873 authorizes the City of Las Vegas to assess and collect a re-inspection fee of $120.00 if the nuisance violation(s) are not brought into compliance by the re-inspection date on this notice. An additional fee of $180.00 per hour, one-hour minimum (not to be pro-rated), will be charged for each additional inspection after the initial re-inspection. In addition, LVMC 9.04.020 and 9.040.040 authorizes the city to assess a civil penalty concurrently with the re-inspection fees assessed. On the 2nd re-inspection a $180 re-inspection fee + a $150.00 civil penalty will be assessed; on the 3rd re-inspection a $180 re-inspection fee + a $300.00 civil penalty will be assessed; on the 4th re-inspection and any future re-inspections will be assessed a $180 re-inspection fee + a $500.00 civil penalty. Additionally, every person who causes or maintains a public nuisance, or who willfully omits or refuses to perform any legal duty relating to the abatement of such nuisance (1) shall be guilty of a misdemeanor; (2) shall be liable civilly to the City and, upon such findings shall be responsible to pay civil penalties of not more than five hundred ($500.00) dollars per day, or for commercial properties; civil penalties of not more than one thousand ($1000.00) per day, for each day that any nuisance remained unabated after the date specified for abatement in the notice of violation. The $500.00 or $1000 daily civil penalty will be determined at the discretion of the city council. Any and all unpaid fees are subject to collection and/or liens.

After giving due process, notification, and an opportunity for an appeal hearing as specified in the Las Vegas Municipal Code for "Nuisance," the Department of Neighborhood Services caused the above-referenced property to be corrected by removing all trash and debris including combustible waste matter, combustible fibers, and combustible liquids from all ingress and egress areas of property, removing all trash and debris, and removing all stored items from all areas of the property. The abatements were completed by NDX, LLC on July 27, 2009 at a cost of $2,392.02 and Lunas Construction on February 8, 2010 at a cost of $238.50, which was accepted by the Department of Neighborhood Services.

Re: Report of Expenses for the abatement of nuisance located at 1400 Pyramid Drive - Ward 5 (Barlow)

LVMC Ordinance 5873 authorizes the City of Las Vegas to assess and collect a re-inspection fee of $120.00 if the nuisance violation(s) are not brought into compliance by the re-inspection date on this notice. An additional fee of $180.00 per hour, one-hour minimum (not to be pro-rated), will be charged for each additional inspection after the initial re-inspection. In addition, LVMC 9.04.020 and 9.040.040 authorizes the city to assess a civil penalty concurrently with the re-inspection fees assessed. On the 2nd re-inspection a $180 re-inspection fee + a $150.00 civil penalty will be assessed; on the 3rd re-inspection a $180 re-inspection fee + a $300.00 civil penalty will be assessed; on the 4th re-inspection and any future re-inspections will be assessed a $180 re-inspection fee + a $500.00 civil penalty. Additionally, every person who causes or maintains a public nuisance, or who willfully omits or refuses to perform any legal duty relating to the abatement of such nuisance (1) shall be guilty of a misdemeanor; (2) shall be liable civilly to the City and, upon such findings shall be responsible to pay civil penalties of not more than five hundred ($500.00) dollars per day, or for commercial properties; civil penalties of not more than one thousand ($1000.00) per day, for each day that any nuisance remained unabated after the date specified for abatement in the notice of violation. The $500.00 or $1000 daily civil penalty will be determined at the discretion of the city council. Any and all unpaid fees are subject to collection and/or liens.

ANALYSIS

This is the first request for an Extension of Time of a previously approved Site Development Plan Review (SDR-25760) for a proposed 205,000 square-foot retail development at the southeast corner of Hualapai Way and Deer Springs Way. No plans have been submitted for review nor have any building permits been issued for the proposed project. Staff conducted a field check of the subject site and found a small amount of trash on the property and a mobile caterer parked along the street. Staff rechecked the site the following day and the mobile catering truck was not there. There has been a new entitlement to the north for a 19-lot single family development; the proposed project is still compatible with the surrounding area.

Title 19.18.050 deems a Site Development Plan Review exercised upon the issuance of a building permit for the principal structure on site, unless otherwise specified in connection with its approval.

FINDINGS

The Site Development Plan Review has not met the requirements outlined in Title 19.18.050 to exercise the entitlement as no building permits have yet to be issued. The applicant is requesting an Extension of Time due to the current economic conditions in the Las Vegas area. Staff has no objection to the request and recommends approval with a two-year time limit. Conformance to the conditions of approval of the Site Development Plan Review (SDR-25760) shall be required.

Construct full-width street improvements, including an appropriate terminus, such as temporary barricades, on "Proposed Street" concurrent with development of this site. Extend all required underground utilities, such as electrical, telephone, etc., located within public rights-of-way, to the boundaries of this site prior to construction of hard surfacing (asphalt or concrete).

17. Offset sidewalk and reduced right-of-way widths shown on this site plan shall be in accordance with the approved Providence Square Master Development Plan and Design Standards. Grant pedestrian access easements for all sidewalks located outside of the public street right-of-way prior to the issuance of any permits or through recordation of a map for this site.

18. Coordinate with the Clark County Department of Public Works to discuss any impacts to this site plan from the Beltway and the ultimate Hualapai Way off-ramp design. Provide documentation from Clark County to the City of Las Vegas Land Development Section that this condition has been satisfied prior to the approval of any construction drawings or the recordation of a map for this site, whichever may occur first.

19. Provide public sewer stubs to all "not a part" parcels not adjacent to existing public street right-of-way and grant appropriate public sewer easements. However, subject to notarized written approval from the owner of Assessor's Parcel No. 125-19-301-010, which is currently entitles within Clark County as a cell tower site with no need for sewer service, the requirement to provide a public sewer easement stub to this parcel shall not be enforced provided that an appropriate sewer easement acceptable to the Collection Systems Planning Section is granted connecting this parcel to existing public sewer. Coordinate with the Collection Systems Planning section of the Department of Public Works and comply with their recommendations prior to the submittal of construction drawings or the approval of a Map subdividing this site.

20. Driveways accessing Hualapai Way and Deer Springs Way shall be designed, located and constructed in accordance with Standard Drawing #222a. Submit an application to the Land Development section of the Department of Public Works for a deviation from throat depth dimensions required by Standard Drawing #222a for the driveways accessing this site from Conquistador Street.

21. A Traffic Impact Analysis must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, submittal of any construction drawings or the recordation of a Map subdividing this site. Comply with the recommendations of the approved Traffic Impact Analysis prior to occupancy of the site. The Traffic Impact Analysis shall also include a section addressing Standard Drawings #234.1 #234.2 and #234.3 to determine additional right-of-way requirements for bus turnouts adjacent to this site, if any; dedicate all areas recommended by the approved Traffic Impact Analysis. All additional rights-of-way required by Standard Drawing #201.1 for exclusive right turn lanes and dual left turn lanes shall be dedicated prior to or concurrent with the commencement of on-site development activities unless specifically noted as not required in the approved Traffic Impact Analysis. If additional rights-of-way are not required and Traffic Control devices are or may be proposed at this site outside of the public right-of-way, all necessary easements for the location and/or access of

such devices shall be granted prior to the issuance of permits for this site. Phased compliance will be allowed if recommended by the approved Traffic Impact Analysis. No recommendation of the approved Traffic Impact Analysis, nor compliance therewith, shall be deemed to modify or eliminate any condition of approval imposed by the Planning Commission or the City Council on the development of this site.

22. A Drainage Plan and Technical Drainage Study must be submitted to and approved by the Department of Public Works prior to the issuance of any building or grading permits, submittal of any construction drawings or the submittal of a Map subdividing this site, whichever may occur first. Provide and improve all drainageways recommended in the approved drainage plan/study. The developer of this site shall be responsible to construct such neighborhood or local drainage facility improvements as are recommended by the City of Las Vegas Neighborhood Drainage Studies and approved Drainage Plan/Study concurrent with development of this site.

23. Unless otherwise allowed by the City Engineer, construct sidewalk on at least one side of all access drives connecting this site to the adjacent public streets concurrent with development of this site. The connecting sidewalk shall extend from the sidewalk on the public street to the first intersection of the on-site roadway network and shall be terminated on-site with a handicap ramp.

24. In accordance with the intent of a Commercial Subdivision, all sites within this subdivision shall have perpetual common access to all driveways connecting this site to the abutting streets. No barriers (e.g. curbs, wall, etc.) shall be erected within the boundaries of this overall site which would prohibit any vehicle on this site from utilizing any driveway connecting this commercial development site to the abutting public streets.

25. Landscape and maintain all unimproved rights-of-way, if any, adjacent to this site. All private improvements and landscaping installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections.

26. Submit an Encroachment Agreement for all landscaping, if any, located in the public rights-of-way adjacent to this site prior to occupancy of this site.

27. The approval of all Public Works related improvements shown on this Site Development Plan Review is in concept only. Specific design and construction details relating to size, type and/or alignment of improvements, including but not limited to street, sewer and drainage improvements, shall be resolved prior to submittal of a Tentative Map or construction drawings, whichever may occur first. No deviations from adopted City

Standards shall be allowed unless specific written approval for such is received from the City Engineer prior to the submittal of a Tentative Map or construction drawings, whichever may occur first.

PROJECT DESCRIPTION

The subject site currently has an existing Halfway House Facility with a previously approved Site Development Plan Review (SDR-12344) for an additional 5,000 square-foot building at 521 North Mojave Road. The applicant has not yet submitted any plans for review nor have building permits been issued for the new facility. There have not been any changes in land use or development in the surrounding areas. Staff conducted a field check of the subject site and found the area free of trash/debris and landscape areas being maintained, but had chain link fencing with barbed-wire on the property and an illegal wooden sign. The applicant is requesting the Extension of Time to raise additional funds to complete the improvements. Staff has no objection to the request and recommends approval. If denied, the Site Development Plan Review (SDR-12344) would be allowed to expire.

ANALYSIS

This is the second request for an Extension of Time of a previously approved Site Development Plan Review (SDR-12344) for an additional 5,000 square-foot building for an existing Halfway House Facility located at 521 North Mojave Road. Staff conducted a field check of the subject site and found chain link fencing with barbed wire on the property, in addition to an illegal wooden sign advertising the business. A research of applications and building permits found a request for a Site Development Plan Review (SDR-5649) processed on 11/23/04 requesting additional security fencing around an existing storage area, but the applicant did not pursued the request administratively as directed by staff; there is no history of a building permit for the sign.

Title 19.18.050 deems a Site Development Plan Review exercised upon the issuance of a building permit for the principal structure on site, unless otherwise specified in connection with its approval.

FINDINGS

The Site Development Plan Review (SDR-12344) has not met the requirements as outlined in Title 19.18.050 to exercise the entitlement as no building permits have yet to be issued for the proposed project. On 04/28/10, the violations noted during the site inspection were forwarded to Code Enforcement for action. The applicant is requesting the Extension of Time to raise additional funds to complete the improvements. Staff is recommending approval with a two-year time limit. Conformance to the conditions of approval of the Site Development Plan Review (SDR-12344) shall be required.

The Notice of Final Action was filed with the Las Vegas City Clerk on June 8, 2006. This approval is subject to

13. Remove all substandard public street improvements, if any, adjacent to this site and replace with new improvements meeting current City Standards concurrent with on-site development activities.

14. The proposed entry gates shall be set back a sufficient distance (a minimum of 18 feet) to allow a vehicle to pull completely out of the public street right of way before parking to manually operate the gate as required by the Department of Public Works. The installation of either swing gates or rolling gates is acceptable as long as no part of the gates, either in the opened or closed position, intrude into the public right of way.

To Whom It May Concern:

Please be advised this office represents the Ritter Charitable Trust (the "Applicant") in the above referenced matter. ANALYSIS

This is the first request for an Extension of Time of a previously approved Site Development Plan Review (SDR-27508) for a proposed 10,719 square-foot Utility Installation on 14.0 acres located at the northwest corner of Fort Apache Road and Centennial Parkway. No plans have been submitted for review nor have any building permits been issued for the proposed project. Since the approval of the Site Development Plan Review (SDR-27508), there have not been any changes in land use or new development in the surrounding areas.

Title 19.18.050 deems a Site Development Plan Review exercised upon the issuance of building permits for the principal structure on site, unless otherwise specified in connection with its approval.

FINDINGS

The Site Development Plan Review (SDR-27508) has not met Title 19.18.050 requirements to exercise the entitlement as no building permits have yet to be issued. The applicant is requesting a three-year Extension of Time due to the current economic crisis, budget concerns, plus additional time for the customized fabrication of the specialized components. Staff has no objection to the request and recommends approval with a three-year time limit. Conformance to the conditions of approval of the Site Development Plan Review (SDR-27508) shall be required.

Dear Ms. Mulroy:

The City Council at a regular meeting held June 4, 2008 APPROVED the request for a Site Development Plan Review FOR A PROPOSED 10,719 SQUARE-FOOT UTILITY INSTALLATION on 14.0 acres at the northwest corner of Fort Apache Road and Centennial Parkway (APNs: 125-19-802-006 and 013), C-V (Civic) and U (Undeveloped) [L (Low Density Residential) General Plan Designation] Zones [Proposed: C-V (Civic) Zone]. The Notice of Final Action was filed with the Las Vegas City Clerk on June 5, 2008. This approval is subject to:

Planning & Development

1. Conformance to the conditions for General Plan Amendment (GPA-27383) and Rezoning (ZON-27507), if approved.

2. This approval shall be void two years from the date of final approval, unless a building permit has been issued for the principal building on the site. An Extension of Time may be filed for consideration by the City of Las Vegas.

3. All development shall be in conformance with the site plan, landscape plan, and building elevations, date stamped 03/25/08, except as amended by conditions herein.

4. A technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted prior to or at the same time application is made for a building permit. 5. Pre-planting and post-planting landscape inspections are required to ensure the appropriate plant material, location, size of planters, and landscape plans are being utilized. The Planning and Development Department must be contacted to schedule an inspection prior to the start of the landscape installation and after the landscape installation is completed. A certificate of occupancy will not be issued or the final inspection will not be approved until the landscape inspections have been completed.

6. The proposed perimeter wall is approved at 10 feet and shall be a decorative block wall, with at least 20 percent contrasting materials, and conform to the requirements listed in Title 19.12.175 (G).

7. Reflective glazing at the pedestrian level is prohibited. Glazing above the pedestrian level shall be limited to a maximum reflectance rating of 22% (as defined by the National Institute of Standards and Technology).

8. All mechanical equipment, air conditioners and trash areas shall be fully screened in views from the abutting streets.

9. All utility boxes exceeding 27 cubic feet in size shall meet the standards of LVMC Title 19.12.040.

Lighting on the exterior of buildings shall be shielded and shall be downward-directed. Non-residential property lighting shall be directed away from residential property or screened, and shall not create fugitive lighting on adjacent properties.

11. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.

12. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

13. Dedicate 50 feet of right-of-way from APN 125-19-802-013 for the north side of Centennial Parkway prior to the issuance of any permits.

14. Coordinate with the City Right-of-Way Section for APN 125-19-802-006 to facilitate the relinquishment of Clark County BLM grants in order to amend City BLM Roadway, Sewer, and Drainage Grant N-80938 to include 50 feet on the north side of Centennial Parkway including the area needed for a bus turnout, a 54 foot radius on the northwest corner of Fort Apache Road and Centennial Parkway, 30 feet on the north side of Darling Road and appropriate right-of-way for the proposed off-set cul-de-sac terminus, prior to the issuance of any permits.

16. Construct half-street improvements on Centennial Parkway (including appropriate overpaving), Fort Apache Road, and Darling Road, including the required cul-de-sac bulb for the terminus of Darling Road adjacent to this site concurrent with development of this site. All existing paving damaged or removed by this development shall be restored at its original location and to its original width concurrent with development of this site.

17. All landscaping and private improvements installed with this project shall be situated and maintained so as to not create sight visibility obstructions for vehicular traffic at all development access drives and abutting street intersections.

18. Landscape and maintain all unimproved right-of-way, if any, on Centennial Parkway adjacent to this site.

19. Submit an Encroachment Agreement for all landscaping and private improvements in the Centennial Parkway public right-of-way adjacent to this site.

SUBJECT: CONTRACT NO. C1232 – CENTENNIAL 2635 ZONE RESERVOIR AND 2745 ZONE PUMPING STATION, EXTENSION OF TIME REQUEST FOR SITE DEVELOPMENT PLAN REVIEW SDR-27508 (JUSTIFICATION)

On June 4, 2008, the City Council approved the above-referenced Site Development Plan Review submitted by the Las Vegas Valley Water District (District) for the construction of a water reservoir and pumping station, located at the intersection of Centennial Parkway and Fort Apache Road. The Notice of Final Action was filed with the Las Vegas City Clerk on June 5, 2008. The District has proceeded to design the facility and has placed the project on hold. As of this date, the design is approximately 100 percent complete.

The District respectfully requests a three-year extension of time for the proposed site improvements associated with previously approved SDR-27508. The following points are offered as justification:

- Due to the current economic crisis and budget concerns, this project has been placed on hold.
- The facility consists of specialized components (pumps, surge tank, electrical equipment, fabricated piping, etc.) that require custom fabrication and, subsequently, a prolonged construction period.

If you have any questions, or require additional information, you may contact Joseph Lin, P.E., Engineering Project Manager, at (702) 875-7062.

Peter J. Jauch, P.E.

PROJECT DESCRIPTION

The subject site is currently undeveloped land with a previously approved Site Development Plan Review (SDR-11728) for a proposed 79-lot single family development at the northwest corner of 25th Street and Charleston Boulevard. The applicant received approval for a Tentative Map (TMP-16653) for the 79-lot single family development on 11/2/06 and Final Map (FMP-22974) on 7/24/07, but failed to complete the recording process, thereby allowing it to expire. No plans have been submitted for review, nor have building permits been issued for the proposed project. New development and changes in land use are being sought for a proposed 90,595 square-foot shopping center located to the north and west of the subject site.

The applicant is requesting an Extension of Time due to the collapse in the real estate market. Staff has no objection to the request and recommends approval with a two-year time limit. If denied, the Site Development Plan Review (SDR-11728) would be allowed to expire.

Re: Extension of Time for SDR-11728
Eastern Avenue Lofts

Planning Department,

Urban Lofts XIV, Ltd. is requesting a three-year extension of time for SDR-11728 as extended by EOT-27711. Our organization has constructed two other similar communities in the downtown redevelopment area including the Eleventh Street Lofts and the Fremont Street Lofts communities.

Our organization has experienced many unforeseen challenges since the start of the collapse in the real estate market in early 2007. Our organization had zero sales at either community from 2008 to 2009 making it impossible for us to build additional inventory in an already saturated market. However, persistent negotiations with our banks and investors have proven to be successful as we were able to reduce the prices of our homes by 30% and successfully create a considerable amount of interest in our properties once again. Since the beginning of 2010 we have had 6 sales at our Fremont Street Lofts community and interest continues to grow. We anticipate that phase one of the community will be sold out by the end of this year. However, we still have 49 more lots to construct and sell before we can start any future developments.

We feel that by building smaller floor plans, value engineering, and the lower cost of construction in today's economic climate will allow us to construct and sell out the Fremont Street Lofts project within the next two and a half years. Once the Fremont Street Loft community is completed we would like to immediately start the construction of the Eastern Avenue Lofts in which this EOT is in reference to.

Please consider a three-year extension of time which will allow us to complete the our current developments prior to starting the Eastern Avenue Loft community.

If further assistance is needed please feel free to contact Trinity Schlottman at (702) 204-8737.

Sincerely,

Trinity Schlottman

** STAFF REPORT **

PROJECT DESCRIPTION

The subject site is currently undeveloped land with a previously approved Variance (VAR-11723) to allow 11,627 square feet of open space where 61,079 square feet is the minimum required for a 79-lot single family development located at the northwest corner of 25th Street and Charleston Boulevard. The applicant received approval for a Tentative Map (TMP-16653) for the 79-lot single family development on 11/2/06 and Final Map (FMP-22974) on 7/24/07, but failed to complete the recording process, thereby allowing it to expire. No plans have been submitted for review, nor have building permits been issued for the proposed project. New development and changes in land use are being sought for a proposed 90,595 square-foot shopping center located to the north and west of the subject site.

The applicant is requesting an Extension of Time due to the collapse in the real estate market. Staff has no objection to the request and recommends approval with a two-year time limit. If denied, the Variance (VAR-11723) would be allowed to expire.

ANALYSIS

This is the second request for an Extension of Time of a previously approved Variance (VAR-11723) to allow 11,627 square feet of open space where 61,079 square feet is the minimum amount of open space required for a 79-lot single family development. A Tentative Map (TMP-16653) for the proposed project was approved on 11/2/06 and a Final Map (FMP-22974) approved on 07/24/07, but the applicant failed to complete the recording process,

thereby allowing the map to expire. No plans have been submitted for review, nor have building permits been issued for the proposed project. Staff conducted a field check of the subject site and found scattered trash and weeds with numerous campaign signs. New development and changes in land use are being sought for a proposed 90,595 square-foot shopping center located to the north and west of the subject site.

FINDINGS

The Variance (VAR-11723) has not met the requirements outlined in Title 19.18.070 to exercise the entitlement as construction has not yet been for the proposed project. The applicant is requesting an Extension of Time due to the collapse in the real estate market. Staff has no objection to the request and recommends approval with a two-year time limit. Conformance to the conditions of approval of the Variance (VAR-11723) shall be required.

Re: Extension of Time for VAR-11723
Eastern Avenue Lofts

Planning Department,

Urban Lofts XIV, Ltd. is requesting a three-year extension of time for VAR-11723 as extended by EOT-27713. Our organization has constructed two other similar communities in the downtown redevelopment area including the Eleventh Street Lofts and the Fremont Street Lofts communities.

Our organization has experienced many unforeseen challenges since the start of the collapse in the real estate market in early 2007. Our organization had zero sales at either community from 2008 to 2009 making it impossible for us to build additional inventory in an already saturated market. However, persistent negotiations with our banks and investors have proven to be successful as we were able to reduce the prices of our homes by 30% and successfully create a considerable amount of interest in our properties once again. Since the beginning of 2010 we have had 6 sales at our Fremont Street Lofts community and interest continues to grow. We anticipate that phase one of the community will be sold out by the end of this year. However, we still have 49 more lots to construct and sell before we can start any future developments.

We feel that by building smaller floor plans, value engineering, and the lower cost of construction in today's economic climate will allow us to construct and sell out the Fremont Street Lofts project within the next two and a half years. Once the Fremont Street Loft community is completed we would like to immediately start the construction of the Eastern Avenue Lofts in which this EOT is in reference to.

Please consider a three-year extension of time which will allow us to complete the our current developments prior to starting the Eastern Avenue Loft community.

If further assistance is needed please feel free to contact Trinity Schlottman at (702) 204-8737.

Sincerely,

Trinity Schlottman

ANALYSIS

This is a request for a Special Use Permit for a Pawn Shop use within an existing 6,000 square-foot building. The subject site has adequate parking spaces for the proposed Pawn Shop use, which requires one space for each 250 square feet of gross floor area. The Site Plan indicates 24 parking spaces are required, whereas 56 parking spaces are provided. The proposed Pawn Shop is a less intense use compared to the Restaurant use that was previously located on this site.

The minimum Special Use Permit requirements for the proposed Pawn Shop use are the 200-foot distance and a 1,000-foot distance separation from a residentially zoned property and a Financial Institution, Specified use, respectively. The applicant has requested 154-foot and 250-foot distance separation waivers residentially zoned property and Financial Institution, Specified, respectively. Staff is recommending denial of this application because the proposed use cannot be conducted in a manner that is compatible with the surrounding land uses, as is evidenced by the requested waivers of distance separation requirements.

FINDINGS (SUP-37576)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

1. **The proposed land use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, and with future surrounding land uses as projected by the General Plan.**

   The proposed Pawn Shop use cannot be conducted in a manner that is harmonious and compatible with the existing site due to the waiver requests to allow a 154-foot distance and 250-foot separation distance from residentially zoned property and Financial Institution, Specified uses; respectively.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

The proposed use is located directly adjacent to a residential property, and a Financial Institution Specified use is located within 250 feet south of the property. The subject site does not meet the minimum standard set forth in Title 19.04 for a Pawn Shop within a C-1 (Limited Commercial) zoned property. The subject site is not physically suitable for the intensity of the proposed land use, due to the need for waivers of Title 19.04 standards.

3. **Street or highway facilities providing access to the property are or will be adequate in size to meet the requirements of the proposed use.**

   Site access is provided from Decatur Boulevard, a 100-foot Primary Arterial as designated in the Master Plan of Streets and Highways. This street is adequate in size to accommodate the proposed Pawn Shop use.

4. **Approval of the Special Use Permit at the site in question will not be inconsistent with or compromise the public health, safety, and welfare or the overall objectives of the General Plan.**

   Approval of the proposed Special Use Permit will not be inconsistent with or compromise the public health, safety and general welfare, as the use will be subject to regular inspections for business licensing.

5. **The use meets all of the applicable conditions per Title 19.04.**

   The proposed Pawn Shop use does not comply with the minimum Special Use Permit requirements. The proposed use will be located within 200 feet of a parcel used or zoned for residential use. In addition, the use will be located within 1,000 feet of a Financial Institution, Specified use. A waiver has been requested from these requirements.

Re: REVISED Justification Letter – Site Development Plan Review, Special Use Permit to Allow for a Pawn Shop & Waiver of Separation Requirements Accessory uses include: payday loans/check cashing and second hand dealer 307 S. Decatur Boulevard (APN: 139-21-201-003)

To Whom It May Concern:

Please be advised this office represents Cash America/SuperPawn (the "Applicant"). The Applicant is seeking a site development plan review and special use permit for a pawn shop in the above referenced location (the "Site"). The Site is zoned C-2. Pawn shops are allowed in a C-2 zone with the approval of a special use permit. Additionally, the Applicant is seeking a waiver for: (i) the 200 foot distance requirement to a residential use and (ii) the 1000 foot distance requirement from any other pawn shop use or specified financial institution use.

The Applicant is a well established and highly regarded pawn shop operator throughout the Las Vegas valley. The Applicant is proposing to transform an existing vacant building, formerly occupied by Sizzler which has been vacant for some time, into an attractive location for SuperPawn. The current building is 6000 square feet and has been vacant for some time. The Applicant plans to significantly upgrade the façade of the building and the landscaping along Decatur Boulevard. As part of the upgrade to the building, the Applicant will be adding exterior architectural enhancements which will slightly increase the height of the parapet from approximately 22' to approximately 27' Additionally, the inside of the existing building will be substantially upgraded.

In addition to the site development plan review, the Applicant is requesting a use permit to allow for a pawn shop. In conjunction with the pawn shop use, the Applicant will provide accessory uses such as payday loans/check cashing, jewelry sales and second hand sales. Since the Applicant is proposing to locate in an existing building, waivers of the distance requirements are necessary. The property line of the existing building is 162 feet from a residential use. However, the distance of the existing building exceeds the distance requirement and is actually 336 feet from the residential use. Between the existing building and the residential use is: (i) a lengthy parking lot, (ii) a block wall and (iii) a street, Portsmouth Way. Additionally, the

Applicant is seeking a waiver from the required distance to a specified financial institution use. The property line of the existing building is 250 feet away from the property line of the existing specified financial institution use. However, from the proposed SuperPawn building to the existing building with a specified financial institution, the distance is actually 819 feet. Five existing buildings plus a public street, Mayflower Lane, separate the two uses. There are no existing pawn shops within the required distance separation.

The proposed improvements to the Site include, but are not limited to: desert contemporary architecture, new entrance canopy, enhanced landscaping, dark sky lighting, upgraded mechanical systems and reduced cooling loads. The entrance into the building would face south, toward an existing commercial building and not toward the residential homes to the east. The upgrades to the façade of the building and the upgrades on the interior of the building will be an enhancement to the area. Additionally, the proposed use would be located on Decatur Boulevard and Meadows Lane just south of US 95 in an area that is heavily commercial with C-1 and C-2 uses. The hours of operation would be 9:00 a.m. to 7:00 p.m. Monday through Saturday. On Sunday, the hours of operation would be noon to 5:00 p.m. Therefore, the limited hours of operation would not be detrimental to the residential uses. Finally, the overall enhancements to the building and landscaping would be a complement to the area.

Thank you, in advance, for your consideration of this request. If you need any additional information, please do not hesitate to contact me.

Sincerely,

KAEMPFER CROWELL RENSHAW GRONAUER & FIORENTINO

RE: SDR-37577 & SUP-37576

Dear Councilwoman Tarkanian:

It has recently come to my attention that SuperPawn has filed for a special use permit application for the former Sizzler location near Decatur Boulevard and Meadows Lane. This building has been vacant for some time. As a resident in the area, vacant buildings are unattractive and can lead to the impression that our neighborhood is on the decline. I have seen the upgrades that SuperPawn is proposing to make to the building and the landscaping along Decatur Boulevard. These upgrades would be a tremendous enhancement and may spur additional improvements in other commercial shopping centers in the area. I urge your support of SuperPawn's applications.

PROJECT DESCRIPTION

This is a request for a Special Use Permit to add a Jewelry Store, Class III use within an existing 2,010 square-foot Auto Title Loan at 5861 West Craig Road, Suite #104. The use will allow the option to buy broken or discarded gold jewelry on premise. There is no resale of the jewelry; it is not a loan, but a purchase of the jewelry for gold. Staff recommends approval of this request, as the proposed use meets all minimum Special Use Permit requirements, and can be conducted in a manner that is compatible with the surrounding uses. If denied, the existing Auto Title Loan would remain as it is.

ANALYSIS

A Jewelry Store, Class III use is defined by Title 19.20.020 as a "store which buys and sells scrap precious metals for marketing as a commodity in bar form or in other than jewelry form, or which buys and sells precious metal bars and coins that are sold as a commodity rather than for numismatic purposes. This may include operations similar to a new jewelry store." The proposed use is within the guideline of the permissible use definition. The applicant will buy used jewelry as a way to acquire gold, but no resale of jewelry is involved. The use will be added to an existing Auto Title Loan use, which also allows activities of a Financial Institution Specified. The business was licensed prior to the City's requirement for a Special Use Permit for an Auto Title Loan use. Because the proposed use can be conducted in a manner that is harmonious and compatible with existing surrounding land uses, staff recommends approval.

AO

FINDINGS (SUP-37625)

In order to approve a Special Use Permit application, per Title 19.18.060 the Planning Commission and City Council must affirm the following:

   The proposed Jewelry Store, Class III use can be conducted in a manner that is harmonious and compatible with the uses in the existing site and with the commercial uses on adjacent properties. The use is appropriate for the C-1 (Limited Commercial) zone.

2. **The subject site is physically suitable for the type and intensity of land use proposed.**

   The subject site is physically suitable for the type and intensity of the proposed use. There is adequate on-site parking for the proposed use.

RE: APN 138-01-312-004, 5861 W. Craig Rd

Dear Sir or Madam:

Please accept this letter as our request for a Special Use Permit to allow the existing Check City Payday & Auto Title Loan store to purchase gold on the premises. Recently there have been several commercials on TV for gold purchase where the customer requests an envelope, places their broken or discarded gold jewelry in the envelope and send it to the company. In turn, the company send the customer a check for approximately 10-15 cents on the dollar.

Check City would like to do something similar, only with more controls and a better situation for the customer. The customer brings the jewelry to the store and it is weighed and the customer walks away with a check for approximately 60-65 cents on the dollar-5 times more than if they mailed it. Also, the customer has control because they actually hand it over to a person, not a post office. In addition, it is held for 30 days so if the customer changes their mind they can return and get their jewelry back. Also, every purchase is reported to Metro on a daily basis. There is no resale of the jewelry, it is not a loan but a purchase of the jewelry for the gold. It will be an incidental use to the main business and is considered just another service for the customer.

The parking is adequate for the site. There is over 25,000 square feet in the center so it is calculated at 1 space per 250 square feet. There are over 80 extra parking spaces on site. Please contact me with any questions regarding this matter. Thank you for your consideration in this matter.

Yours truly,

Lucy Stewart

** STAFF REPORT **

PROJECT DESCRIPTION

This is the sixth Required Review of a previously approved Special Use Permit (U-0052-95) for a 40-foot tall, 14-foot by 48-foot Off-Premise Sign located at 336 West Sahara Avenue. A building permit (#95875443) was issued on 07/26/95 for the installation of an Off-Premise Sign at 336 West Sahara Avenue with an approved final inspection on 08/30/95. The sign is located within the Northern Strip Gateway section of the Downtown Centennial Plan that states the design and installation of any Off-Premise Signs must conform to Title 19.14 sign standards; though the sign does not meet current minimum distance separation requirements from other signs and "R" zoned properties, the sign was approved prior to the addition of these requirements of the code. Staff has no objection to the continued use of the sign and is recommending approval. If denied, the Special Use Permit for the Off-Premise sign would require the sign to be removed.

ANALYSIS

This is the sixth Required Review of a previously approved Special Use Permit (U-0052-95) that allowed a 14-foot by 48-foot Off- Premise Sign at 336 West Sahara Avenue. The sign is located in the Northern Strip Gateway District of the Downtown Centennial Plan that allows Off-Premise Signs as long as the design and installation conforms to Title 19 sign standards. The Off-Premise Sign located to the west of the subject site existed prior to the subject Off-Premise Sign, and the residentially zoned properties to the north were built between 1956 and 1962.

A building permit (95875443) was issued on 07/26/95 and received an approved final inspection on 08/30/95 for an Off-Premise Sign at 336 West Sahara Avenue. Staff conducted a field check of the subject site on 04/18/10 and found the sign faces and supporting structure in good condition, free of graffiti and bird feces. There have been recent entitlements and changes in land use for properties in the surrounding area that included a 72-story mixed use development to the east, but the entitlement has since expired.

FINDINGS

The Off-Premise Sign is located in a C-1 (Limited Commercial) zoning district and is not located within the Off-Premise Sign Exclusionary Zone. The sign faces and supporting structure are in good condition. Though the sign does not meet current minimum distance separation requirements from other signs and "R" zoned properties, the sign was approved prior to the addition of these requirements to the code; therefore, staff has no objection to the continued use of the Off-Premise Sign and recommends approval with a three-year time-limit. Conformance to the conditions of approval of the Special Use Permit (U-0052-95) shall be required.

** STAFF REPORT **

PROJECT DESCRIPTION

The site is currently under construction for a private school. This is a request for a Review of Condition to delete Condition D of a previously approved Site Development Plan Review (SDR-18342) that required the applicant to install diverters in the street on Vista Drive to prevent school traffic from making southbound turns when exiting the facility. Plan Check #31959 was submitted on 09/18/09 and is still being reviewed by various City departments. Several building permits for the project have been issued, though none have yet to be finalized. The Department of Public Works has no objection to the applicant's request as long as all other conditions of approval of the Site Development Plan Review (SDR-18342) are ultimately complied with. Though the applicant is not changing the school's drive aisle configuration on the property, City Council imposed the condition to address neighborhood concerns; therefore, staff is recommending denial of this request.

In addition to this Review of Condition (ROC-37581), the applicant has submitted five (5) related applications for the aforementioned property (VAR-37276, VAR-37277, SDR-36050, VAR-37627, and SDR-37579) that will be heard concurrently with this request.

NOTE: MAYOR GOODMAN disclosed that he has attended the temple and made contributions on days when he memorialized the passing of his mother and father, but he is not a member of the temple. DEPUTY CITY ATTORNEY JIM LEWIS advised that this does not preclude him from voting.

Minutes:
COUNCILMAN REESE declared the Public Hearing open.

ATTORNEY JAY BROWN, 520 South 4th Street, appeared with RABBI SHEA HARLIG and HOWARD PEARLMAN, Architect, and asked for approval.

PAT MULHALL, 4021 Mountain View Boulevard, President of the Artesian Heights Neighborhood Association, stated this is a low density rural neighborhood and many long time residents have appeared before the City Council in the past to continue to preserve this rural area in the heart of the city. The proposed school is not compatible with this neighborhood, as it will be placed on three adjacent lots near the center of the block. Homes will be torn down in order to squeeze in this large school. The applicant was invited to attend the homeowners association meetings where options were suggested, but a consensus was never reached. Recently the residents met with COUNCILWOMAN TARKANIAN to review a proposed traffic plan that could minimize the traffic impact through the neighborhood. After much review and discussion, the residents accepted the plan. However, a few residents still feel that the traffic generated by the school would add to the existing traffic congestion. He hopes that the applicant will join in helping preserve this unique neighborhood.

TED RUSSELL, Las Vegas resident, commended the architect on the design and expressed his support of the project.

IRIS SALLEY, 1473 Teddington Court, indicated she moved into this area to be near the school. She opined that schools belong within the neighborhoods regardless of whether they are public or private or where somebody lives. The kids belong here and not in some industrial or commercial area. Schools are part of communities and her son is comfortable attending a nearby school. The traffic exists whether or not the school will exist; it will probably change depending on the direction the traffic will be going.

ATTORNEY BROWN noted that the residents have been terrific as this has been a difficult issue. They have been accessible, as well as City staff, especially COUNCILWOMAN TARKANIAN. He pointed out there are no waiver requests and the building has been redesigned.

COUNCILWOMAN TARKANIAN greatly appreciated the efforts on both sides. The concern from the residents was not the school but its size; it is larger than the Meadows School. But in speaking with the representatives about the issue, they redesigned it and no waivers are required. She believes the school can be a great asset to the community and she feels good about them coming together. Her biggest concern is the traffic in the area.

COUNCILWOMAN TARKANIAN was pleased that the concerns expressed by the residents would be included as additional conditions, which BART ANDERSON, Public Works Department, read into the record. ATTORNEY BROWN accepted the conditions and asked if a cap on the amount of children would be included. The Councilwoman requested an additional condition for a maximum enrollment of 250 students, including the daycare.

COUNCILWOMAN TARKANIAN acknowledged the feelings of the citizens and every effort was made to work together. She understands the Rabbi's passion and what he is trying to do and appreciates him working with staff. She knows that a great thing can come from this and any bitterness will be left behind.

MAYOR GOODMAN declared the Public Hearing closed.

RE: DESERT TORAH ACADEMY (SDR-18342) MAJOR PLAN AMENDMENT / REVIEW OF CONDITION

Gentlemen:

MAJOR PLAN AMENDMENTS

The sole purpose for this request is to allow for the Removal of the Proposed Trees along the west Property Line as the property directly to the west along Arville Street is General Commercial so we feel that the need for Trees / Buffering along the West Property Line is not justified being that that there is no impact to existing commercial. Furthermore there is a 10' Cross-Access Drainage and Utility Easement so having Trees located under existing Overhead Power, Telephone and CATV will create a maintenance issue in the future. Lastly having Trees within the Cross-Access Drainage Easement can restrict the existing drainage from the west, east through the site as proposed on the Approved Grading and Drainage Plan.

REVIEW OF CONDITION

The sole purpose for this request would allow for the Removal of the Proposed Median in Vista Drive as it creates a cross-access conflict to the existing residential on the east side of Vista Drive, furthermore being that the Proposed Median creates a narrowing effect for southbound traffic on Vista Drive thus raising the concern that vehicles traveling south on Vista Dive, if they don't see the Proposed Median or veer to the right / west may or could strike a pedestrian or child who may be present on along the west sidewalk within the right-of-way. We feel that the Proposed Median creates a safety concern.

We respectfully request your approval of our requests as noted herein. If you have any questions please feel free to contact me at (702) 418-4721

** STAFF REPORT **

PROJECT DESCRIPTION

This is a request to convert a temporary construction trailer into classroom space at a primary school located at 1312 Vista Drive and 1261 Arville Street. The existing modular building was permitted and installed for use as a construction trailer, but has since been used to provide three classrooms for the existing school on Arville Street until the new school on Vista Drive opens. The new school is projected to open in August of 2010. Staff cannot support the requests as the structure does not meet the minimum rear yard setback requirement, and adequate parking has not been provided for the proposed use. No evidence of unique or extraordinary circumstances has been presented pursuant to Title 19.18.070 that would substantiate the requested variances. If denied, the structure may only be used as a temporary construction trailer.

ISSUES

- A temporary construction trailer may be permitted in conjunction with an approved development. As a temporary construction trailer, there is no additional parking requirement, nor is it subject to the setback requirements that other uses are.
- The structure is located 10 feet from the rear property line. A Variance (VAR-37276) is required as the required rear yard setback is 35 feet.
- There is not adequate parking provided at the site for the structure. A Variance (VAR-37277) is required to allow 21 spaces where 25 spaces are required.

ANALYSIS

This is a request to convert a temporary construction trailer into classroom space at a primary school located at 1312 Vista Drive and 1261 Arville Street. The existing modular building was permitted and installed for use as a construction trailer, but has since been used to provide three classrooms for the existing school on Arville Street until the new school on Vista Drive opens. The new school is projected to open in August of 2010.

The structure was permitted as a temporary construction trailer in conjunction with the approved development of the new school. As a temporary construction trailer, there is no additional parking requirement, nor is it subject to the setback requirements that other uses are. The use of the structure as a classroom facility does have an additional parking requirement of three spaces per classroom, and is required to meet all setback requirements of Title 19.08. Parking for the classrooms is to be provided on the existing school site on Arville Street, but is not adequate to meet Title 19 requirements. In addition, the structure was located 10 feet from the rear yard of the property. In the R-E (Residence Estates) zoning district, a rear yard setback of 35 feet is required. Therefore, approval of two variances is required to approve the requested Site Development Plan Review. Staff cannot support the requests as the structure does not meet minimum Title 19 requirements, and no evidence of unique or extraordinary circumstances has been presented pursuant to Title 19.18.070 that would substantiate the requested variances. If denied, the structure may only be used as a temporary construction trailer.

FINDINGS (VAR-37276)

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by locating a structure within a required setback area. Alternative site design would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.

FINDINGS (VAR-37277)

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by adding classroom space to a site without providing adequate parking. Alternative site design would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.

FINDINGS (SDR-36050)

In order to approve a Site Development Plan application, per Title 19.18.050 the Planning Commission and/or City Council must affirm the following:

1. **The proposed development is compatible with adjacent development and development in the area;**

   The proposed development is not compatible with adjacent development in the area as it fails to meet minimum setbacks and parking requirements.

2. **The proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;**

   The proposed development is not consistent with Title 19, as is evidenced by the need for variances for rear yard setback and parking.

3. **Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;**

   The classroom facility is accessed via the existing school site on Arville Street, a 60-foot right-of-way. Site access and circulation do not negatively impact the adjacent roadways or neighborhood traffic.

4. **Building and landscape materials are appropriate for the area and for the City;**

   Building materials are not appropriate as the structure is a modular building with painted wooden siding. The materials and color of the structure do not match the existing adjacent structures. The applicant is requesting a Waiver to allow no landscape buffer along the portion of the west perimeter where the structure is located; the lack of the required landscape buffer is not appropriate for the area or the City.

5. **Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;**

   The building elevations are neither desirable nor compatible with development in the area as they do not match the adjacent structures in either color or materials.

6. **Appropriate measures are taken to secure and protect the public health, safety and general welfare.**

   The proposed development is subject to permit review and inspection; therefore, appropriate measures will be taken to protect the health, safety and general welfare.

RE: DESERT TORAH ACADEMY (SDR-18342) SITE DEVELOPMENT REVIEW, VARIENCES

Gentlemen:

SITE DEVELOPMENT REVIEW UPDATE
The sole purpose for this request is to allow for a Temporary Classroom Trailer (24'x60') 12 months +/- during the construction phase for the New Desert Torah Academy at 1254 Vista Drive. Once the New Desert Torah Academy is open in August 2010, the Temporary Classroom Trailer will be removed from the site to make way for a Future Pool Facility as shown in the original SDR-18342. The Temporary Classroom Trailer will have the required ADA Access, Fire Sprinkler / Alarm System, per the City of Las Vegas Fire Department.

VARIANCES

VARIANCE 1
The Proposed Location of the Temporary Classroom Trailer is located 10' off of the west property line where 15' is required. The sole purpose for this request is to allow adequate separation from the east side of the Temporary Classroom Trailer and the west side of the New Gymnasium / Desert Torah Academy as there will be Future on-site Water, Sewer and NV Energy Lines in this area and if the Proposed Temporary Classroom Trailer was placed 15' off of the west property line as required would create a conflict and not allow for the required horizontal separation thus making the installation of said utility lines impossible.

VARIANCE 2
The parking spaces for the existing Chabad are 21 where 16 are required as originally approved. The required parking spaces for the Proposed Temporary Classroom Trailer are 9. The sole purpose for this request would be to allow for a variance of 5 parking spaces for the Temporary Classroom Trailer where 9 is required from January, 2010 through July, 2010 until such time as the Temporary Classroom Trailer will be removed to make way for the opening of the Proposed Desert Torah Academy in August, 2010. Overall there will be 21 Parking Spaces provided where 25 are required.

We respectfully request your approval of our requests as noted herein. If you have any questions please feel free to contact me at (702) 336-9886.

Sincerely,
Bill Roberts

RE: DESERT TORAH ACADEMY (SDR-18342) SITE DEVELOPMENT REVIEW, VARIENCES

Gentlemen:

SITE DEVELOPMENT REVIEW UPDATE

The sole purpose for this request is to allow for a Temporary Classroom Trailer (24'x60') 12 months +/- during the construction phase for the New Desert Torah Academy at 1254 Vista Drive. Once the New Desert Torah Academy is open in August 2010, the Temporary Classroom Trailer will be removed from the site to make way for a Future Pool Facility as shown in the original SDR-18342. The Temporary Classroom Trailer will have the required ADA Access, Fire Sprinkler / Alarm System, per the City of Las Vegas Fire Department.

VARIANCES

VARIANCE 1

The Proposed Location of the Temporary Classroom Trailer is located 10' off of the west property line where 15' is required. The sole purpose for this request is to allow adequate separation from the east side of the Temporary Classroom Trailer and the west side of the New Gymnasium / Desert Torah Academy as there will be Future on-site Water, Sewer and NV Energy Lines in this area and if the Proposed Temporary Classroom Trailer was placed 15' off of the west property line as required would create a conflict and not allow for the required horizontal separation thus making the installation of said utility lines impossible.

VARIANCE 2

The parking spaces for the existing Chabad are 21 where 16 are required as originally approved. The required parking spaces for the Proposed Temporary Classroom Trailer are 9. The sole purpose for this request would be to allow for a variance of 5 parking spaces for the Temporary Classroom Trailer where 9 is required from January, 2010 through July, 2010 until such time as the Temporary Classroom Trailer will be removed to make way for the opening of the Proposed Desert Torah Academy in August, 2010. Overall there will be 21 Parking Spaces provided where 25 are required.

We respectfully request your approval of our requests as noted herein. If you have any questions please feel free to contact me at (702) 336-9886.

Sincerely,

Bill Roberts

ANALYSIS

Institutions located within residentially zoned districts are limited to no more than one attached sign per elevation that faces directly onto a street frontage or on-site parking area. The sign area may be no more than 10% of the total area of the elevation that it is attached to. The applicant is proposing two attached signs, one over the front entry and a second one higher on the building and to the left of the entry. The combined area of the signage is less than the 10% allowed. Staff is recommending denial as the applicant has provided no evidence of unique or extraordinary circumstances pursuant to Title 19.18.070 that would substantiate the request, and the signs could be combined into a single sign that would comply with the requirements of Title 19.14.

FINDINGS

In accordance with the provisions of Title 19.18.070(B), Planning Commission and City Council, in considering the merits of a Variance request, shall not grant a Variance in order to:

1. Permit a use in a zoning district in which the use is not allowed;
2. Vary any minimum spacing requirement between uses;
3. Relieve a hardship which is solely personal, self-created or financial in nature."

Additionally, Title 19.18.070(L) states:

> "Where by reason of exceptional narrowness, shallowness, or shape of a specific piece of property at the time of enactment of the regulation, or by reason of exceptional topographic conditions or other extraordinary and exceptional situation or condition of the piece of property, the strict application of any zoning regulation would result in peculiar and exceptional practical difficulties to, or exceptional and undue hardships upon, the owner of the property, a variance from that strict application may be granted so as to relieve the difficulties or hardship, if the relief may be granted without substantial detriment to the public good, without substantial impairment of affected natural resources and without substantially impairing the intent and purpose of any ordinance or resolution."

No evidence of a unique or extraordinary circumstance has been presented, in that the applicant has created a self-imposed hardship by proposing signage that does not comply with Title 19.14. Combining the two signs into a single sign would allow conformance to the Title 19 requirements. In view of the absence of any hardships imposed by the site's physical characteristics, it is concluded that the applicant's hardship is preferential in nature, and it is thereby outside the realm of NRS Chapter 278 for granting of Variances.

Justification Letter

We are proposing (1) double faced internally illuminated monument sign measuring approximately 6'-3" x 8' (50 sq.ft).
This is within the code as there is an allowance for 1 freestanding institutional sign per street frontage and falls within the sq. footage and height requirements. The monument sign will have a 5' setback.

We are also proposing (1) set of 2' tall reverse pan channel illuminated letters with the name of the campus. The total square footage of these letters is approximately 72 sq. ft where 2 sq. ft is per code. The letters will have a "halo glow" and are not typical shopping center style letters.

We are also proposing (1) set of 18" tall illuminated pan channel letters identifying the Academy. The total square footage is approximately 56 sq. ft where 2 sq. ft. is allowed. These letters will have a perforated black vinyl that will show black during the day and a soft white light at night.

Along with the above requested signs we are proposing (1) set of 2' tall reverse pan channel address numbers. Address numbers are required by code. The lighting will be with a "halo glow". Total sq. footage is 12 sq. ft.

The campus is 65,000 sq. ft. We are requesting 140 sq. ft of illuminated wall signage where 2 would be allowed. We feel this ratio is within reason.

We would respectfully request your approval on the attached designs.

Best regards,

Dennis Connor

4. A revised technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted to update the existing building permit prior to issuance of a Certificate of Occupancy. A permanent underground sprinkler system is required, and shall be permanently maintained in a satisfactory manner; the landscape plan shall include irrigation specifications. The technical landscape plan shall include the following changes: The previously approved 15 trees shall be located elsewhere on the site subject to the approval of the Planning Development staff.

5. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

6. Site development to comply with all applicable conditions of approval for Site Development Plan Review SDR-18342 and all other applicable, subsequent site-related actions.

** STAFF REPORT **

PROJECT DESCRIPTION

This request is to amend the previously approved Site Development Plan Review (SDR-18342) to remove 15 trees from a landscape buffer required along a portion of the west perimeter at 1312 Vista Drive. There is a utility easement along the west perimeter that includes the landscape buffer area. The applicant wishes to remove the trees only from this buffer area to facilitate drainage and to prevent any conflict with overhead power lines; required shrubs would still be planted in conformance with the landscape plan that was previously approved. Staff is recommending denial as the trees will not negatively affect drainage of the site or adjacent sites, and there are trees that could be planted that would not interfere with the power lines. If denied, the site shall be developed in conformance with the approved Site Development Plan Review (SDR-18342).

DEVELOPMENT STANDARDS

Pursuant to Title 19.12 and previously approved SDR-18342, the following standards apply:

Landscaping and Open Space Standards				
Standards	*Required*		*Proposed*	*Compliance*
	Ratio	*As Approved By SDR-18342*		
Buffer: West	1 Tree / 20 Linear Feet	15 Trees	Zero	N
Min. Zone Width	8 Feet		8 Feet	Y

ANALYSIS

This request is to amend the previously approved Site Development Plan Review (SDR-18342) to remove 15 trees from a landscape buffer required along a portion of the west perimeter at 1312 Vista Drive. There is a utility easement along the west perimeter that includes the landscape buffer area. The applicant wishes to remove the trees only from this buffer area to facilitate drainage and to prevent any conflict with overhead power lines; required shrubs would still be planted in conformance with the landscape plan that was previously approved. Staff is recommending denial as the trees will not negatively affect drainage of the site or adjacent sites, and there are trees that could be planted that would not interfere with the power lines, as recommended in the "Right Tree, Right Place" brochure that is available on the website for Nevada Energy (http://www.nvenergy.com/brochures_arch/RightTreeRightPlace.pdf). Recommended varieties of trees include Dwarf Alberta Spruce, Moonlight Broom, Dogwood and Crabapple.

Civil Improvement drawings were approved on September 2, 2009 and permits were issued on September 3, 2009 for Vista Drive and all other public Improvements relating to this project. Building permits were issued for the principal building September 18, 2009, exercising the previous Site Development Plan Review (SDR-18342). As a result, this amended Site Development Plan Review will be considered to be exercised upon final approval.

FINDINGS

In order to approve a Site Development Plan application, per Title 19.18.050 the Planning Commission and/or City Council must affirm the following:

   The proposed amendment is not consistent with the planting requirements of Title 19.12.

3. **Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;**

   Site access and circulation will not change from the previous approval.

4. **Building and landscape materials are appropriate for the area and for the City;**

   Building materials will not change from the previous approval. The removal of required landscape planting materials is not appropriate for the area or for the City.

5. **Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;**

   Building elevations and design characteristics will not change from the previous approval.

6. **Appropriate measures are taken to secure and protect the public health, safety and general welfare.**

   The site will be subject to inspections and licensing and will not endanger the public health or the general welfare. Appropriate measures have been provided in the design of the drop-off areas and campus layout that will ensure that the students' and neighbors' general health, safety, and welfare are sustained.

PLANNING COMMISSION ACTION

RE: DESERT TORAH ACADEMY (SDR-18342) MAJOR PLAN AMENDMENT / REVIEW OF CONDITION

Gentlemen:

MAJOR PLAN AMENDMENTS

The sole purpose for this request is to allow for the Removal of the Proposed Trees along the west Property Line as the property directly to the west along Arville Street is General Commercial so we feel that the need for Trees / Buffering along the West Property Line is not justified being that that there is no impact to existing commercial. Furthermore there is a 10' Cross-Access Drainage and Utility Easement so having Trees located under existing Overhead Power, Telephone and CATV will create a maintenance issue in the future. Lastly having Trees within the Cross-Access Drainage Easement can restrict the existing drainage from the west, east through the site as proposed on the Approved Grading and Drainage Plan.

REVIEW OF CONDITION

The sole purpose for this request would allow for the Removal of the Proposed Median in Vista Drive as it creates a cross-access conflict to the existing residential on the east side of Vista Drive, furthermore being that the Proposed Median creates a narrowing effect for southbound traffic on Vista Drive thus raising the concern that vehicles traveling south on Vista Dive, if they don't see the Proposed Median or veer to the right / west may or could strike a pedestrian or child who may be present on along the west sidewalk within the right-of-way. We feel that the Proposed Median creates a safety concern.

We respectfully request your approval of our requests as noted herein. If you have any questions please feel free to contact me at (702) 418-4721

Sincerely,

Bill Roberts
