July 13, 2010

We, Ann & Ned Busch, respectfully request your support in our upcoming City of Las Vegas Planning Commission hearing in regards to a variance and accompanying special use permit for a horse barn on our recently purchased property. The property is located on the east side of Campbell Drive, just north of Charleston Blvd. (APN 139-32-405-008, 009, 011, 012).

The planning and building of our approximately 2,600 square foot home on the 2.5 acre property is underway. We personally own 12 horses used both for competition and recreation that we plan on keeping on the property. The property is going to be beautifully built and meticulously maintained. There will be systems in-place for both dust and insect control; the neighborhood will not notice a difference in these aspects.

The current zoning allows for more horses than we intend to have on our property, but the building code does not allow for a barn (an "accessory structure") to be built large enough to properly house them, hence the need for this variance and special use permit. Current building code does not allow for an accessory structure of more than 50% of the size of the home. In our case, the barn and hay shelter are approximately 8,000 sq ft (inclusive of ALL area under a roof, be it patio, enclosed room, exterior walkway, etc). We are asking for a variance to allow us to build a barn with more square footage than is allowed by code. The special use permit is needed as we don't meet all building design standards for accessory structures because of the 50% square footage limit.

If you support our request to the City of Las Vegas, please sign the petition below. We also welcome you to attend the Planning Commission meeting on Thursday, July 29th at 6pm at City Hall (Northeast corner of 4th St. & Stewart Ave.). And if you strongly support our request, we highly encourage you to write a short letter in support.

Thank you for your consideration,

Ann & Ned Busch
