PURPOSE/BACKGROUND:

In 2006, the Mayor and City Council passed the Climate Protection Resolution (R-57-2006) that included action to increase recycling rates in City operations and in the community. Staff findings and previous studies indicate City residential recycling rates are far below rates of comparable Western cities. Deployment of recommended recycling strategies with low cost of delivery within the City of Las Vegas can help achieve the increase of community recycling rates and fulfill the action described in the resolution.

RECOMMENDATION:

Accept report and direct staff accordingly
